 - b. A thing of value has an improper character whenever it is secured from a party that is interested in matters before, or doing or seeking to do business with, the community school, its board or employees, or where the thing of value could impair the Board Member's objectivity and independence of judgment with respect to official actions and decisions for the community school.

 - b. For the exception to apply, the subject of the contract must be necessary supplies or services for the community school, and the supplies or services must be unobtainable elsewhere for the same or lower cost, or be furnished to the community school as part of a

The Board also adopts the following regarding Ohio nonprofit corporations and a Director's interest in any contracts authorized by the Board.

F. Corporate Conflicts Law (ORC 1702.301)

Except as prohibited by R.C. 102.03 or R.C. 2921.42, any contract or other transaction between the Board and one or more of its Directors, or between the School and any entity of which one or more of the School's Directors are interested, whether such Director is a member of the Board of the School or not, shall be valid for all purposes, notwithstanding the presence of the Director at the meeting at which the Board of the School acts upon, or in reference to, such contract or transaction, and notwithstanding the participation of the Director in such action, if the fact of such interest shall be disclosed or known to the Board, and the Board nevertheless, authorizes, approves or ratifies such contract or transaction by a vote of a majority of the Directors present. The interested Director may be counted in determining whether a quorum is present, but may not be counted in voting upon the matter or in calculating the majority of such quorum necessary to carry such vote.

Conflict of Interest Policy

Section 1. PURPOSE

The purpose of the conflict of interest policy is to protect the School, an Ohio non-profit corporation and tax-exempt organization (the "Organization") interest when it is contemplating entering into a transaction or arrangement that might benefit the

private interest of an officer or director of the Organization or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

Section 2. DEFINITIONS

A) Interested Person. Any director, principal officer, or member of a committee with Corporate Board or Governing Board (collectively the “Board”) delegated powers, who has a direct or indirect financial interest, as defined below, is an interested person.

During the public official’s (interested person’s) term of office or within one year thereafter, the interested person cannot occupy any position of profit in the prosecution of a public contract authorized by a public official or by a legislative body, commission, or board of which the public official was a member at the time of authorization, unless the contract was let by competitive bidding to the lowest and best bidder.

B) Financial Interest. A person has a financial interest if the person has, directly or indirectly, through business, investment, or family:

1. An ownership or investment interest in any entity with which the Organization has a transaction or arrangement;
2. A compensation arrangement with the Organization or with any entity or individual with which the Organization has a transaction or arrangement; or
3. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the Organization is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Section 3 (B), a person who has a financial interest may have a conflict of interest only if the appropriate Board or committee decides that a conflict of interest exists.

Section 3. PROCEDURES

A) Duty to Disclose.

In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose

all material facts to the directors and members of committees with Board delegated powers considering the proposed transaction or arrangement.

B) Determining Whether a Conflict of Interest Exists.

After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the Board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining Board or committee members shall decide if a conflict of interest exists.

C) Procedures for Addressing the Conflict of Interest.

1. An interested person may make a presentation at the Board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.
2. The chairperson of the Board or committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.
3. After exercising due diligence, the Board or committee shall determine whether the Organization can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.
4. If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the Board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the Organization's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination, it shall make its decision as to whether to enter into the transaction or arrangement.

D) Violations of the Conflicts of Interest Policy.

1. If the Board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.
2. If, after hearing the member's response and after making further investigation as warranted by the circumstances, the Board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

This is to acknowledge receipt of the policy concerning Conflict of Interest. I have carefully read and understand the policy and procedures contained in the policy concerning Conflict of Interest and acknowledge that it applies to me both in my present capacity and in any future position I may hold with the school and/or board of directors. I will comply with all said policies and procedures as set forth in the policy concerning Conflict of Interest. I understand that I should immediately report any violation of this policy.

I hereby agree to notify the Governing Authority and Sponsor of any change that may create a conflict of interest or an appearance of a conflict of interest.

I understand this Policy Acknowledgement/Affirmation Statement will be filed in my official personnel folder and/or board member folder.

SECTION 120

GENERAL GOVERNANCE

Code of Regulations

The Code of Regulations is the document setting out the corporate governance of the Board in accordance with Chapter 1702 of the Ohio Revised Code, as changed from time to time by the Board pursuant thereto.

See **Appendix A** Code of Regulations.

Orientation

The Board of Directors believes that the Orientation Process is an essential process used to ensure continuous and consistent Board performance. The Board's intent is to ensure materials, training, and information are provided to new members to encourage knowledgeable and active participation from day one of membership throughout each Board member's full term.

Preparation and orientation of each Board member is critical to the Board's long term effectiveness. The Board shall encourage each new Board member to understand the functions of the Board, acquire knowledge of matters related to the operation of the School, and learn Board procedures.

Each prospective Board member candidate will be required to submit a resume or bio, with current contact information, to the Board and I CAN SCHOOLS for consideration of membership. The Board member candidate's information will be reviewed with the Board and leadership.

The prospective Board member candidate may be asked to meet with the Board president and leadership to discuss potential membership and continue the Orientation Process.

It is important to ensure that all new members are committed to the mission and vision of the Board and the management company. It is critical to the success of the school that each Board member understands the roles of governance and the roles of management to ensure a cohesive and functional partnership. The meeting will allow for the candidate to meet with the management company leadership to gain an understanding of the School operations in addition to governance responsibilities.

The Orientation Process includes the following:

1. Potential Board member candidate submits a resume or bio, with current contact information, to the president of the Board or to the management company or school leader.
2. Application and potential board member candidate information is shared with president, founders and school leader for consideration.
3. A meeting with the Board president, founders and/or school leader is scheduled to discuss the Board functions, policies and procedures, expectations and requirements, and general information about the School operations. At this time, the candidate will receive the Commitment Statement and the annual Board and School calendars and informational references to ensure that he/she has the required time and resources necessary to commit to membership of the Board.
4. If the candidate appears to have skills, expertise and ample time to commit to the Board as needed, the candidate application and resume/bio is shared with all Board members and the Orientation Process continues. If it is agreed that the potential candidate may not be the right fit for the Board, a thank you letter is sent to the candidate thanking him for his/her interest, but declining his Application.
5. Upon continuation of the Orientation Process, the potential Board member candidate is invited to tour the School and attend the next Board meeting. The candidate will observe the meeting and be available to answer any questions the current Board members may have.
6. Upon discussion with the Board members, attendance at a meeting, touring of the School, and meeting with management and school leader, the management company will prepare and provide the potential Board candidate with an electronic Board Binder for reference and review.
7. If the Board is considering new membership at the time, the Board will discuss and put to a vote the potential Board member candidate's application at the next Board meeting. If a majority of the current members vote in favor of the new Board member candidate, then the vote will approve the new member and he will become a member of the Board of Directors of the School.
8. Upon formal Board approval, the new Board member will sign the Commitment Statement and Code of Ethics/Conflict of Interest Policy as well as commit to attending any required current or future training.

SECTION 130

BOARD MEETINGS

Meetings / Executive Sessions

Meetings of the Board shall be open to the public.

The Board hereby establishes a reasonable method whereby any person may determine the time and place of all regularly scheduled public School Board meetings and the time, place, and purpose of all special meetings of the Board. The Board shall not hold a regular or special meeting unless it posts advanced notice as required by law and as stated in the Board's bylaws, and provides notice to those persons or entities that have requested notification, except in the event of an emergency requiring immediate official action. In the event of an emergency, the member or members calling the meeting shall immediately notify the customary news media and those persons or entities that have requested notification of the time, place, and purpose of the meeting.

Board shall post, put on its website (if applicable) and send to a local newspaper of general circulation, its pre-scheduled regular meetings for each school year. All other meetings of the Board shall be special meetings or emergency meetings, unless such meetings are continued from a regular meeting. Special meetings shall be posted and sent to a local newspaper of general circulation at least 24 hours in advance of the meeting time.

There are times when the Board may need to meet privately during a regular or special meeting for the purpose of clarification. When the need arises, there should be no hesitation to announce that an executive session will be held and that it is to be a closed session.

An executive session may be held to consider:

- A. the appointment, dismissal, discipline, promotion, or compensation of an employee or the investigation of charges against an employee or student unless the employee or student requests a public hearing;
- B. the purchase of property for public purposes or the sale at competitive biddings, if premature disclosure of information would give an unfair competitive or bargaining advantage to a person whose personal, private interest is adverse to the general public interest, so long as an executive session is not used to provide covert information to prospective buyers or sellers;
- C. disputes which are the subject of pending or imminent court action in conference with an attorney;
- D. preparing for, conducting, or reviewing negotiations or bargaining sessions with employees;
- E. matters required to be kept confidential by Federal law or State statutes; or
- F. specialized details of security arrangements, and emergency response protocols for a public body or a public office, if disclosure

of the matters discussed could reasonably be expected to jeopardize the security of the public body or public office.

After the meeting is convened, any member may make a motion for an executive session, stating the purpose of the session by citing one or more of the reasons set forth above. If the session is to discuss a personnel matter listed in paragraph A above, the particular subject for which the session has been called must be identified in the motion. The motion does not need to name the person. Upon receiving a second to the motion and a majority roll-call vote of those present and voting, the chairperson shall declare the Board in executive session.

Although the Board may consider certain matters in executive session, under no conditions can the Board take action on any matter except during a public session.

R.C. 121.22.

Parliamentary Authority

The parliamentary authority governing the Board shall be Robert's Rules of Order, Newly Revised, in all cases in which it is not inconsistent with statute, other law, these Policies, or other Board directive.

Voting

All motions shall require for adoption a majority vote, except as provided by statute, the Code of Regulations, or these Policies. Upon the demand of any member of the Board, the vote shall be recorded by roll call. All actions requiring a vote can be conducted by voice vote or show of hands, unless a roll-call vote is requested or required.

In certain circumstances, a majority vote of the full Board must occur, such as, to affirm, revise, vacate or modify an order of student expulsion or to reinstate a student (R.C. 3313.66(E)) (unless an authorized designee is used), or, a statutory three/fifths (3/5th) vote of the full Board must occur, such as, to reject findings or recommendations of a fact-finding panel by the Board or an employee organization under a statutory impasse resolution procedure in collective bargaining (R.C. 4417.14(c)(6)).

Unless a specified number of affirmative votes is required, an abstention shall be recorded and deemed to consent to the outcome of the voting. In situations in which a tie vote occurs and abstentions have been cast, the motion shall fail for lack of a majority.

Minutes

The Board's secretary shall keep reasonably comprehensive minutes of all its meetings showing the time and place, the members present, the subjects considered, a summary of the deliberations sufficient enough for the public to understand the basis for the Board's actions, the actions taken, and any other information required to be shown in the minutes by law, which shall be available to the public. Minutes of executive sessions shall reflect the general subject matter of discussions.

The Board's secretary shall provide each Board member with a copy of the draft minutes of the last meeting in a reasonable time before the next regular meeting.

The approved minutes shall be filed in the School office in a prescribed minute book as a permanent record of official Board proceedings.

R.C.121.22; R.C.149.43.

Attendance

Regular attendance at Board meetings is an important responsibility of each Board member. It is through Board meetings that the official business of the School is conducted, deliberations occur and members of the public have an opportunity to address the full Board.

With that responsibility in mind, Board members agree that:

- A. A member who misses three consecutive meetings, or
- B. A member who misses five meetings in a year may be deemed by the Board to have vacated his or her position on the Board and a replacement may be selected for that seat according to the Code of Regulations.

In exceptional circumstances, e.g. serious illness or injury, a Board member may be unable to attend because of reasons outside the individual's control. In this circumstance, the Board member may request in writing an attendance waiver. The request should be addressed to the Board and will be voted on by the entire Board at its next regularly scheduled meeting. The Board member requesting the waiver may not participate in the vote.

136 **PUBLIC PARTICIPATION & PUBLIC COMMENT POLICY**
GUIDELINES

Oral communications from persons other than Board members on matters before the Board or of interest to the Board shall be encouraged within reasonable limitations and shall be received at regular Board meetings within and subject to the following procedures:

1. A Request to Speak Form shall be available at each Board meeting. The form shall provide for the person's name, address, the organization the person represents and the item(s) on which the person requests to speak. Facsimiles shall be accepted;
2. A Request to Speak Form shall be submitted to the Secretary or any Board member prior to the convening of the Board meeting. The Secretary shall organize the requests in chronological order according to the Board agenda. Items appropriately assigned to new or unfinished business shall be brought up at that time;

6. Matters currently under negotiation or litigation will not be discussed in public. Matters related to personnel or involving personally identifiable student information should be addressed in executive session.
7. All persons speaking at any Board or committee meeting shall confine all their remarks to the issue(s) at hand. No person, so speaking, shall make any reference to personalities, shall make derogatory statements concerning any individual or organization or shall act in a disorderly manner. Any violation of this paragraph shall subject the speaker to immediate forfeiture of the floor and continued violation of this paragraph shall subject said person to expulsion from said meeting; and
8. Any recording equipment should be silent, unobtrusive, self-contained, self-powered and not interfere with the ability of others

present to hear, see and participate in the proceedings. Persons recording all or portions of a Board or committee meeting should inform the chair prior to doing so.

9. The Board may respond immediately following a speaker. However, some issues require research and deliberation before an appropriate response can be made. If a full response is desired, particularly for complex issues, a letter of request to the Board is recommended with questions or concerns clearly stated.

Public Participation at Meetings

The Board recognizes the value to School governance of public comment on educational issues and the importance of allowing members of the public to express themselves on School matters of community interest.

Any person or group wishing to place an item on the agenda shall register their intent with the Head of School no later than one (1) business day prior to the meeting and include:

- A. name and address of the participant;
- B. group affiliation, if and when appropriate;
- C. topic to be addressed.

In order to permit the fair and orderly expression of such comment, the Board shall provide a period for public participation at every regular meeting of the Board, and, the Board may publish rules to govern such participation in Board meetings.

The presiding officer of each Board meeting at which public participation is permitted shall administer the rules of the Board for its conduct.

The presiding officer shall be guided by the following rules:

- E. No participant may speak more than once on the same topic unless all others who wish to speak on that topic have been heard.

- F. All statements shall be directed to the presiding officer; no person may address or question Board members individually.
- G. Tape or video recordings are permitted, providing the person operating the recorder has contacted the Head of School or his/her designee prior to the Board meeting to review possible placement and agrees to the placement of the equipment, and agrees to abide by the following conditions:
 - 1. No obstructions are created between the Board and the audience.
 - 2. No interviews are conducted in the meeting room while the Board is in session.

 - 3. request the assistance of law enforcement officers in the removal of a disorderly person when that person's conduct interferes with the orderly progress of the meeting;
 - 4. call for a recess or an adjournment to another time when the lack of public decorum so interferes with the orderly conduct of the meeting as to warrant such action;
 - 5. waive these rules.
- I. The portion of the meeting during which the participation of the public is invited shall be limited to twenty (20) minutes.

R.C. 3319.22

Public Records Policy

The School will utilize the following procedures regarding the availability of public records. Any person may inspect and copy the public records of the School during the regular business hours of the office in which such records are maintained provided that advance notice of such intended inspection has been given to the custodian of the records in a reasonable time prior to inspection. A school employee or representative will be present during inspection of the records. The Board shall not limit or condition the availability of public records by requiring disclosure of the requested identity or proposed use of the records, or by asking the request to be put in writing, unless it first discloses to the requester that a) none of that information is mandatory and b) whether disclosure of that information will enhance the ability to identify, locate or deliver the records sought by the requestor.

A viewer, or a requester of copies of public records, may purchase copies of the School's public records upon payment of a fee not to exceed the cost for reproduction, supplies, mailing, delivery, transmission and/or handling. When making copies or records available, the preparer shall notify the requester of redactions or make redactions plainly visible to the requester.

If a request for public records is ambiguous, or overbroad, or not reasonably identifiable, the request may be denied so long as the requester is informed of the manner in which records are maintained and accessed by the School. Each ultimate denial, in whole or in part, shall provide the requester with an explanation, including the legal authority, as to why the request was denied, and such reasons shall be put in writing if the initial request was put in writing. The Board does not waive its rights to additional legal authority of reasons for denial by way of its written explanation to a requester.

No public record may be removed from the office in which it is maintained except by a Board officer or employee in the course of the performance of his/her duties.

The Board shall (1) participate in training concerning public records which may be required by the Ohio Attorney General and which is free of charge under section 109.43 of the Ohio Revised Code, (2) post its public records policy in a conspicuous place in all locations or branches of operations, (3) require its employee in charge of public records to sign an acknowledgement of receipt of its public records policies and (4) include its public records policy in its manuals or handbooks of general policies and procedures for all employees.

The Board authorizes the Head of School or his or her designee to dispose of, on a daily basis, routine messages transmitted by means of voice mail or E-mail, provided the messages do not alter existing School records.

R.C. 149.43

See also Policy No. 325.1 Public Records.

Records Retention and Disposal Policy

The orderly acquisition, storage and retention of School records and reports are essential for the overall efficient and effective operation of the School. The Board establishes a local records commission to govern matters pertaining to School's records, their retention and disposal.

The records commission shall consist of the board president, treasurer (CFO or fiscal agent) and superintendent or chief administrator. The treasurer shall serve as chairman/secretary of the local records commission. The members of this commission may appoint necessary records official(s) to carry out the necessary work associated with the School's records.

The records commission shall meet at least once annually to review the certificates of records disposal as submitted by the commission or any records official. Upon the approval of the commission, such records may be disposed of, pursuant to the following standards:

1. Procedures to dispose of records according to the approved schedule of records retention and disposition will be initiated by the end of the fiscal year. The procedures listed in **Appendix B** shall guide the local records commission as modified from time to time by the local records commission.
2. Records officials will list those eligible, disposable records on the certificate of records disposal form in **Appendix B**, per the adopted schedule.
3. The records commission shall review the certificates of records disposal as submitted prior to a regular Board meeting each year.
4. Upon the commission's approval, the certificates (RC-2) will be forwarded as follows:
 - Original - Forward original to Ohio Historical Society Network Specialist for your County. See attached map to determine your County Records Specialist.
 - Copies - Keep one copy with the School Records Commission files.
 - The Ohio Historical Society Records Specialist will make and send a copy to State Auditor's office on behalf of the School.
5. The commission may not review or select for its custody either of the following:
 - (A) Records containing personally identifiable information concerning any pupil attending a public school other than directory information, as defined in section 3319.321 of the Revised Code, without the written consent of the parent, guardian, or custodian of

each such pupil who is less than eighteen years of age, or without the written consent of each such pupil who is eighteen years of age or older;

(B) Records the release of which would, according to the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C.A. 1232g, disqualify a school or other educational institution from receiving federal funds.

6. Records shall be destroyed only as directed by the records secretary.

The local records commission has developed the necessary regulations and record retention schedules to carry out their purpose in this policy.

7. The commission designates the following personnel as records officials and will communicate with them in regards to matters related to record retention and disposal:

<u>Area</u>	<u>Record Officials</u>
_____	_____
_____	_____

8. Fifteen days must have elapsed after forwarding copies to the Ohio Historical Society before destroying. The records secretary will make arrangements through the business office for the staff to pick up all records for shredding.

9. A copy of the record officer's certificate of records (RC-2) disposal form should be maintained by the Commission for its records.

E-Mail and Correspondence Retention

The following retention policy for e-mail and correspondence is endorsed by the Local Government Records Program of the Ohio Historical Society. In general, the policy is based on the premise that e-mail does not constitute a category of records in and of itself. Rather e-mail is a delivery medium, like paper or microfilm, and individual e-mails should be retained according to the information which is contained in the message. There are four categories of e-mail and correspondence retention.

1. **Non-Record Materials** (delete immediately)

E-mail messages and correspondence that do not meet the criteria of being a "public record" under R.C. 149.43, because they do not document the organization, functions, policies, decisions, procedures, operations or other activities of the office, may be deleted immediately. These e-mails include:

Personal correspondence.

Publications, promotional materials and similar materials (unless specifically incorporated into other materials that are "records")

2. Official Records

A. Transient Retention (Retain until no longer of administrative value)

Transitory messages of very limited administrative value.

(e.g., a message of an upcoming meeting only has administrative value until the meeting occurs; telephone messages; drafts, and other documents which serve to convey information of temporary importance in lieu of oral communication).

B. Intermediate Retention

General Correspondence (Two years)

Internal Correspondence (letters, memos)

Correspondence from various individuals and organizations (requesting information or correspondence that is informative but does not attempt to influence policy)

Routine Correspondence (One year)

Referral letters, requests for routine information and requests for publications which are answered by standard form letters.

C. Long term Retention

Executive Correspondence

Correspondence dealing with significant aspects of the administration of their offices.

(e.g., information concerning agency policies, program, fiscal, and personnel matters).

Storing E-mail Records

For purposes of record retention, it is acceptable to store e-mails: (1) in the current e-mail system; (2) in an electronic format (e.g., in a file on a local hard drive); or (3) by saving paper print outs in a filing system. In order to ensure that someone in the agency takes responsibility for maintaining the e-mail record during the retention period, a good policy is that the individual who sends an e-mail should maintain the "record" copy. If an e-mail is received from someone outside the organization, the recipient should retain it.

 5. At the request of a party in a civil action that is based on a case the records for which are the subject of a sealing order issued under section 2151.356 of the Revised Code, as needed for the civil action. The party also may copy the records as needed for the civil action. The sealed records shall be used solely in the civil action and are otherwise confidential and subject to the provisions of this section;
 6. By the attorney general or an authorized employee of the attorney general or the court for purposes of determining whether a child is a public registry-qualified juvenile offender registrant, as defined in section 2950.01 of the Revised Code, for purposes of Chapter 2950. of the Revised Code.

20 U.S.C. §7201(c)(2); NCLB §5101(c)(2)

Religion in the Schools

Religious belief and disbelief are matters of personal consideration rather than governmental authority and that the students of this School are protected by the First Amendment from the establishment of religion in the schools. Accordingly, no devotional exercises or displays of a religious character will be permitted at the School in the conduct of any program or activity under the jurisdiction of the School, nor shall instructional activities be permitted to advance or inhibit any particular religion or religion generally.

An understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum shall be developed to include, as appropriate to the various ages and attainments of the students, instruction about the religions of the world.

The Board and School acknowledge the degree to which a religious consciousness has permeated the arts, literature, music, and issues of morality. The instructional and resource materials approved for use frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may be religious in nature shall not, by itself, bar their use by the School. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

Religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the education of the students of the School, not for its conformity to religious principles. Students should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

Accordingly, no student shall be exempted from attendance in a required course on the grounds that the instruction therein interferes with the free exercise of his/her religion.

School Prayer

Any other policy of this School notwithstanding, the School shall not prevent a student from participating in or deny a student the ability to participate in constitutionally protected prayer.

20 U.S.C. §7904(b); NCLB §9524(b)

Rights of Individuals with Disabilities

It is the policy of the School that no otherwise qualified person shall, solely by reason of his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity sponsored by the School.

As used in this policy “individual with a disability” means a person who has, or had, or is regarded or was regarded as having, a disabling condition; “disabling condition” means a physical or mental impairment that substantially limits one or more of a person's major life activities and includes specific learning disabilities.

Notice of the School’s policy on nondiscrimination in employment and education practices shall be given in this Policy manual, posted in the School, and published in any School statement regarding the availability of employment positions or special education services.

Employment

No employee or candidate for employment shall be discriminated against in recruitment, employment, promotion, training, or transfer solely because of his/her disabling condition.

No candidate for employment shall be required to answer a question regarding a disabling condition and no such candidate will be discriminated against on the basis of a disabling condition that is not directly related to the essential functions of the position for which she/he has applied.

Reasonable modifications in scheduling and the allocation of duties, not directly affecting the instructional program, shall be made to accommodate employment conditions to the needs of individuals with disabilities.

Facilities

Barrier free access to School facilities or an alternative means of providing services shall be provided as required by law so that no individual with a disability is excluded from participation in a School program solely by reason of his/her disability. The School will comply with the building, program and other accessibility requirements of the Americans with Disabilities Act (ADA) and other applicable laws.

Program

All reasonable efforts shall be made to serve the School's special needs children eligible for special education and/or related services in accordance with the School's Special Needs policy. A free appropriate public education shall be provided for each child determined to be in need of special education and/or related services. Such a program of special education shall be provided in the least restrictive environment and in barrier free facilities comparable to those provided for non-disabled students. To the maximum extent appropriate to the student's disability, a disabled student shall be placed in an educational setting with non-disabled or less severely disabled students.

No student will be denied, because of his/her disability, participation in co curricular, intramural, or interscholastic activities or any of the services offered or recognitions rendered regularly to the students of the School.

The due process rights of disabled students and their parents will be rigorously enforced.

Section 504

It is the intent of the School to ensure that students who are handicapped within the definition of Section 504 of the Rehabilitation Act of 1973, as amended (29 USC 794), are identified, evaluated, and provided with appropriate educational services. Students may be identified as handicapped under Section 504 even though they are not eligible to receive services under the Individuals with Disabilities Act.

The Head of School or his/her designee shall be the Section 504 Compliance Officer. A complaint regarding a violation of law and this policy in an employment decision shall be subject to a grievance procedure (Policy No. 228) that provides for the prompt and equitable resolution of disputes.

Procedures

The School shall annually adopt procedures for the Education of Children with Disabilities as approved by the Ohio Department of Education Office of Exceptional Children.

20 USC 1412; 34 CFR 300.220.

Child Find

The School supports and complies with all applicable federal and state laws, procedures and policies regarding the School's child find responsibilities. The School will conduct all child find activities for students who are enrolled in the School (its geographical area) so that they are appropriately located, identified and referred for evaluation. Parents or guardians have the right to review their child's records and refuse permission to release information (except as required by, or permitted by, law to be released).

Pursuant to Ohio law, the School is required to perform the same child find duties as city, local, exempted village school districts, and will endeavor to adhere to its responsibilities in a manner that does not duplicate the duties of the city, local, or exempted village school districts.

A Child Find Notice shall be published in a newspaper of general circulation in the geographic area covered by the identification activity before any major identification activity.

2. The compliance officer shall make all reasonable efforts to resolve the matter informally.
3. In the event the complaint cannot be resolved informally, the Compliance Officer will investigate the matter and will provide a written copy of his/her determination to both parties.

The Board or its designated committee may, in its discretion, convene a hearing at which the parties may present testimony and argument.
5. The Board shall provide both parties with a written decision.

The School requires that every teacher, counselor, psychiatrist, nurse or administrator complete at least four hours of in-service training in child abuse prevention, violence, and substance abuse and the promotion of positive youth development within two years of commencing employment in the School, and every five years thereafter. The School shall maintain records of staff participation in in-service child abuse detection.

Procedures for Ensuring Security of Proficiency and Standardized Tests and Test Questions

Test Coordinators

The Building/District test coordinator will be appointed in each building to oversee handling and administration of tests. This person, will be responsible for implementing test security procedures in his/her own building. The test coordinator will oversee standardized testing as well as proficiency testing.

Security of Test Booklets

Achievement and standardized test booklets shall be kept in locked places whenever they are not in use. The district/building test coordinator and/or his/her designee will issue tests to teachers at the beginning of each day of the testing period, recording

the sequence numbers of tests issued to each teacher, and will ensure that all testing materials are returned.

Teachers will return tests as soon as possible after each day's testing session and will check them out again each morning of the testing period.

Separate sets of make-up tests will be provided to each district/building test coordinator so that basic sets of materials can be returned intact on the announced day of pick-up. Make-up tests are to be checked out to teachers and checked back in daily. At the end of the make-up testing period, these will be returned in complete sets.

Security of Test Contents

All test questions and materials printed in standardized and achievement test booklets (except those included in practice tests) shall be secure. No unauthorized person shall be permitted to see or have access to any standardized or proficiency test booklets or contents.

Test materials shall be returned in a timely fashion to the district/building test coordinator and not retained by either a staff person or a student.

Investigation of Alleged Violations of Test Security Procedures

Initial investigation of an alleged staff or student violation of test security procedures shall be conducted by the district/building test coordinator and shall include:

1. questioning the alleged violator and/or witnesses to the alleged violation;
2. confronting the alleged violator with evidence of the violation and
3. allowing the alleged violator to present his/her own defense.

If, after investigation, the district/building test coordinator is convinced that a violation has actually occurred, he/she shall report to the Superintendent, in writing, a description of the violation, how the act was investigated, any comments the alleged violator wishes to have included in the report, and conclusions reached. The Superintendent, who will, with his/her staff, with or without further investigation, determine whether an actual violation appears to have taken place; and, if so, will report the case to the Board. The Board may investigate the matter further; will hear the alleged violator if he/she wishes to present a defense; will make the final decision as to whether a violation has occurred; and, if the violator is an employee rather than a student, determine what penalty to impose.

With 10 days of the Board's confirmation of a violation, the Building/District test coordinator will, in accordance with paragraph (E) (6) of Rule 3301-12-06 of the Ohio

Administrative Code, report the finding and action taken to the State Board of Education. The School will cooperate with the State Board in any investigation of a test security violation by a professional school employee.

Penalties for Confirmed Violations of Test Security

When it has been determined that an employee of the School has violated test security provisions, the School Board and/or the State Board may seek the maximum penalty or penalties pursuant to section 3319.151 of the Ohio Revised Code. After making its own appropriate investigation and hearing a professional person's defense, the State Board may suspend the employee's certificate for one year. At the local level, the maximum penalty for any staff person is termination of employment. A person who violates the provisions of confidentiality of test questions is guilty of a minor misdemeanor. IT IS FURTHER RESOLVED that the application review and acceptance process is as follows:

1. The enrollment window ends on the date reflected on the designated application at 5:00 p.m. local time.
2. Hereafter, all applications for each grade are counted.
3. The number of seats available and the number of applications will be compared.
4. Currently enrolled students are placed first.
5. Enrollment preference is given to students residing in the district where the School is located and to siblings of placed students.
6. After current students and siblings and students residing in the district where the School is located are placed, the number of vacancies is confirmed.
7. Enrollment preference is given to children of full-time staff members employed by the School, provided the total number of students receiving this preference is less than five per cent of the school's total enrollment. If the number of students eligible for this preference exceeds five per cent of the school's enrollment, students are admitted by random lottery according to the Lottery Process (below).
8. After current students and siblings, and students residing in the district, and children of full-time employees of the School are placed, the number of vacancies is confirmed.
9. If there are fewer applications at any one grade level than there are vacant seats, all of the applicants that are left will be enrolled. However, if there are more applications than there are available seats at any one grade level, a Lottery will be held.

IT IS FURTHER RESOLVED that a Lottery Process will be utilized to ensure that children in the School receive a fair and equitable opportunity to enroll in and attend the school. The Governing Authority has created Lottery Process guidelines as follows:

The Lottery Process

The lottery drawing date will be publicized and the drawing conducted in public so that parents can observe the process and assure its transparency. At least two independent observers will also be present at the drawing; one of these observers will draw the lottery results.

1. The lottery is a system of random selection of applications that identifies students for enrollment in vacant seats. It also generates the school's wait list. The lottery and wait list are separated by age group or grade level.
2. After all current students and their siblings are placed, and students residing in the district where the School is located are placed, and children of full-time employees of the School are placed, all other completed and accepted applications submitted during the enrollment period, including applicants currently on a wait list, are publicly drawn by a disinterested third party in random order until capacity is reached.
 - a. Special needs and ELL students are included in the lottery process.
3. Names are drawn from each grade level envelope, beginning with the lowest grade.
4. The selected students are placed on a list assigning them to the appropriate grade by the independent observers.
5. If a selected student has any siblings applying for that grade or any other grade at the School, the siblings are automatically accepted and placed in the appropriate grade if there is space available. If there is no space due to the grade(s) being full, the siblings are placed on the wait list.
6. The process continues until every child who has applied is either placed in an open seat or is assigned to the wait list. Applicants on a wait list prior to the lottery will retain their original position on the wait list.
7. Parents will receive written notice of the lottery results within 10 calendar days of the drawing. They must accept their child's placement within 10 calendar days of being notified. Parents must provide all documentation from the Document Check List (above) by a given due date before their child can begin attending the school. If documentation is not provided by the due date, the child will no longer be considered eligible and the seat will be offered to the next student on the waitlist.
8. Wait List: The wait list will remain in effect for the entire school year or until all students have been placed. Throughout the year, new applicants to grades for which there is a waitlist will be placed on the list and placed in the order in which their applications were received. If a parent refuses their child's assigned placement, they are removed from the wait list, and the next name on the wait list is called.

IT IS FURTHER RESOLVED that this policy, as amended, shall be included in handbooks, enrollment packets, and/or the school's website in full or in part, in an effort maintain transparency as it may remain practicable.

If there are more applicants than there are spaces, a lottery will be conducted in the following manner:

- Each applicant will be assigned a number;
- The numbers will then be drawn at random by a disinterested third party;
- The first number drawn will be the first new applicant placed on a permanent waiting list and so on until all numbers are drawn;
- Applicants on a permanent waiting list prior to any lottery will retain their position on the waiting list;

- The school may separate the lottery and the waiting lists for each grade or age grouping;
- Students attending the previous year will have preference for a position in the current year, even though they may be in a different age or grade group;
- Siblings may be given preference for the next open position.

R.C. 3313.672

242 Student Assessment

The School shall comply with the Ohio Proficiency Testing requirements of R.C. §3301.0710 and .0711. The Head of School or his/her designee shall be responsible for all testing procedures.

242.1

Previously Home-Schooled Student Testing Policy

Previously home-schooled students enrolling at the School will be given a diagnostic test in order to determine the appropriate grade level placement. Although the age of the student is considered, the School is committed to setting high standards for students and is not a proponent of social promotion.

Third-Grade Reading Intervention Policy

The School is committed to providing the best possible education for its students. This includes providing added opportunities to learn and grow beyond the school year.

In accordance with State of Ohio requirements, all third-grade students receiving a score below the proficient level on the Ohio Reading Achievement Test will be given the opportunity to attend a special summer reading course. This course may include tutoring or additional programs to assist students with the Reading Achievement Test. This will culminate in a second opportunity to take the Ohio Reading Achievement Test.

The decision to promote or retain a student at that grade level depends upon several factors but may include scores on the Ohio Reading Achievement Test.

R.C. 3313.608.

243 Reporting Student Progress and Grades

The School will utilize a range of assessment methods to judge student performance. The School recognizes its responsibility for providing a system of grading student achievement that can help the student, teachers and parents judge properly how well the student is achieving the goals of the School's Program. [See also policy nos. 203 to 203.5 on Parent Involvement.]

The Board believes that the School's grading system should be a reliable system and one that ensures each student's grades signify accurately his/her degree of accomplishment of those expected learning goals which are to be stated for each program at every grade level, kindergarten through 12.

The Head of School or his/her designee shall develop procedures for grading which

1. Have clear, consistent criteria and standards particularly when grades are based on subjective assessment;
2. Help each student understand in each course or program what behavior and/or achievement is needed to earn each grade as well as what will produce a failing grade; and
3. Provide frequent opportunities for each student to obtain information as to his/her progress toward the learning goals of his/her courses or programs.

The teacher responsible for a student's instruction in a particular course or program shall determine the student's grade. That grade may not be changed without the permission of the Head of School or his/her designee.

244 Retention and Promotion

Promotion, Placement, and Retention Policy

The School believes that students should only be promoted when they have demonstrated mastery of specific academic standards. The School is founded upon the understanding that promoting students to the next grade because of their age, not their readiness to do the work, is not beneficial to students. Thus, one of the most critical and distinctive aspects of the School's academic program is its promotion policy. To build a culture of learning and achievement, and to ensure students demonstrate readiness for the next grade level, we have developed this **Promotion, Placement, and Retention Policy**.

We expect that with our multiple layers of student supports that are part of our extended day, week, and year, the majority of students will successfully meet our academic expectations.

Students who do not demonstrate readiness will not be promoted.

The Governing Authority (hereinafter “Board”) recognizes that the personal, social, physical, and educational growth of children will vary and that they should be placed in the educational setting most appropriate to their needs at various stages of their growth.

Promotion Requirements

It shall be policy of the Board that each student be moved forward in a continuous pattern of achievement and growth that is in harmony with their own development. Such pattern should coincide with the system of grade levels established by the Board and the instructional objectives established for each child. Thus, a student will be promoted to the succeeding grade level when they have:

1. completed the course and State-mandated requirements at the presently assigned grade,
2. in the opinion of the professional staff, achieved the instructional objectives set forth for the present grade,
3. demonstrated sufficient proficiency to permit him/her to move ahead in the educational program of the next grade,
4. demonstrated the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade, and
5. complied with all school attendance policies or have not been absent for more than 10 percent of the total number of required school days in the current school year and failed more than two subjects. A student absent in excess of 10 percent of the total number of required school day in the current school year *may be* promoted if in the opinion of the principal and teachers of any failed subject areas agree the student is academically prepared for the next grade level. .

6. A student may be allowed to advance to the next grade level when in the opinion of the principal and teachers of any failed subject areas, retention would no longer serve the student any good purpose.

Retention Guidelines

A student may be retained at their current grade level when they have:

1. in the opinion of the professional staff, failed to demonstrate proficiency in mathematics and reading the core subjects of language arts,
2. in the opinion of the professional staff, failed to achieve the instructional objectives set forth at the current grade level that are requisite for success at the succeeding grade level,
3. scored at the below basic level on any State-mandated proficiency test, or

failed to comply with the school's attendance policies or has been declared a truant, defined as being absent without excuse for more than 10 percent of the required attendance days of the current school year and have failed two or more of the required curriculum subject areas. A student may be placed at the next grade level when retention would no longer serve any good purpose.

Director's Responsibilities

The Director shall develop administrative guidelines for promotion, placement, and retention of students that:

- ☐ requires the recommendation of relevant staff members,
- ☐ requires that parents are informed in advance of the possibility of retention,
- ☐ assures efforts will be made to remediate the student's difficulties before they are retained, and
- ☐ assigns to the Director the final responsibility for determining the promotion, acceleration, placement, or retention of each student.

Additionally, any student in grades Kindergarten through Third that are identified as being not-on-track to attain the appropriate level of reading for their current grade

level as determined by the Reading Diagnostic Assessment may be retained in their current grade level in accordance with ORC 3313.608(B)(2)(a) if the appropriate level of reading is not attained by the end of the school year.

When necessary, the school will send home a letter to families of students failing or struggling in their classes – based on the progress monitoring assessment data. This letter will indicate that unless work habits, effort, and achievement improve, The student may be retained in their current grade level. Instructional services may be provided and/or required including attendance in after school tutoring and Saturday school until the student shows improvement. Student improvement will be monitored by teachers, administrators and parents.

These letters and will continue throughout the year until the core academic teachers and administration feels that the student is at a satisfactory level academically. If a student completes the school year in compliance with the attendance policy and has achieved the required scores academically, then the student will progress to next grade. Otherwise, the student will be retained in the same grade the following year. Students that are retained in compliance with the Third Grade Guarantee policy may be subject to grade elevation or the inclusion in additional academic services. Students that are retained in compliance with the Third Grade Guarantee policy may be subject to mid-year promotion if he/she demonstrates proficiency in all areas he/she was previously retained for.

SECTION 250

ATTENDANCE

General Policy

Students enrolled in the School must attend School regularly in accordance with the laws of the State. The educational program offered by the School is predicated upon the presence and punctuality of the student and requires continuity of instruction and classroom participation. A parent must contact the School in accordance with the procedure set forth in policy no. 252 whenever a student is absent.

Attendance shall be required of all students enrolled at the School during the days and hours that the School is in session. Attendance need not always be within the School facilities, but a student will be considered to be in attendance if present at any place where School is in session by authority of the Board.

ATTENDANCE, ABSENCE AND TRUANCY POLICY

It is imperative that students be in attendance each school day in order not to miss a significant portion of their education. Important learning results from active participation in classroom and other School activities, which cannot be replaced by individual study.

The School is committed to helping students develop a high quality work ethic, which will be a significant factor in their success with future employers. One of the most important work habits that employers look for in hiring and promoting a worker is his/her dependability in coming to work every day and on time. This is a habit the School wants to help students develop as early as possible in their School careers.

TRUANCY

A “habitual truant” is a child of compulsory school age who is absent without legitimate excuse for thirty or more consecutive school hours, forty-two or more school hours in one school month, or seventy-two or more school hours in a school year.

A child is “excessively absent” if he or she is absent, with or without excuse, for thirty-eight or more hours in one school month or sixty-five or more school hours in one school year.

Ohio law demands that any student who, without legitimate excuse, fails to participate in **72** consecutive hours of learning opportunities offered to the student by the School shall be automatically removed from enrollment at the School. The School will provide notice of such a removal to the student, the student’s parent/guardian, the public school district in which the student’s parent/guardian resides and any other agency required by law.

The School shall attempt to address student attendance problems through a variety of prevention and intervention strategies. These measures may include, but are not limited to, the following:

1. Assignment of student to an Absence Intervention Team, who will work with the student and the student's parent/guardian to develop an appropriate intervention plan;
2. Notification to the student's parent/guardian within seven (7) days of an absence triggering a determination of 'habitual truancy' or 'excessive absences';
3. Offering counseling and community resource guides to the student and the family of a student with attendance/truancy problems;
4. Requiring the parent/guardian to contact the School to discuss the student's absences;
5. Giving a student and his/her parent/guardian written notice of the possible legal consequences of truancy; and/or
6. Referring the matter to the local juvenile court for consideration;

The School will endeavor to work cooperatively with the local juvenile court and other appropriate state and local agencies to deal with the issue of excessive absences and habitual truancy. The School will assure:

1. The attendance policy will be issued annually to parents/guardians (parents/guardians are asked to acknowledge receipt of the policy in writing);
2. The School will maintain a "flagging" system to identify students who may become excessively absent or habitually truant before they meet the mandatory timelines for classification as such. Parent/Guardians of these students are to be informed of the concern and consequence of such absenteeism;
3. An attendance officer is appointed for the School. This attendance officer will oversee the Absence Intervention Teams, strategies, plans and processes. This person may also be subpoenaed to Court to verify and testify should there be questions about attendance issues;
4. The School shall designate an Attendance Intervention Team comprised of at least two representatives of the School who will work together with students and parents on absence intervention plans, strategies and efforts;
5. The parent/guardian of a student with attendance/absence/truancy issues will be invited to participate as a member of the Absence Intervention Team that is assigned to that student;
6. Letters of notification and warning will be sent by USPS mail, electronic mail or other manner requested by the to the parent/guardian of each excessively absent or habitual truant; and
7. The School will ensure that all required reports are made when a child meets the habitual truant or excessive absence standard.

Teachers are encouraged to consult with the PRINCIPAL about a student's attendance problems and to suggest to students and their parents that more formal intervention may become necessary.

EXCUSED ABSENCES

Students may be excused from the School for one of the following reasons and will be provided an opportunity to make-up missed School work and/or tests:

1. Personal illness but not illness in the family unless the circumstances are approved by the PRINCIPAL;
2. Death in the immediate family;
3. Bona-fide religious holiday;
4. Professional appointments that cannot be scheduled at non-school times;
5. Pursuant to an age and schooling certificate; or
6. Absences approved by the PRINCIPAL for good cause.

Students with a health condition that causes repeated absence are to provide the School's office with an explanation of the condition from a registered physician.

The parent/guardian of a minor student must provide an explanation for his/her child's absence by no later than 9:00 a.m. on the day of the absence or send a note the following day. The parent/guardian is to call the School's office [and explain the reason for the absence]. If the absence can be foreseen (the "good cause" must be approved by the PRINCIPAL), the parent/guardian should arrange to discuss the matter as many days as possible before the absence will occur so that arrangements can be made to assist the student in making up the missed school work.

Students who are excusably absent for more than ten (10) days in a grading period, regardless of the reasons, may be considered "frequently absent". If there is a pattern of frequent absence for "illness", the parent/guardian may be required to provide a statement from a physician describing the health condition that is causing the frequent illness and the treatment that is being provided to rectify the condition. Students that miss more than 15 days of school, whether excused or unexcused, may be retained in their grade for the following academic year if their academic progress is negatively impacted by the absences. Exceptions to this rule are at the discretion of the principal/superintendent.

EXCUSABLE, NON-APPROVED ABSENCE

If a student is absent from the School because for a legitimate reason as detailed above, which reason is explained in writing by the parent/guardian within a reasonable time after the absence, the classification of the absence will be changed from 'unexcused' to 'excused' and the student will be given the opportunity to make up the schoolwork that is missed to the extent practicable.

UNEXCUSED ABSENCES

Any student who is absent from the School for all or any part of the day without a legitimate excuse will be considered truant for the actual amount of time absent, rounded to the nearest hour, and the student and his or her parent/guardian will be subject to the truancy laws of the State. Students may be precluded from making up school work that is missed during a period of truancy.

NOTIFICATION OF ABSENCE

If a student is going to be absent, the parent should contact the School by 9:00 a.m. and provide an explanation. If prior contact is not possible, the parents should provide a written excuse as soon as possible. When no excuse is provided, the absence will be unexcused and the student will be considered truant.

An excused absence allows the student to make up all possible work. It is the responsibility of the student to obtain missed assignments. It is possible that certain kinds of schoolwork such as labs or skill-practice sessions cannot be made up and, as a result, may negatively impact a student's grade.

The skipping of classes or any part of the School day is considered an unexcused absence and no make-up of class work will be permitted.

TARDINESS

A student who is not in his/her assigned location by the start of the school day shall be considered tardy. Any student arriving late to the School is to report to the School's office before proceeding to class. If a student misses any part of the instructional school day, his/her attendance is affected. The actual time that a student is tardy will be recorded to the nearest hour and the total amount of time that a student is tardy is considered in determination of excessive absences and habitual truancy.

A academic record of a student who is tardy 15 or more times during the school year may be automatically reviewed to determine whether the student is academically prepared for promotion to the next grade level.

VACATIONS DURING THE SCHOOL YEAR

Parents are encouraged not to take their child out of the School for vacations. When a family vacation must be scheduled during the school year, the parents should discuss the matter with the PRINCIPAL and the student's teacher(s) to secure approval and make necessary arrangements. Approval of absences for vacations is in the sole discretion of the Principal and is not automatic. A student who has been excessively absent or habitually truant is not likely to receive approval for a vacation-related absence. If approval is given, it may be possible, at the discretion of each teacher, for the student to receive certain assignments that are to be completed during the trip.

MAKE-UP OF TESTS AND OTHER SCHOOL WORK FOR EXCUSED ABSENCES

Students who are excusably absent from School shall be given the opportunity to make-up work that has been missed.

Students will be given the number of days of excused absence within which to make-up work. Students will not be given an exemption from making up any work or classroom assessments that were given unless excused by the teacher.

STUDENT ATTENDANCE AT SCHOOL EVENTS

The School encourages students to attend as many School events held after school as possible, without interfering with their schoolwork and home activities. Enthusiastic spectators help to build School spirit and encourage those students who are participating in the event.

However, in order to ensure that students attending evening events as non-participants are properly safeguarded, it is strongly advised that a parent or adult chaperone accompany students when they attend the event.

The School will continue to provide adequate supervision for all students who are participants in a School activity. Students must comply with the Code of Conduct at School events, regardless of the location. Student behavior may prohibit attendance at school events.

Missing and Absent Children

The Board believes in the importance of trying to decrease the number of missing children. Therefore, efforts will be made to identify possible missing children and notify the proper adults or agencies.

A student at the time of his/her initial entry to school shall present to the person in charge of admission any records given to him/her by the elementary or secondary school s/he most recently attended and a certification of birth* issued pursuant to Section 3705.05 of the Ohio Revised Code or in lieu of a birth certificate, birth documentation may include:

1. A passport or attested transcript thereof filed with the registrar of passports at a point of entry of the United States showing the date and place of birth of the child;
2. An attested transcript of the certificate of birth;
3. An attested transcript of the certificate of baptism or other religious record showing the date and place of birth of the child;
4. An attested transcript of a hospital record showing the date and place of birth of the child; or
5. A birth affidavit.

If the student does not present copies of the required documents, the principal shall call the school from which the student transferred and request the information. If that district has no record on file of the student or if that district does not send the records within a reasonable time, or within fourteen (14) days of the date of request, or if the student does not present a certification of birth or comparable certificate or certification from another state, territory, possession, or nation, the Head of School or his/her designee shall notify the law enforcement agency having jurisdiction in the area where the student resides of this fact and of the possibility that the student may, be a missing child, as this term is defined in Section 2901.30 of the Ohio Revised Code.

The primary responsibility for supervision of a student resides with his/her parent(s)/guardian(s). The staff provides as much assistance as is reasonable to the parent(s)/guardians(s) with this responsibility.

The Head of School or his/her designee will also immediately give notice of the fact of a missing child to the Ohio Attorney General's missing children clearinghouse. The Head of School or his/her designee will also assist parents in the case of a missing student by coordinating with the missing children clearinghouse.

Informational programs for students, parents, and community members relative to missing children issues and matters are available from the Head of School or his/her designee, including information regarding the fingerprinting program. The Head of School's or his/her designee's informational programs are based on assistance and materials provided by the Ohio Attorney General's missing child education program.

The primary responsibility for a student's attendance at School rests with his/her parent(s) or guardian(s). Parent(s)/guardian(s) must notify the School on the day a student is absent unless previous notification has been given in accordance with school procedure for excused absences. The Head of School or his/her designee is also required to notify a student's parents, custodial parent, guardian, legal custodian, or other person responsible for him/her when the student is absent from school. The parent or other responsible person shall be notified by telephone or written notice shall be mailed on the same day that the student is absent. Parents or other responsible persons shall provide the School with their current home and/or work telephone numbers and home addresses, as well as emergency telephone numbers.

The procedure for absences is as follows:

1. A parent must call the School to inform the School that his/her child or children will be absent from School. This phone call should take place within the first hour that School is in session.
2. If a parent fails to call the School as prescribed in Part A, School personnel will call the parent to inform him/her of the student's absence.
3. In those cases where telephone communication could not be made, School personnel will initiate a written communication to the home of the legal guardian the day of the student's absence.

*May substitute any of the following documents for a birth certificate: 1) a passport or attested transcript showing the date and place of birth of the child; 2) an attested transcript of a birth certificate; 3) an attested transcript of a baptism certificate or other religious record showing the date and place of birth of the child; 4) an attested transcript of a hospital record showing date and place of birth, or 5) a birth affidavit.

R.C. §109.65; R.C. §3313.96; R.C. §3313.672

Fingerprinting Students

The School recognizes the advantage to both parents and law enforcement agencies of a means of identifying children who have become lost or have been abducted. Accordingly, the School will cooperate with legal law enforcement agencies in the voluntary fingerprinting of students enrolled at the School.

72 Hour Rule and Automatic Withdrawal

The Schools shall adhere to the requirements of Ohio Revised Code Section 3314.03(A)(6)(b) regarding automatic withdrawal of students for seventy-two (72) hours of consecutive non-participation in offered learning opportunities in its entirety, and that this policy is adopted for such purpose.

Effective November 2, 2018, the Schools shall automatically withdraw a student from the School if the student fails to participate in seventy-two (72) consecutive hours of the learning opportunities offered to the student by the Schools, without a legitimate excuse.

SECTION 260

STUDENT CONDUCT/RIGHTS

Student Expression

The School recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, nonsponsored, noncommercial written material and petitions: buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet the following School guidelines:

- A. A material cannot be displayed if it:
 - 1. is obscene to minors, libelous, indecent, or vulgar,
 - 2. advertises any product or service not permitted to minors by law,
 - 3. intends to be insulting or harassing,
 - 4. intends to incite fighting or presents a likelihood of disrupting School or a School event.
- B. Materials may not be displayed or distributed during class periods, or during passing times between classes. Permission may be granted for display or distribution during lunch periods and after School in designated locations, as long as exits are not blocked and there is proper access and egress to the building.

See also Policy No. 265 Disorder and Demonstration and Policy No. 281 School Sponsored Publications.

Student Bill of Rights/Responsibilities

The Board recognizes that students possess not only the right to an education but the rights of citizenship as well.

In granting students the education to which they are entitled, the Board shall provide them with the nurture, counsel, and custodial care appropriate to their age and maturity. At the same time, no student shall be deprived of the basic right to equal treatment and equal access to the educational program, due process, a presumption of innocence, free expression and association, and the privacy of his/her own thoughts.

Attendant upon the rights guaranteed to each student are certain responsibilities, which include respect for the rights of others, obedience to properly constituted School authority, and compliance with the rules and regulations of the School.

The Board realizes that as students differ in age and maturity, so they differ in ability to handle both the rights of citizens and the concomitant responsibilities. The exercise of each right shall be granted, therefore, with due regard for the degree of responsibility possessed by the student and the student's need for the continuing guidance and control of those responsible for his/her education.

A student who has reached the age of majority possesses the full rights of an adult and may authorize those School matters previously handled by his/her parents. Each student who has reached the age of majority shall assume the full responsibility for his/her performance in School, attendance and compliance with School rules and regulations.

As members of the School community, students have both rights and responsibilities described in part below.

1. All individuals are deserving of respect and acceptance. Both adults and youth at the School will exhibit respectful behavior in their speech and actions. All individuals are expected to set positive examples.
2. Students have a right to a learning environment free from physical and verbal threats and harassment. Individuals must not threaten or harass others. Neither must they cause or encourage threatening or harassment of others.
3. Students have a right to learn free from excessive distractions. Individuals must maintain behavior, including dress, vocalization, and other actions, which allows others to learn.
4. Students have a right to the ownership, possession, and respect of their property. Individuals must obtain permission before taking and/or utilizing the property of others. For exceptions, see policy no. 268 Search and Seizure. Property must be treated with care and respect.

5. Students have a right and are encouraged to ask questions when they do not understand, as long as the questions are presented respectfully and are appropriate for the setting. At times, questions may need to be deferred.
6. Students have a right to disagree with statements and policies affecting them as long as the students' positions are stated respectfully and in a way which does not disrupt the functioning of the class. Disagreement does not mean that statements and policies affecting students will be changed.
7. Students have a right to obtain an explanation of rules and expected behaviors before they are accused of breaking the rules.

263

264.1

Anti-Harassment, Intimidation and Bullying Policy

The School prohibits acts of harassment, intimidation, or bullying (including cyber-bullying) of any student on school property or at school-sponsored events. A safe and civil environment in the School is necessary for students to learn and achieve high academic standards. Harassment, intimidation and bullying, like other disruptive or violent behaviors, are conduct that disrupts both a student's ability to learn and the School's ability to educate its students in a safe environment. Since students learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate bullying.

Harassment, intimidation, or bullying means any deliberate or intentional gesture, or any deliberate or intentional written, verbal, or physical act or threat that a student has exhibited toward another Student or Staff member and the behavior both: (1) has one or more of the following effects: (a) harming a Student or Staff member; (b) damaging a Student's or Staff member's property; (c) placing a Student or Staff member in reasonable fear of harm to the Student's or Staff member's person; (d) placing a Student or Staff member in reasonable fear of damage to the Student's or Staff member's property; and (2) is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for a Student or Staff member.

The School prohibits acts of cyber-bullying, which is a sub-set of bullying and involves the use of information and communication technologies, including but not limited to e-mail, cell phone and two-way text messages, blogs, MySpace, Facebook, Wikipedia, Bebo, the Internet, Xanga, Piczo, Twitter, IM instant messaging, defamatory personal Web sites, and defamatory online personal polling Web sites, to support deliberate or repeated, or hostile behavior by an individual or group, that is intended to harm, intimidate or harass others on School time or the School premises, at School events, programs or activities or off School time or School premises if such acts affect other Students or Staff of the School.

The School reserves the right to discipline students' off campus behavior which substantially disrupts the School's educational process or mission, or threatens the safety or well-being of a Student or Staff member. Some factors which may be considered in determining whether the behavior warrants discipline include, but are not limited to, the following: (1) whether the behavior created material and substantial disruption to the educational process or School's mission due to the stress on the individual(s) victimized or the time invested by Staff in dealing with the behavior or its consequences; (2) whether a nexus to on-campus activities exists; (3) whether the behavior creates a substantial interference with a Student's or Staff member's security or right to educate and receive education; (4) whether the behavior invades the privacy of others; or (5) whether any threat is deemed to be a true threat by the administration or Board, using factors and guidelines set out by the courts or by common sense, reasonable person standards.

Some acts of harassment, intimidation, bullying and cyber-bullying may be isolated incidents requiring that the school respond appropriately to the individuals committing the acts. Other acts may be so serious or part of a larger pattern of harassment, intimidation, bullying or cyber-bullying that they require a response

either at the classroom, School building or by law enforcement officials. Consequences and appropriate remedial actions for students who commit an act of harassment, intimidation, bullying or cyber-bullying range from positive behavioral interventions up to and including suspension or expulsion.

All School employees, volunteers and students are required to report prohibited incidents of which they are aware to the Principal(s) and/or Head of School. The Principal(s) and/or Head of School are then responsible for determining whether an alleged incident constitutes a violation of this policy. In so doing, the Principal(s) and/or Head of School shall conduct a prompt, thorough and complete investigation of the reported incident, and prepare a report documenting the prohibited incident that is reported. Once an investigation is completed, and the reported incident has been substantiated, the parent or guardian of any student involved in the prohibited incident shall be notified and to the extent permitted by R.C. § 3319.321 and the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) have access to any written reports pertaining to the prohibited incident. The School will maintain, via the education management information system, information regarding the number of incidents of harassment of Students against other Students, in each building and School-wide, that violates this policy. All School employees, volunteers and Students shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy.

The School prohibits reprisal or retaliation against any victim or person who reports an act of harassment, intimidation or bullying. The consequence and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the Principal(s) and/or Head of School after consideration of the nature and circumstances of the act, in accordance with School policies and procedures.

Nothing in this policy prohibits a victim from seeking redress under any provision of Ohio law that may apply.

The School may form a prevention task force and/ or programs to educate students about this policy, such as holding an assembly on harassment, intimidation and bullying for Parents and Students, to raise the level of awareness and help prevent the prohibited conduct. The School may also provide training, workshops, or courses on this policy to school employees and volunteers who have direct contact with students. *R.C. §§ 3301.0714(B)(1)(p); 3313.666, 3313.667*

Anti-Harassment, Intimidation and Bullying Policy

Article I **Purpose**

The Harassment, Intimidation and Bullying Policy of **Akron, Canton College, Lake Erie and Ohio College Preparatory Schools** (the “School”), Ohio non-profit corporations and tax-exempt organizations, have been established to set forth requirements of the Ohio Department of Education and Ohio Revised Code with respect to school policies prohibiting harassment, intimidation or bullying.

Article II **Policy**

1. It is the policy of the School that any form of bullying behavior, whether in the classroom, on school property, to and from school or at school-sponsored events, is expressly forbidden.
2. The disciplinary procedure for any student guilty of harassment, intimidation, or bullying shall not infringe on any student's rights under the first amendment to the Constitution of the United States.
3. The School's administration shall semiannually provide the president of the board of directors a written summary of all reported incidents and post the summary on its web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended.
4. The School's policy on harassment, intimidating and bullying shall appear in any student handbooks, and in any of the publications that set forth the comprehensive rules, procedures, and standards of conduct for schools and students. Information regarding the policy shall be incorporated into employee training materials.
5. Any School employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with a policy adopted pursuant to this policy if that person reports an incident of harassment, intimidation, or bullying promptly in good faith and in compliance with the procedures as specified in this policy.
6. Except as provided in paragraph five (5) above, nothing in this section prohibits a victim from seeking redress under any other provision of the Ohio Revised Code or common law that may apply.
7. This policy does not create a new cause of action or a substantive legal right for any person.
8. Students who have been determined to have engaged in prohibited behaviors are subject to disciplinary action, which may include suspension or expulsion from school. The School's commitment to addressing such prohibited behaviors, however, involves a multifaceted approach, which includes education and the promotion of a school atmosphere in which harassment, intimidation or bullying will not be tolerated by students, faculty or school personnel.
9. It is imperative that harassment, intimidation, or bullying be identified only when the specific elements of the definition are met because the designation of such prohibited incidents carry special statutory obligations. However, misconduct by one student against another student, whether appropriately defined or not, will result in appropriate disciplinary consequences for the perpetrator.

Article III **Definitions**

1. Harassment, intimidation or bullying means either of the following:

- a. Any intentional written, verbal, or physical act that a student has exhibited toward another particular student more than once and the behavior both:
 - i. Causes mental or physical harm to the other student;

 - b. Violence within a dating relationship.
2. Harassment, intimidation or bullying also means electronically transmitted acts i.e., Internet, cell phone, personal digital assistance (PDA) or wireless hand-held device that a student has exhibited toward another particular student more than once and the behavior both:

 - b. is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening or abusive educational environment for the other student/school personnel.
3. In evaluating whether conduct constitutes harassment, intimidation or bullying, special attention should be paid to the words chosen or the actions taken, whether such conduct occurred in front of others or was communicated to others, how the perpetrator interacted with the victim, and the motivation, either admitted or appropriately inferred.
4. A school-sponsored activity shall mean any activity conducted on or off school property (including school buses and other school-related vehicles) that is sponsored, recognized or authorized by The School.

The prohibition against harassment, intimidation or bullying shall be publicized in any student handbooks and in any of the publications that set forth the comprehensive rules, procedures and standards of conduct for students at the School. In addition, information regarding the policy shall be incorporated into employee training materials. The following statement shall be included:
 - i. Harassment, intimidation, or bullying behavior by any student/school personnel at the School is strictly prohibited, and such conduct may result in disciplinary action, including suspension and/or expulsion from school. Harassment, intimidation, or bullying, in accordance with House Bill 276, means any intentional written, verbal, graphic or physical acts including electronically transmitted acts i.e., Internet, cell phone, personal digital assistant (PDA), or wireless hand-held device, either overt or covert, by a student or group of students toward other students/school personnel with the intent to harass, intimidate, injure, threaten, ridicule or humiliate. Such behaviors are prohibited on or immediately adjacent to school grounds, at any school-sponsored activity, on school-provided transportation or at any official school bus stop that a reasonable person under the circumstances should know will have the effect of:
 1. Causing mental or physical harm to the other student/school personnel including placing an individual in reasonable fear of physical harm and/or damaging of students' personal property; and
 2. is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive

educational environment for the other student/school personnel.

Article VI **Complaints**

1. Formal complaints

- a. Students, parents or guardians may file reports regarding suspected harassment, intimidation or bullying. Such written reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the principal for review and action in accordance with Article 7 of this policy.

2. Informal complaints

- a. Students, parents or guardians and school personnel may make informal complaints of conduct that they consider to be harassment, intimidation and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such informal complaints shall be reasonably specific as to the actions giving rise to the suspicion of harassment, intimidation and/or bullying, including person(s) involved, number of times and places of the alleged conduct, the target of the prohibited behavior(s), and the names of any potential student or staff witness. A school staff member or administrator who receives an informal complaint shall promptly document the complaint in writing, including the above information. This written report by the school staff member and/or administrator shall be promptly forwarded to the principal for review and action in accordance with Article 7 of this policy.

3. Anonymous complaints

- a. Students who make informal complaints as set forth above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. The anonymous complaints shall be reviewed and reasonable action will be taken to address the situation, to the extent such action may be taken that (i) does not disclose the source of the complaint, and (ii) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation and/or bullying.

4. False complaints
 - a. Students are prohibited from deliberately making false reports of harassment, intimidation or bullying. Any complaints made or reports filed alleging harassment, intimidation or bullying, as provided in this policy, found to be false will be disciplined according to current school disciplinary procedure(s) established and implemented and being consistent with due process rights of all students involved, including the student(s) making such false claims. If it is found that a student made deliberately false claim(s) of harassment, intimidation, or bullying the student is subject to the full range of disciplinary consequences in accordance with Article 7 of this policy and being consistent with due process rights of the student making such false claims.

Article VII

School Personnel Responsibilities and Intervention Strategies

1. Teachers and other school staff
 - a. Teachers and other school staff who witness acts of harassment, intimidation or bullying, as defined above, shall promptly notify the building principal and/or their designee of the event observed, and shall promptly file a written incident report concerning the events witnessed. Teachers and other school staff who receive student or parent reports of suspected harassment, intimidation, and bullying shall promptly notify the building principal and/or their designee of such report(s). If the report is a formal, written complaint, such complaint shall be forwarded promptly (no later than the next school day) to the building principal and/or their designee. If the report is an informal complaint by a student that is received by a teacher or other professional employee, he or she shall prepare a written report of the informal complaint which shall be promptly forwarded (no later than the next school day) to the building principal and/or their designee.
 - b. In addition to addressing both informal and formal complaints, school personnel are encouraged to address the issue of harassment, intimidation or bullying in other interactions with students. School personnel may find opportunities to educate students about harassment, intimidation and bullying and help eliminate such prohibited behaviors through class discussions, counseling, and reinforcement of socially appropriate behavior. School personnel should intervene promptly whenever they observe student conduct that has the purpose or effect of ridiculing, humiliating or intimidating another student/school personnel, even if such conduct does not meet the formal definition of “harassment, intimidation or bullying.”

2. Administrator responsibilities

a. Investigation

- i. The principal and/or their designee shall be promptly notified of any formal or informal complaint of suspected harassment, intimidation or bullying. Under the direction of the building principal and/or their designee, all such complaints shall be investigated promptly. A written report of the investigation shall be prepared when the investigation is complete. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.
- ii. Notwithstanding the foregoing, when a student making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint (with or without discussing it with the alleged perpetrator), subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

b. Remedial actions

- i. Verified acts of harassment, intimidation, or bullying shall result in an intervention by the building principal and/or their designee that is intended to ensure that the prohibition against harassment, intimidation or bullying behavior is enforced, with the goal that any such prohibited behavior will cease.
- ii. Harassment, intimidation and bullying behavior can take many forms and can vary dramatically in seriousness and impact on the targeted individual and other students. Accordingly, there is no one prescribed response to verified acts of harassment, intimidation and bullying. While conduct that rises to the level of "harassment, intimidation or bullying," as defined above, will generally warrant disciplinary action against the perpetrator of such prohibited behaviors, whether and to what extent to impose disciplinary action (detention, in and out-of-school suspension, or expulsion) is a matter for the professional discretion of the building principal. The following sets forth

possible interventions for building principals to enforce the board of directors prohibition against “harassment, intimidation or bullying.”

c. Non-disciplinary interventions

- i. When verified acts of harassment, intimidation or bullying are identified early and/or when such verified acts do not reasonably require a disciplinary response, students may be counseled as to the definition of harassment, intimidation or bullying, its prohibition and their duty to avoid any conduct that could be considered harassing, intimidating or bullying.
- ii. If a complaint arises out of conflict between students or groups of students, peer mediation may be considered. Special care, however, is warranted in referring such cases to peer mediation. A power imbalance may make the process intimidating for the victim and therefore inappropriate. The victim’s communication and assertiveness skills may be low and could be further eroded by fear resulting from past intimidation and fear of future intimidation. In such cases, the victim should be given additional support. Alternatively, peer mediation may be deemed inappropriate to address the concern.

d. Disciplinary interventions

- i. When acts of harassment, intimidation and bullying are verified, or a false claim alleging the same is substantiated, and a disciplinary response is warranted, students are subject to the full range of disciplinary consequences. Anonymous complaints that are not otherwise verified, however, shall not be the basis for disciplinary action.
- ii. In and out-of-school suspension may be imposed only after informing the accused perpetrator of the reasons for the proposed suspension and giving him/her an opportunity to explain the situation.
- iii. Expulsion may be imposed only after a hearing before the board of directors or an impartial hearing officer designated by the board of directors in accordance with board policy. This consequence shall be reserved for serious incidents of harassment, intimidation or bullying and/or when past interventions have not been successful in eliminating prohibited behaviors.

3. Intervention strategies

a. General

- i. In addition to the prompt investigation of complaints of harassment, intimidation or bullying and direct intervention when such prohibited acts are verified, other board actions may ameliorate any potential problem with harassment, intimidation or bullying in school or at school-sponsored activities. While no specific action is required and school needs for such interventions may vary from time to time, the following list of potential intervention strategies shall serve as a resource for administrators and school personnel:
 1. Respectful responses to harassment, intimidation or bullying concerns raised by students, parents or school personnel;
 2. planned professional development programs addressing targeted individuals' problems, including what is safe and acceptable Internet use;
 3. data collection to document victim problems to determine the nature and scope of the problem;
 4. use of peers to help ameliorate the plight of victims and include them in group activities;
 5. avoidance of sex-role stereotyping (e.g., males need to be strong and tough);
 6. awareness and involvement on the part of all school personnel and parents with regard to victim problems;
 7. an attitude that promotes communication, friendship, assertiveness skills and character education;
 8. modeling by school personnel of positive, respectful and supportive behavior toward students;
 9. creating a school atmosphere of team spirit and collaboration that promotes appropriate social behavior by students in support of others (Ohio School Climate Guidelines);
 10. employing classroom strategies that instruct students how to work together in a collaborative and supportive atmosphere; and
 11. form harassment, intimidation and bullying task forces, programs and other initiatives involving volunteers, parents, law enforcement and community members.

b. Intervention strategies for protecting victims

- i. Supervise and discipline offending students fairly and consistently;
- ii. provide adult supervision during recess, lunch time, bathroom breaks and in the hallways during times of transition;

- iii. maintain contact with parents and guardians of all involved parties;
- iv. provide counseling for the victim if assessed that it is needed;
- v. inform school personnel of the incident and instruct them to monitor the victim and the offending party for indications of harassing, intimidating and bullying behavior. Personnel are to intervene when prohibited behaviors are witnessed; and
- vi. check with the victim daily to ensure that there has been no incidents of harassment/intimidation/bullying or retaliation from the offender or other parties.

Article VIII **Reporting Obligations**

1. Report to the parent or guardian of the perpetrator
 - a. If after investigation, acts of harassment, intimidation and bullying by a specific student are verified, the building principal and/or their designee shall notify in writing the parent or guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in such notification.
2. Reports to the victim and his/her parent or guardian
 - a. If after investigation, acts of bullying against a specific student are verified, the building principal and/or their designee shall notify the parent or guardian of the victim of such finding. In providing such notification, care must be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation and bullying.
3. List of verified acts of harassment, intimidation or bullying
 - a. It is a requirement that the School administrators semiannually provide the president of the board of directors a written summary of all reported incidents and post the summary on the School website. The list shall be limited to the number of verified acts of harassment, intimidation and bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.
 - b. This policy shall not be interpreted to prohibit a reasonable and civil exchange of opinions or debate that is protected by state or federal law such as the nondiscrimination, suspension/expulsion, due process, violent and aggressive behavior, hazing, discipline/punishment, sexual

harassment, peer sexual harassment and equal educational opportunity acts.

Article IX
Police and Child Protective Services

1. Allegations of criminal misconduct will be reported to law enforcement, and suspected child abuse must be reported to Child Protective Services, per required timelines. The School must also investigate for the purpose of determining whether there has been a violation of the School's Policy or Procedure, even if law enforcement or CPS is also investigating. All School personnel must cooperate with investigations by outside agencies.
2. In addition to, or instead of filing a harassment, intimidation or bullying complaint through this policy, a complainant may choose to exercise other options, including but not limited to filing a complaint with outside agencies or filing a private lawsuit. Nothing prohibits a complainant from seeking redress under any other provision of the Ohio Revised Code or common law that may apply.

Article X
Training

1. Orientation sessions for students shall introduce the elements of this policy and procedure. Students will be provided with age-appropriate information on the recognition and prevention of harassment, intimidation or bullying, and their rights and responsibilities under this and other school policies, procedures and rules at student orientation sessions and on other appropriate occasions. Parents will be provided with information about this policy and procedure, as well as information about other school rules and disciplinary policies. This policy and procedure shall be reproduced in student, staff, volunteer and parent handbooks.
2. Information regarding the policy on harassment, intimidation and bullying behavior shall be incorporated into employee and volunteer training materials and with direct contact with students. Time spent by school employees in the training, workshops or courses shall apply toward any state or school mandated continuing education requirements.
3. School personnel members are encouraged to address the issue of harassment, intimidation and bullying in other interaction with students. School personnel may find opportunities to educate students about bullying and help eliminate bullying behavior through class discussions, counseling and reinforcement of socially appropriate behavior. School personnel should intervene promptly whenever they observe student conduct that has the purpose or effect of ridiculing, humiliating or intimidating another student or school personnel, even if such conduct does not meet the formal definition of "harassment, intimidation or bullying."

Anti-Hazing Policy

The School prohibits all acts of hazing. Hazing, like other violent and disruptive behaviors, is conduct that disrupts both a student's ability to learn and the School's ability to educate its students in a safe and civil environment.

Hazing or hazing activity means doing any act or coercing another, including the victim, to do any act of initiation into any student or other organization that causes or creates a substantial risk of causing mental or physical harm to any person. For purposes of this Anti-Hazing policy, mental harm means mental stress, anxiety, physical injury, sickness, injury to feelings, humiliation, mental anguish, and/or depression, connected to and arising from the hazing activity. Permission, consent or assumption of risk by an individual subjected to hazing does not lessen the prohibition contained in this policy.

Hazing activities of any type are inconsistent with the educational process and are prohibited at all times, regardless of whether the activity occurs on or off of property owned, used or controlled by the School, so long as the hazing activity is in any way connected to the activities or incidents that have occurred on property owned, used or controlled by the school. This policy will be actively enforced at all times.

Hazing is a violation of School policy separate and distinct from harassment or other prohibited conduct. No student, including leaders of student organizations, may plan, encourage or engage in any hazing activity. Students having engaged in hazing activity and who fail to abide by this policy are subject to disciplinary action including suspension, expulsion, removal or permanent exclusion as set forth elsewhere in this policy manual, and may be liable for civil and criminal penalties pursuant to State law.

Staff are to be particularly alert to possible conditions, circumstances or events, which might include hazing. If hazing or planned hazing is discovered, involved students are informed by the discovering Staff member of the prohibition contained in this policy and are required to end all hazing activities immediately. All hazing incidences are reported immediately to the Head of School or his/her designee.

No Staff shall encourage, permit, condone or tolerate any hazing activities, and Staff who fail to abide by this policy may be subject to disciplinary action and may be liable for civil and criminal penalties pursuant to State law.

R.C. 2307.44, 2903.31; 3313.661

Gang Activity Policy

Gangs which initiate advocate or promote activities which threaten the safety or well-being of persons or which are disruptive to the School environment will not be tolerated by the School. The Board believes gangs or gang activity create an atmosphere where violations of School policies and regulations as well as laws may occur.

Incidents involving initiations, hazing, intimidations and/or related activities of such group affiliations which are likely to cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to Students or Staff are prohibited.

The Board directs the administration to prohibit any Student wearing, carrying or displaying gang paraphernalia or exhibiting behavior or gestures which symbolize gang membership or causing and/or participating in activities which intimidate or affect the attendance of another student. Such behaviors will be subject to disciplinary action.

The Staff shall be provided with the necessary information that will enable them to identify symbols used by those involved in gang-related activities which include things such as hand signals, symbols, colors, apparel, jewelry and/or any other pertinent gang related information.

Disorder and Demonstration

The School recognizes the right of each Student to attend School for the purpose of receiving an education. The disruption of the educational program of the School by disorder or any other purposeful activity will not be countenanced.

For purposes of this policy, disorder shall be any deliberate activity by an individual or a group, whether peaceful or violent, which interferes with the normal operation of the School. The School, having the responsibility for providing an educational program for the students of the School, shall have the authority to preserve order for the proper functioning of that program.

Students shall not be disturbed in the exercise of their constitutionally guaranteed rights to assemble peaceably and to express ideas and opinions, privately or publicly, provided that such exercise does not infringe on the rights of others and does not interfere with the operation of the School.

Drug Prevention

The School recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the whole community.

For purposes of this policy, "drugs" shall mean:

1. all controlled substances as so designated and prohibited by applicable Federal and Ohio law;
2. all chemicals which release toxic vapors;
3. all alcoholic beverages;
4. any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
5. anabolic steroids; and
6. any substance that is a "look-alike" to any of the above.

The School prohibits the use, possession, concealment, or distribution of any drug or any drug-related paraphernalia, as the term is defined by law, on School grounds, on School vehicles and vehicles used for School-sponsored events, and at any School-sponsored event.

The School's drug prevention program:

1. Emphasizes the prevention of drug use;
2. Provides for a comprehensive, age-appropriate, developmentally-based drug and alcohol education and prevention program which:
 - a. addresses the legal, social, psychological, and health consequences of drug and alcohol use;
 - b. provides information about effective techniques for resisting peer pressure to use illicit drugs and alcohol;
 - c. assists students to develop skills to make responsible decisions about substance abuse and other important health issues;
 - d. promotes positive emotional health, self-esteem, and respect for one's body;
 - e. advises students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful; and
 - f. meets the minimal objectives as stated in the essential performance objectives for health education as established by the State Department of Education.

Disciplinary sanctions, up to and including expulsion and referral for prosecution, will be imposed on students who violate this Policy.

The sanctions may include, together with punitive action, voluntary referral to appropriate persons or agencies for screening and assessment. Such referral may only be made to qualified and properly licensed individuals or programs.

The School will provide information about any drug and alcohol counseling and rehabilitation and re-entry programs available to Students and will direct Students and their Parents to the appropriate programs.

This policy serves as notification to parents and students that compliance with this policy and other standards of conduct is mandatory.

The Head of School or his/her designee will conduct a biennial review of the School's program to determine its effectiveness and implement changes as needed and to ensure that disciplinary sanctions are consistently enforced.

The School will provide a Student assistance program which includes guidelines for prevention, intervention, referral, treatment, and after-care. Such a program must be comprehensive in nature addressing all issues affecting students' academic, social, and emotional well being in the educational setting which may negatively affect behavior and interfere with their ability to learn.

The School's policies and procedures on Search and Seizure, Suspension and Expulsion, and Permanent Exclusion, among others, will be complied with fully in dealing with students suspected of drug use or possessing or distributing drugs in School.

The School shall develop a curriculum for instruction in the harmful effects of and legal restrictions against the use of drugs of abuse, alcoholic beverages, and tobacco for students at each grade level and conduct such in-service training programs for Staff members necessary to ensure effective teaching about drugs and assistance to Students with drug problems.

The Head of School or his/her designee shall establish administrative guidelines necessary to implement this policy. Such guidelines shall ensure that the proper notice regarding the use of anabolic steroids is posted in all School locker rooms used by students in grades 7-12, as applicable.

21 USC § 806.

Pregnant Students

No student, whether married or unmarried, who is enrolled in the School shall be denied an educational program solely because of pregnancy, childbirth, pregnancy-related disabilities, or actual or potential parenthood.

The School reserves the right to require as a prerequisite for extra-curricular programs of the School that each pregnant student present to the Head of School or his/her designee her physician's written statement that such activity will not be injurious to her health nor jeopardize her pregnancy.

Search and Seizure

The School recognizes that the privacy of students may not be violated by unreasonable search and seizure and directs that no student be searched without reason or in an unreasonable manner.

The School acknowledges the need for in-School storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Where locks are provided for such places, students may lock them against incursion by other students, but in no such places shall students have such an expectation of privacy as to prevent examination by a School official. The Board may require the Head of School or his/her designee to conduct a regular search at least annually of all such storage places.

Students have no expectation of privacy with respect to the use of the internet, intranet or e-mail. Routine maintenance and monitoring of the School network system may lead to the discovery that a student has or is violating School policy or the law. Violations of School policy, the student code of conduct or the law may result in severe penalties, up to and including expulsion.

School authorities are charged with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, School authorities may search the person or property, including vehicles, of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of School rules. Specifically:

Search and Seizure of Property:

1. School lockers, desks, and property are on loan to the students and remain the property of the School. They may be inspected and reclaimed at any time.
2. Students must not keep prohibited items, including drugs, drug paraphernalia, firearms, explosives, and property belonging to others within their lockers, backpacks or desks.
3. Students must open their lockers at the request of School officials.
4. When on School grounds, students and their personal property may be searched if a school official has grounds to believe the search may turn up evidence that the student has violated or is violating the law or School rules.
5. A student shall have the opportunity to be present during the search of his or her locker, desk, or other property unless the student is absent from School or the safety or welfare of the School or an individual necessitates a search during the student's absence.

The search of a student's person or intimate personal belongings shall be conducted by the Head of School or his/her designee. This person should be of the student's gender and conduct the search in the presence of another staff member of the same gender. However, no strip searches may be conducted by School personnel.

This authorization to search shall also apply to all situations in which the student is under the jurisdiction of the School.

Administrators are authorized to arrange for the use of a breath-test instrument for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the School has established a zero tolerance for alcohol use.

The School also authorizes the use of canines, trained in detecting the presence of drugs, when the Head of School or his/her designee has reasonable suspicion that illegal drugs may be present in the School. This means of detection shall be used only to determine the presence of drugs in locker areas and other places on School property where such substances could be concealed. Canine detection must be conducted in collaboration with law enforcement authorities or with organizations certified in canine detection and is not to be used to search individual students unless a warrant has been obtained prior to the search.

The Head of School or his/her designee shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found; and the disposition made of them. The Head of School or his/her designee shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

U.S. Const. Amend. IV, XIV; Oh. Const. Art. 1 §14.

Use of Tobacco on School Premises

The use of tobacco presents a health hazard which can have serious consequences both for the user and the nonuser and is, therefore, of concern to the School.

For purposes of this policy, "use of tobacco" shall mean all uses of tobacco, including a cigar, cigarette, pipe, snuff, or any other matter or substances that contain tobacco.

In order to protect students and staff who choose not to use tobacco from an environment noxious to them, and because the School cannot, even by indirection, condone the use of tobacco, the School prohibits the use of tobacco in School buildings and School vehicles at all times. "School buildings" includes buildings owned, leased or used by the School, and "School vehicles" includes vehicles owned, leased, used or operated by the School.

See **Appendix H** for a "No Smoking" symbol sign which should be posted in areas where smoking is prohibited, including at each entrance. Each sign must also include a telephone number for reporting violations.

SECTION 270

STUDENT DISCIPLINE/ PROCEDURE

The Code of Conduct is the behavioral mainframe by which the school carries on its day-to-day operations. The code reflects academic standards and the right for every student to learn in a non-threatening environment. The code further reflects the school's desire to protect each individual's right to deal with violations of safety issues through consequences. The School sees the implementation of such a code as a necessary element of providing a positive school experience for everyone.

The Code of Conduct that appears on the following pages governs the most serious and obvious types of student misconduct. The prohibited acts listed in the code are not to be construed as all-inclusive. Nor is the list to be seen as a limitation upon the authority of school officials to deal appropriately with violations of school rules and regulations or with other types of conduct which interfere with the good order of the school, the proper functioning of the educational process, or the health and safety of students.

The Code of Conduct establishes reasonable boundaries for students and provides clear understanding of consequences for breaking the rules. It is expected that students, like the rest of us, will make mistakes. It is our hope that students learn from their mistakes. By reading the code, we also expect students to understand the school's expectations and avoid transgression in the first place.

There are three categories of behaviors: those that lead to pre-suspension consequence, those that lead to suspension, and those that lead to expulsion. Each of these categories is explained below:

Classroom Consequences/Pre-Suspension

Teaching and learning can only occur in an orderly environment. Within the classroom, teachers will provide direction, set limits, and promote self-discipline. They will be diligent in their role to create a learning environment that is neither overly permissive nor oppressive. Within that context, they will make every effort to motivate students to learn, to redirect them when their attention or behavior falters, and to continue with instruction. However, if a student demonstrates unwillingness to participate in this learning environment, he/she may be removed from the regular class setting.

Category I:

Student Behaviors that require a One-Day Suspension

The following behaviors, in general, will result in a one-day suspension. Although teachers determine the consequences for misbehavior in class, the Head of School and/or Dean of Students will determine the appropriate consequences for repetitive behaviors in this category based on each student's discipline record.

Unruly Conduct

All students must obey all adults in the school: administrator, teacher, educational assistants, secretaries, custodians, lunchroom helper, security guards, and others. Students must do what these adults ask of them. Students must not talk back to an adult. If a student does not obey the instructions and/or directions a teacher gives, his/her conduct will be considered unruly. If a teacher says to open a particular book, to write an assignment, to work with another student, to work in a group, to take a test, or to do any other class-related activity and a student refuses to do so, this is considered being unruly.

Being Out of Uniform

Students must wear a uniform to school every day except when given written permission that is "non-uniform day." All elements of our school uniform will be listed in the Student Handbook, or, in Policy No. 263, and it is the reference parents and students should follow.

Disorderly Conduct

Students must not break classroom or school rules. They may not keep teachers from teaching and students from learning. Students who cause a disruption in the classroom by talking, making noises, throwing objects, or otherwise distracting one or more of their classmates are engaging in disorderly conduct. If the teacher is prevented from starting an activity or lesson or has to stop what he/she is doing to try to stop the distractive behavior, then the behavior is considered disorderly. Leaving the classroom without permission and inappropriate displays of affection are also considered to be disorderly conduct.

Failure to Cooperate

Students must not refuse to cooperate with school administrators and/or teaching staff investigating a possible violation of this Code of Conduct and/or building rules. Students must not make false statements or give false evidence. Students must not refuse to testify or otherwise cooperate with school personnel in any disciplinary proceeding.

Smoking

Students must not smoke, have or use any kind of tobacco at school, on school grounds, or at any school-related activities.

Falsification of Records

Students must not use the name of another person or falsify times, dates, grades, addresses or other data on school forms or records, nor shall they provide false, misleading or inaccurate statements or information to School staff or on school forms or records.

Scholastic Dishonesty

Students must not engage in academic cheating. Cheating includes, but is not limited to, the actual giving or receiving of any unauthorized aid or the actual giving or receiving of unfair advantage on any form of academic work. Students must not engage in plagiarism, which includes the copying of language, structure, idea and/or thought of another and

represent it as one's own original work. A student must not unlawfully duplicate, reproduce, retain, or use copyrighted material.

Trespassing

Students may not be on school property or in a school building except to participate in the educational process and/or the specific enrolled activity of the school. Nor may students loiter in building hallways, classroom, bathrooms, etc. Students who are suspended or expelled may not return to school without the Head of School's specific, written permission. Students who do return to school without permission will be suspended or expelled depending upon the circumstances and the grade level.

Gambling

Students must not play games of cards, chance, or dice for money or other items unless these games are played as part of a special school activity.

Electronic/Communication Devices

You must not bring radios, headsets, CD/tape players, computer games, Walkmans, beepers, cellular phones or other electronic communication devices for receiving and/or transmitting messages to school. Not only will this behavior lead to the appropriate consequences, the items will be confiscated and held until a parent comes to school and retrieves the items.

Category II:

Student Behaviors that Lead to Multiple Days of Suspension

The following behaviors will, with no warning required, lead to immediate suspension. The length of the suspension will be determined by the Head of School and will be based on the student's discipline record and the seriousness of the offense(s). It should be noted that automatic suspensions are not given at The Entrepreneurship Academy unless an emergency removal is warranted. The Head of School and Dean of Students will investigate major breaches of student code of conduct on a case-by-case basis, and make decisions accordingly. Repetitive violations will lead to a recommendation for expulsion, as well as violations deemed physically or mentally harmful or those requiring emergency removal at the discretion of the Head of School.

Fighting

NO PHYSICAL CONTACT. Students must not fight. They must not push, shove or hit another with any part of their body or with any object. This offense may be grounds for expulsion.

Profanity or Obscenity

Students must not use inappropriate words or make obscene signs. Student must not draw or show sexually explicit pictures to anyone at school. Students must not bring sexually related items (i.e. condoms) to school. Students must never curse or swear.

Being Repeatedly Out of Uniform

Students, who are out of uniform, may be suspended for one school day.

Stealing

Students must not take anything that does not belong to them. Students must not have in their possession anything that has been stolen.

Violent Disorderly Conduct

Students must not, by any type of conduct (violence, force, noise, coercion, threat, intimidation, fear passive resistance, etc.) cause the disruption, disturbance, or obstruction of any school function, activity or event, nor shall they engage in any such conduct if such disruption or obstruction is reasonably likely to result. Students may not urge other students to engage in such conduct for the purpose of causing such disruption or obstruction. This offence may be grounds for expulsion.

Gang Activity

Gang activity is defined as “any assembly of individuals who gather together, whose purpose, the school reasonably believes is to commit antisocial behavior or to violate school policy.” Students must not wear or display any clothing, jewelry, colors, or insignia that may be reasonably perceived by a teacher or administrator as evidence of membership in or affiliation with a gang or otherwise symbolizes support of a gang. Students must not use any words, phrases, written symbol or gesture, which intentionally identifies them as a member of gang or otherwise symbolizes support of a gang. Students must not try to recruit others for gangs.

Defacement of Property

Students must not mark on, damage, break, or destroy school property or anything that belongs to someone else. Actions such as writing in school textbooks or library books; writing on desks or walls; carving into woodwork, desk, or tables; and spray-painting surfaces are actions of defacement. Students who destroy or vandalize school property will be required to pay for losses or damages.

Destruction of Property

Students must not damage, break, or destroy school property or anything that belongs to someone else. Actions that impair the use of something are destructive. Ruining bulletin boards, intentionally clogging the system, breaking light bulbs or fixtures, and damaging school equipment to the point where repair is necessary are all acts of property destruction.

Sexual Misconduct

Students must not act or use any body parts or those of another in an unacceptable way. Unacceptable will be defined using a “reasonable person” standard.

Harassment

Harassment of any type, including hazing and discriminatory harassment, is prohibited. Students must not engage in unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct relating to a person’s sex, race, color, national origin, religion, height, marital status, or disability (e.g. sexual or racial comments, threat or insults, unwanted touching, etc.). See also “Sexual Harassment”

Look-alike Weapons

Students must not possess, handle, or transmit any object or instrument that is a “look-alike” weapon or instrument (e.g. rubber knife, toy gun, etc.).

Category III:

Student Behaviors that Lead to Mandatory Suspension with Recommendation for Expulsion

Students, who engage in any of the behaviors in this category, will be suspended for ten (10) school days with a recommendation for expulsion by the Head of Schools to the School Governing Authority.

Alcohol and Drugs

Students must not bring alcohol or drugs to school. They must not manufacture, sell, handle, possess, use, deliver, transmit or be under any influence (legal intoxication is NOT required) of any alcoholic beverage, intoxicant, or drug. Students must not inhale any chemical substance for the purpose of becoming intoxicated or under the influence. Students are permitted to bring prescribed medication to school with the permission of parent(s) and the authorization of a physician. They must not sell or give a prescribed medication to anyone at school. All prescribed medication must be submitted to the Business Office before the student goes to class. All prescribed medication must have a physicians note accompanying for dispensing and recording purposes.

Physical Assault

Students must not physically attack another person. Physical assault is defined as “intentionally causing or attempting to cause harm to another through force or violence.”

Dangerous Weapons

You must not possess, handle, transmit, or use as a dangerous weapon any instrument capable of harming another person. Dangerous weapons include, but are not limited to:

A firearm is defined as any weapon, including a starter gun, which will or is designed to or may readily be converted to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, any firearm muffler or silencer, or any destructive device. A destructive device, includes but is not limited to, any explosive, incendiary, or poison gas, bomb, grenade, rocket having a propellant charge of more than four (4) ounces, missile having an explosive or incendiary charge of more than one-quarter ounce, mine, or other similar device.

Knife is defined as any cutting instrument consisting of at least one sharp blade.

Defensive weapons: Chemical Mace, pepper gas, or like substances; stun gun; brass knuckles; blackjack.

Items not designed as a weapon, but could be perceived as a weapon such as razors, box cutters, hammers, baseball bats, metal combs of any length with a sharpened handle are strictly prohibited from school grounds.

This is not all inclusive and can be amended by the Head of School with acceptance by the Governing Authority.

False Fire Alarms or Bomb Reports

Students must not break or pull the fire alarm at any time unless there is an emergency. They must not make bomb threats.

Sexual Assault

Students must not sexually assault or attack another person.

Robbery

Students must not force or threaten someone to give them something that does not belong to them.

Bullying, Hazing or Extortion

Student must follow the school's Code of Behavior before, during and after school, as well as in school buildings, on school grounds, at school-related activities, and on the way to and from these activities. Student behavior must not keep any of the members of the school community from doing their jobs.

Expulsion

In general, students who have had multiple suspensions and have shown little or no behavioral change toward more positive participation will be expelled. In addition, students who break a rule in Category III will be sent home for up to eighty (80) school days. However, if a firearm or knife were involved, then the expulsion may or shall (as prescribed by law) last up to one year. If there are fewer days left in the school year than the expulsion, the student will serve the remaining days of expulsion at the beginning of the next school year. If expelled, students may not come to school or any related school activities during the expulsion period, nor will they be permitted to enroll in the Cleveland Municipal School District. The Head of School will approve all expulsions. Parents/Guardians are informed in writing of the school's intent to expel. Students and parent(s)/guardian(s) have the right to appeal this decision to the Governing Authority or their designee.

Removal (Emergency Removal Pending a Hearing)

If students break the rules and cause danger or threat of danger to any person or property, the Head of School, or designee, will have them removed from school without warning. A hearing will take place within seventy-two (72) hours after the removal. The student, as well as anyone involved with the removal, can be present at the hearing.

Corporal Punishment Policy

No school employee or agent of the school shall cause corporal punishment to be inflicted upon a student to reform unacceptable conduct or as a penalty for unacceptable conduct. As used in this policy, the term "corporal punishment" means conduct involving hitting or spanking a person, with or without an object, or unreasonable physical force that causes bodily harm. EXCEPTION: School employees may use reasonable force to restrain a student when necessary to prevent the child from injuring himself/herself, others or property, or to prevent bodily harm or death to another. School employees who use restraint must be trained in the use of de-escalation techniques and the proper use of restraint. Prone restraint (student is a face down position) may not be used except for a brief period of time necessary to get the student under control and prepared for transport.

Mandatory Withdrawal

Students who have missed 105 hours of learning opportunities for any reason are subject to withdrawal from the school. Re-Enrollment may only take place with the signature of the Head of School.

Schools and Law Enforcement Agencies

It is desirable and advisable that the School maintain a good relationship with police, the Court, parole officers, Children's Services Board, and other agencies that deal with the public welfare, insofar as it benefits and protects the student, the School, personnel, School property, and the home.

Whenever a law enforcement officer (including police, parole, children's services, Board or other agency representative) calls at the School in the performance of duty, the officer shall, upon arrival, be required to:

1. contact the proper school official;
2. produce satisfactory personal identification indicating the source of authority; and
3. state the purpose of business with the School.

In cases where the officer requests permission to question a student during School hours, the Head of School or his/her designee shall first contact the parent or guardian for permission to question the student, and the parent or guardian shall be given the opportunity to be present during the questioning. The student shall then be called to the office for the interview.

The Head of School or his/her designee shall remain present during the questioning, to represent the best interests of the School, and may facilitate the interview or otherwise assist the student and parent or guardian if it seems advisable.

If the parent or guardian gives permission for the interview to take place, but cannot be present, or waives that right, then the Head of School or his/her designee must be present to facilitate the interview or otherwise assist the student to the best of their ability. The student may specifically request another counselor or teacher to be present also.

If the parent or guardian refuses permission to question the student during School hours, or cannot be contacted, the officer shall be informed of this, and the student shall not be called to the office for the interview.

In any case in which the officer wishes to take the student from School premises for questioning, permission from the parent or guardian to release the student to the officer shall be secured by the Head of School or his/her designee. However, if the officer actually arrests the student for the commission of a crime, the student is to be released, even though the parents or guardians cannot be reached for notification; or having been reached, refuse consent.

Notwithstanding anything to the contrary in this policy, if a student is being questioned as a potential victim, and the officer states that law enforcement feels it inadvisable or inappropriate to contact a parent or guardian, or have a parent or guardian present, the school will comply with the law enforcement officer and allow questioning of the student at the direction of the officer.

Statutory regulations concerning the rights of students as citizens shall be observed at all times and complied with by both law enforcement and school officials. Students are entitled to full protection under the law.

All types of officers and agency representatives shall be required to follow the procedures described in this Policy.

Expulsion and Suspension Policies

The School may suspend a student for up to ten (10) days or may expel a student. In the event that the School decides to suspend or expel a student, the student will be given a notice which states the intent to suspend or expel and the reason(s) for the suspension or expulsion. Immediate attempts will be made to contact a parent or guardian by phone. The student may meet informally with the Head of School to challenge the suspension or expulsion. After the meeting, or if the student declines the meeting, suspension or expulsion may be invoked immediately. A copy of the notice of intent to suspend or expel will be mailed to the parent or guardian within one (1) school day after the time of a student's expulsion or suspension. A formal hearing will be scheduled not earlier than three nor later than five school days after the notice to expel is given.

In the event that, in the opinion of the Head of School or his/ her designee, a student's presence at the School creates a health risk, presents a danger to other persons or property or seriously disrupts the functions of the School, the student may be removed from the premises without formal suspension or expulsion procedures with notice and procedures to follow the removal in accordance with R.C. §3313.66.

A student shall be expelled for one (1) year for bringing a firearm to the School or onto School Property (any Property owned, used or leased by the School for School, School extracurricular or School-related events)

A student may be expelled for a period not to exceed one (1) year for:

1. bringing a firearm to an interscholastic competition, an extracurricular event, or any other School program or activity that is located at a School or on School Property.;
2. bringing a knife to the School, onto School Property or to an interscholastic competition, an extracurricular event or any other program or activity sponsored by the School or which the School is a participant;
3. possessing a firearm or knife at School, on School Property, or at an interscholastic competition, an extracurricular event, or any other School program or activity which firearm or knife was initially brought onto School Property by another person;
4. committing an act that is a criminal offense when committed by an adult that results in serious physical harm to persons or serious physical harm to property;
5. making a bomb threat to a School building or to any premises at which a School activity is occurring at the time of the threat.

A firearm is defined as any weapon, including a starter gun, which will or is designed to or may readily be converted to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, any firearm muffler or silencer, or any destructive device. A destructive device, includes but is not limited to, any explosive, incendiary, or poison gas, bomb, grenade, rocket having a propellant charge of more than four (4) ounces, missile having an explosive or incendiary charge of more than one quarter ounce, mine, or other similar device.

A knife is defined as any cutting instrument consisting of at least one sharp blade.

The specific circumstances under which the Head of School may modify a one (1) year expulsion could include:

1. a recommendation from the group of persons knowledgeable of the student's educational needs in accordance with policy no. 275, Suspension/Expulsion of Disabled Students;
2. the student was unaware that s/he was possessing a firearm or knife;
3. the student did not understand that the item s/he possessed was considered a firearm or knife;
4. the student brought the item to School as part of an educational activity and did not realize it would be considered a firearm or knife; and
5. the student may be eligible for participation in an alternative program.

A student may be expelled for up to eighty (80) days for serious misconduct or rules violations, or for other just cause.

During the period of suspension, removal, or expulsion the student may not attend or participate in any School functions without permission from the Head of School. The student may enter School facilities only when given permission by the Head of School or if accompanied by a parent or guardian who accepts responsibility for the student's actions and/or behavior at the facility.

The Board also authorizes the Head of School to suspend a student from any or all co curricular or extra curricular activities for misconduct or rules violations. The length of suspension shall be determined by the Head of School commensurate with the seriousness of the student's misconduct or rules violations in accordance with the discipline code.

If the Head of School determines that a student's behavior on a School vehicle violates School rules, s/he may suspend the student from School bus riding privileges for the length of time deemed appropriate for the violation and remediation of the behavior.

The Board authorizes the Head of School to provide for options to suspension of a student from the School which shall include a program whereby a student performs community service either in lieu of or as a part of a suspension or an expulsion.

The Board designates the Head of School or his/her designee as its representative at all hearings regarding the appeal of a suspension. The Board or the Executive Committee will hear the appeal of an expulsion.

The Head of School shall be responsible for implementing this policy and ensuring compliance with applicable laws.

A copy of this Policy is to be posted in common areas of the School and made available to students and parents upon request.

Due Process Rights

Suspension

The following procedure does not apply to in-school suspensions. The Head of School may suspend a student if the following procedure is met:

1. Prior to the imposition of the suspension, a written Notice of Intent to suspend will be given to the student, which contains the following:
 - a. The reasons for the intended suspension; and
 - b. If the suspension is based on one of the serious criminal offenses for which permanent exclusion is allowed, and if the student is age 16 or older, the notice must also indicate the possibility that the Head of School may seek permanent exclusion.
2. The student must be allowed an informal hearing before the Superintendent or his/her designee, the Head of School or Assistant Head of School to challenge the reasons for the intended suspension or otherwise explain his actions. The student is not entitled to call witnesses at this informal hearing.
3. Within one school day after the suspension is imposed, the Head of School shall provide written notification to the parent, guardian, or custodian of the student and the treasurer of the Board of Education of the suspension. The notice must contain the following:

 - c. The right to representation at all appeals;
 - d. The right to a hearing before the Board or its designee; and
 - e. The right to request that the hearing be held in executive session.

If the suspension is based on one of the serious criminal offenses for which permanent exclusion is allowed, and the student is age 16 or older, the notice must also indicate the possibility that the Superintendent may seek permanent exclusion.

Suspensions imposed during the last ten days of the school year may be carried over into the following school year. However, only the superintendent may impose a carryover suspension.

Expulsion

The Head of School or his/ her designee may expel a student. The following procedure is required:

1. Prior to the imposition of the expulsion, the Head of School must provide not only the student, but also the parent, guardian, or custodian written notice of his intention to expel. The notice must include the following:
 - a. The reasons for the intended expulsion; and
 - b. The time and place for a hearing, which must be not less than three nor more than five school days after giving the notice, unless the period is extended by the Head of School at the request of the student, his parent, custodian, guardian or representative. The parent, guardian, or custodian must be sent written notice of any extension, and the subsequent notice should contain the same information required in the original notice.
 - c. If the student is age 16 or older and the expulsion is for one of the serious criminal offenses for which permanent exclusion is allowed, the notice must also indicate the possibility that the Superintendent may seek permanent exclusion.
2. A hearing must be scheduled not less than three or more than five school days after giving the notice, for the student and his parent, guardian, custodian or representative to appear in person before the Head of School or his/her designee to challenge the reasons for the expulsion or otherwise explain his/her actions.
3. Within one school day after the expulsion is imposed, the Head of School shall provide written notification to the parent, guardian, or custodian of the student and the treasurer of the Board of Education of the expulsion. The notice must include the following:
 - a. The reasons for the expulsion;
 - b. Notification of the right to appeal to the Board of Education or its designee;
 - c. The right to representation at all appeals;
 - d. The right to an appeal hearing before the Board or its designee;
 - e. The right to request that the hearing be held in executive session;
 - f. If the expulsion is based on one of the serious criminal offenses for which permanent exclusion is allowed, and the student is age 16 or older, the notice must also indicate the possibility that the Superintendent may seek permanent exclusion;
 - g. When the Head of School expels a student for more than twenty days or for any period of time extending into the next semester or school year, the School shall provide, along with this notice, the student and his parent, guardian or custodian with information about services or programs offered by public and private agencies that work toward improving those aspects of the student's attitudes and behaviors that contributed to the incident giving rise to the expulsion. The information must include names,

addresses, and phone numbers or the appropriate public and private agencies.

During the period of expulsion, the School may, but is not required to, continue educational services in an alternative setting.

The Head of School is required to follow through on expellable offenses even if the student in question withdraws from the School prior to the hearing or the Head of School's decision.

The Head of School may apply any remaining part or all of the period of expulsion into the following year.

Permanent Expulsion of Non-Disabled Students

In accordance with the law, the Board may seek to permanently exclude a student, sixteen (16) years of age or older, who has been convicted of or adjudicated delinquent for the reason of the following offenses:

1. carrying a concealed weapon or conveying or possessing a deadly weapon or dangerous ordinance on property owned or controlled by the Board or at an activity held under the auspices of this Board;
2. possessing, selling, or offering to sell controlled substances on property owned or controlled by the Board or at an activity under the auspices of this Board; and
3. complicity to commit any of the above offenses, regardless of where the complicity occurred.

In accordance with law, any student, sixteen (16) years of age or older, who has been convicted or adjudicated delinquent for committing the following offenses may be subject to permanent exclusion:

- A. rape, gross sexual imposition or felonious sexual penetration;
- B. murder, manslaughter, felonious or aggravated assault; and
- C. complicity to commit offenses described in paragraphs A and B, regardless of where the complicity occurs.

The above statement of policy on permanent exclusion is to be posted in a central location in each School facility as well as made available to students, upon request.

If the Head of School has adequate evidence that a student, sixteen (16) years old or older at the time of the offense, has been convicted of or is an adjudicated delinquent resulting from any of the above offenses, s/he shall submit a written recommendation to the Board that the student should be permanently excluded from the public School by the State Superintendent of Public Instruction. The recommendation is to be accompanied by the evidence, other information required by statute, and the name and position of the person who should present the School's case to the State Superintendent. The Board, after considering all the evidence, including the hearing of witnesses, shall take action within fourteen (14) days after receipt of the Head of School's recommendation.

If the Board adopts the resolution, the Board shall submit it to the State Superintendent, together with the required documents and the name of the person designated by the Board as its representative to present the case to the State Superintendent. A copy of the resolution shall be sent to both the student and his/her parents.

If the Board fails to pass the resolution, it shall so notify the Head of School, in writing, who, in turn, shall provide written notification of the Board's action to both the student and his/her parents.

If the State Superintendent rejects the Board's request, the School shall re-admit the student in accordance with statute and Board guidelines. If the State Superintendent acts on the

Board's request, his/her actions and those of the School shall be in accord with the procedures described in Ohio Revised Code §3313.66.

R.C. 3313.662

Suspension/ Expulsion of Disabled Students

In matters relating to the disciplining of disabled students, the Board shall abide by Federal and State laws regarding suspension and expulsion. The Head of School will follow the guidelines below and ensure they are properly used when disciplining any student with a disability.

Removals of Not More Than 10 Days- The 10-Day Rule

The School may unilaterally remove a student with a disability who violates a code of student conduct from the student's current placement for not more than 10 school days. This option may be used only if the disciplinary action is consistent with actions taken against nondisabled students. The School may place students removed under the 10-day rule in an appropriate interim alternative educational setting ("IAES") if applicable (see below), another setting, or suspend them. Removals under the 10-day rule are not considered a "change of placement" and the School is not obligated to provide services to students during those removals. The School can use the 10-day rule to remove a student for either a single removal of 10 consecutive school days; or a series of shorter-term removals over the course of the school year that are more than 10 consecutive school days during that school year, so long as those removals do not constitute a pattern of removals (and therefore, a change of placement).

Removals of More than 10 Days - Change of Placement

A change of placement occurs if a removal is for more than 10 consecutive school days; or if a student is subjected to a series of removals which accumulate to over 10 school days, that constitute a pattern. If a change of placement occurs (after a MDR (see below)), then the School must notify the parents or guardians of that decision. This notice must inform the parents or guardians of all the procedural safeguards accorded under the law. These safeguards include a manifestation determination review, a right to receive services, and a continuation of services for a free appropriate public education. The School must provide services that:

- enable the student to continue to participate in the general education curriculum (although in another setting); and
- enable the student to progress toward meeting the goals set out in the student's IEP.

Manifestation Determination Review (“MDR”)

The School will conduct a MDR to examine a student's behavior before imposing disciplinary consequences that would amount to a change of placement. The purpose of the MDR is to determine whether a student's disability caused, influenced or otherwise impacted the student's behavior in question. To make this determination, the student's IEP team is required to review certain information and determine whether the behavior causing the disciplinary infraction is or is not a manifestation of the student's disability.

The MDR is not required for disciplinary removals that do not constitute a change of placement, that is, less than 10 school days per incident or a series of removals accumulating to more than 10 school days in one school year that do not constitute a pattern.

No later than the date on which the decision to take a disciplinary action which may be a change of placement is made, the School must notify the parents or guardians of that decision and of all procedural safeguards, including the MDR. The School and the parents or guardians must determine which members of the IEP team are relevant to conduct the manifestation determination. The team will review all relevant information in the student's file to determine whether the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability or was the direct result of the School's failure to implement the IEP. If the team determines that either condition is applicable for the student, it must determine that the conduct is a manifestation of the student's disability.

Manifestation - If the team determines that the behavior was a manifestation of the student's disability, the full IEP team must meet the following requirements:

- conduct a functional behavior assessment and implement a behavior intervention plan for the student, unless the School conducted a functional behavior assessment prior to the manifestation determination;
- if the IEP team already developed a behavior intervention plan, it must review and modify the plan as necessary to address the behavior; and
- return the student to the placement from which he or she was removed, 45-day rule exception applies.

No Manifestation - If the team determines that the behavior was NOT a manifestation of the disability, the School may discipline the student using the relevant disciplinary procedures applicable to students without disabilities in the same manner and for the same duration, continuing to provide services to students with disabilities.

If a student's behavior was not a manifestation of the disability, the School will still take steps to attend to the student's behavior. The student must receive, as appropriate, a functional behavior assessment, behavioral intervention services and modifications designed to address the behavior violation in order to attempt to prevent a reoccurrence.

Exceptions to the MDR Requirement – The Unilateral Change in Placement and 45-Day Rule

School personnel may remove a student to an IAES for up to 45 school days, without a prior MDR or IEP meeting, when a student:

- carries or possesses a weapon (a device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that the term does not include a pocket knife with a blade of less than 2 1/2 inches in length);
- knowingly possesses or uses illegal drugs (a controlled substance not legally possessed or used under the supervision of a licensed health care professional, or legally possessed or used under any other authority under the Controlled Substances Act (21 U.S.C. §812) or under any other provision of federal law), or sells or solicits the sale of a controlled substance (a drug or other substance identified under Schedule I, II, III, IV or V in the Controlled Substances Act); or
- has inflicted serious bodily injury on another person (a cut, abrasion, bruise, burn or disfigurement, physical pain, illness, impairment of the function of a bodily member, organ or mental faculty, or any other injury, no matter how temporary).

This authority can be exercised if a student commits any of the offenses described above at the School, on the School premises or at a School function.

The IEP team will meet subsequent to the unilateral placement in an IAES, and must determine what the permanent setting will be, take steps to modify the student's IEP, as appropriate, provide appropriate behavioral intervention services and modifications designed to address the behavior violation so that it does not recur, and continue to provide the student with educational services to enable him or her to participate in the general education curriculum and to progress toward IEP goals.

The School must still do a MDR, but it can occur after the removal to the 45-day setting. If the conduct is a manifestation of the student's disability, the School must still meet all of the requirements outlined above for the MDR, with the additional exception that the student stay in the alternative placement for 45 school days, regardless of the outcome of the manifestation.

Due Process Complaint

Parents or guardians who disagree with any decision regarding placement or the outcome of an MDR may appeal the decision through the filing of a due process complaint.

The School may request a hearing to change a student's placement if the School believes that maintaining the student's current placement is substantially likely to result in injury to the student or others. Under those circumstances, the hearing officer may order a change in placement of a student with a disability to an IAES for a period of up to 45 school days if the hearing officer agrees with the School's assessment.

During any due process proceedings, the student's placement, through a disciplinary action, must not change unless the parents/guardians and the School agree otherwise, or upon admissions to the School and parent/guardian consent. The School may change the student's placement when taking disciplinary actions that constitute a change of placement against students with disabilities, or students who may be eligible for IDEA services.

In the case where a student has been placed in an IAES, the student will remain in the IAES chosen by the School, pending the hearing officer's decision or until the time period expires, whichever occurs first, unless the parent and school agree otherwise. An expedited hearing will be arranged during an IAES appeal and will occur within 20 days of the hearing request, and the hearing officer must make a determination within 10 school days after the hearing.

SECTION 280

STUDENT ACTIVITIES

School Sponsored Publications

The School may sponsor student publications as a means for students to learn, under adult direction, the rights and responsibilities of the public expression in a free society.

Such publications also play a vital role in the School's program by:

1. presenting students and the School to the community;
2. serving as a public relations media;
3. developing skills in communicating via the mass media; and
4. developing acceptable methods for preserving the constitutional provision of free speech.

In sponsoring a student publication, the School is mindful of the fact that it could be available to any student attending the School, and must, therefore, generally be suitable for all students.

Issues on which opposing points of view have been promulgated by responsible opinion may be introduced in a School sponsored publication provided equal opportunity is given to present each view and provided further that the material generally is acceptable to this community.

Advertising may be permitted in School newspapers, yearbooks, programs, etc. which are published by student organizations. Permission must be given by the Head of School or his/her designee.

The School reserves the right to designate and prohibit the publications or productions which are not protected by the right of free expression because they violate the rights of others. Such unprotected materials are those which:

1. are grossly prejudicial to an ethnic, religious, racial, or other delineated group;
2. libel any specific person or persons;
3. seek to establish the supremacy of a particular religious denomination, sect, or point of view over any other religious denomination, sect or point of view; and
4. advocate the use or advertise the availability of any substance or material which may reasonably be believed to:
 - a. constitute a direct and substantial danger to the health of students;
 - b. contain obscenity or material otherwise deemed to be harmful to impressionable students who may receive them; and
 - c. incite violence, advocate the use of force or urge the violation of law or school regulations.

The School also prohibits publications and productions which:

1. fail to identify the student or organization responsible for distribution; and
2. solicit funds for non-school organizations or institutions when such solicitations have not been approved by the Board.

The decision as whether or not something is published or produced shall be made by the advisor with appeal to the Head of School or his/her designee.

Field Trips

The School recognizes that field trips, when used for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the School. Properly planned and executed field trips should:

1. supplement and enrich classroom procedures by providing learning experiences in an environment outside the School;
2. arouse new interests among student;
3. help students relate School experiences to the reality of the world outside of School;
4. bring the resources of the community - natural, artistic, industrial, commercial, governmental, educational - within the student's learning experience;
5. afford students the opportunity to study real things and real processes in their actual environment.

For purposes of this policy, a field trip shall be defined as any planned journey by one or more students away from the School premises, which is under the supervision of a professional staff member and an integral part of a course of study.

Other School-sponsored trips shall be defined as any planned, student-travel activity which is approved as part of the School's total educational program.

The Head of School or his/her designee shall approve all trips before taken.

Students may be charged fees for School-sponsored trips but no student shall be denied participation for financial inability, nor shall nonparticipation be penalized academically.

Students on all School-sponsored trips remain under the supervision of the School and are subject to the School's administrative guidelines and policies.

The Board does not endorse, support, or assume liability in any way for any staff member, volunteer, or parent of the School who takes students on trips not approved by the Head of School or his/her designee. No staff member may solicit students of the School for such trips within the facilities or on the School grounds of the School without permission from the Head of School or his/her designee. Permission to solicit neither grants nor implies approval of the trip. Such approval must be obtained in accordance with the School's Policies.

The School sets forth these guidelines for the operation of both educational and other School-sponsored trips, including athletic trips, which shall ensure the safety and well-being of students, proper planning and follow-up, supervision and the expected behavior of the students.

A copy of each student's Emergency Medical Authorization Form should be in the possession of the staff member in charge on each trip.

A staff member shall not change a planned itinerary while the trip is in progress, except where the health, safety, or welfare of the students in his/her charge is imperiled or where changes or substitutions beyond his/her control have frustrated the purpose of the trip.

In any instance in which the itinerary of a trip is altered, the professional staff member in charge shall notify the administrative superior immediately.

See **Appendix R** Field Trip Policy and Permission Request Form.

Equal Access for Non-School Sponsored Student Clubs and Activities

The Board will not permit the use of School facilities by non-School-sponsored student clubs and activities or School-sponsored, non-curriculum-related clubs and activities during instructional hours. During non-instructional time, to the extent allowed by any owner, landlord or lease of the School or School property, students shall be allowed an opportunity to meet, regardless of the size of the group and regardless of the religious, political, philosophical, or other content of the activity. The Board will not permit the organization of a fraternity, sorority, or secret society. The Board reserves the right to deny all non-school sponsored clubs or activities during non-instructional times.

Student Employment

The Board believes that attendance at School should occupy a student's full attention and should take precedence over non-school-related employment.

If a student must work while attending School, s/he should receive counseling and assistance in seeking appropriate job opportunities and in correlating work schedules with School studies and activities. The Head of School or his/her designee should monitor any non-school related employment in order to determine the effects on School performance.

The Head of School or his/her designee shall prepare guidelines which will ensure that all students employed in out-of-school jobs are monitored by staff regarding School attendance and achievement in order to determine the effects on School performance of the student assuming out-of-school work commitments.

Sports Policy

The School Sports Policy is further detailed in its Athletic / Activity Program Handbook

Scope of the Code of Conduct The provisions outlined in this policy shall be in effect twenty-four hours a day, seven days a week, for the duration of the season (first day of practice until the last game or awards ceremony/banquet; whichever is later) . This includes sports which commence before the beginning of the school year or extend beyond the end of the school year. For all other clubs and organizations, enforcement may begin with first meeting through the end of the school year. For an elected or appointed position, the activity program conduct may be enforced from the beginning of the election/appointment through the expiration of the term of office/season/activity. Violations are cumulative throughout one school year.

FERPA / Student Records and Release of Director Information

Insert Language from ICS 2016-2017 Family Handbook to replace the following:

For the purposes of this section, "eligible students" shall include any student who is at least eighteen (18) years of age or an emancipated minor. Parents and eligible students shall receive annual notice of their rights under this section.

Parents and eligible students have the right to inspect and review the student's education records within forty-five (45) days of the receipt of a request for access to such records. Such request must be in writing and the school shall make arrangements for access to such records and shall notify the parent or eligible student of the time and place where such records may be inspected.

Parents and eligible students have the right to request in writing an amendment of a record that they believe is inaccurate. In the event the school determines that the requested amendment will not be made, the parent or eligible student shall be informed of the reasons for such decision in writing and the school shall advise the parent or eligible student of their right to a hearing regarding the request for amendment.

The School shall not permit the release of education records or personally identifiable information contained therein, other than directory information, without the written consent of a parent. This provision does not apply to disclosures in the following circumstances:

1. to school officials who have a legitimate educational interest.
2. to officials of other schools or school systems in which the student seeks or intends to enroll, upon the condition that the student's parents be notified of the transfer, receive a copy if desired and have an opportunity for a hearing to challenge the content of the record.
3. to appropriate parties in connection with an emergency if such knowledge is necessary to protect the health and safety of the student or other individuals.

The School shall provide the Ohio Department of Education ("ODE") with personally identifiable student information under the following circumstances:

1. A testing scoring company has notified ODE that the student's written response to a question on a state achievement test included threats or descriptions of harm to the student or another person and ODE needs the information to identify the student for the purpose of alerting the School of the potential for harm;
2. The School asks ODE to verify the accuracy of the student's score on an achievement test; or
3. The student has passed all but one of the Ohio Graduation Tests (OGT) and ODE must determine whether the student satisfies the alternative requirements for a high school diploma.

The School shall provide annual notice to parents and eligible students of the school's intent to make available, upon request, "directory information". Directory information may include a student's name, address, telephone listing, date and place of birth, photograph,

Student Surveys

For purposes of this section, the term "eligible students" shall include any student who is at least eighteen (18) years of age or an emancipated minor

The School shall notify parents and eligible students at least annually of the potential administration of any School-approved third party surveys and parents and eligible students shall have the right to inspect any such survey upon a reasonable request.

A student shall not be required to submit to a survey, analysis or evaluation without the prior written consent of the student's parent or an eligible student that reveals any of the following information:

1. political affiliations or beliefs of the student or the student's parent;
2. mental or psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating or demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers;
7. religious practices, affiliations or beliefs of the student or the student's parent; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.)

The School shall provide notice to parents and eligible students annually of the specific or approximate dates of any such survey being administered and shall not administer any survey relating to any of the above listed information to any student for which written consent has not been received from the student's parent or the student, if an eligible student.

Additionally, the School shall provide notice to parents and eligible students at least annually of the specific or approximate dates of the administration of any survey to collect, disclose or use any student personal information for the purpose of marketing or selling the information. Parents and eligible students shall have the right to inspect the survey or other documents to be used in the collection of any such personal student information and shall have the right to opt their student out of participation in such activity.

The preceding paragraph does not apply, however, to the collection, disclosure or use of personal student information for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments.
5. The sale by students of products or services to raise funds for School-related or education-related activities.
6. Student recognition programs.

Biennial Assessment

The School will inform the parents of its students and the public about their ability to access the data, questions and assessment instruments required or used in the biennial assessment of the state's students pursuant to the National Assessment of Educational Progress Act as amended by the No Child Left Behind Act (if applicable).

The School will inform the parents of its students selected to participate in the biennial assessment that their children may be excused from participating in the assessment for any reason.

20 U.S.C. § 9622(d)(2)

I. Homeless Children and Youth Policy**Purpose:**

The purpose of this policy is to ensure that all children and youth have equal access to the same free and appropriate public education, including preschool education as non-homeless children and youth.

Definitions:

A. Homeless children and youth are defined as individuals who lack a fixed, regular, and adequate nighttime residence, and include those who meet any of the following criteria:

Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason (sometimes referred to as doubled-up);

- Living in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations;
- Living in emergency or transitional shelters;
- Abandoned in hospitals; or
- Children and youth who have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings;
- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- Migratory children who qualify as homeless because they are living in circumstances described above.
- Children displaced from their housing during naturally occurring disasters:
- When children and their families are displaced from their housing as a result of a natural disaster, there is often a period of instability in which various private organizations and local, State, and Federal agencies provide assistance. The School should determine such children's eligibility for McKinney-Vento services on a case-by-case basis. In making this determination, they should take into consideration the services that are available through these other sources.
- Homeless preschool-aged children and their families shall be provided equal access to the educational services for which they are eligible, including preschool programs administered by the School District.

If a child or youth's living situation does not clearly fall into the situations described above, the School should consider the relative permanence of the living arrangements. Determinations of homelessness should be made on a case-by-case basis. Incarcerated children and youth and children and youth in foster care are not considered homeless.

B. Unaccompanied Youth

The term unaccompanied youth includes a youth not in the physical custody of a parent or guardian. This would include youth living in runaway shelters, abandoned buildings, cars, on the streets, or in other inadequate housing and children and youth denied housing by their families, and school-age unwed mothers, living in homes for unwed mothers, who have no other housing available.

C. School of Origin

The school of origin is the school that the child or youth attended when permanently housed or the school in which the child or youth was last enrolled.

II. LEA (Community School)

The purpose of the McKinney-Vento Homeless Children and Youth Program is to ensure that all children and youth, including preschoolers, have equal access to the same free and appropriate public education, as non-homeless children and youth. The LEA will follow the requirements of the McKinney-Vento Act, whether or not they have received a McKinney-Vento sub-grant from the state to administer their program. Under 42 U.S.C. § 11432(g) (3), the LEA will:

- designate a staff person to carry out the duties described in the McKinney-Vento Act as the local homeless liaison;
- continue the student's education in the school of origin or a local public school that stably housed students in the area are eligible to attend; and
- make school placement decisions based on the best interest of the child or youth.
- keep a homeless child or youth in the school of origin, to the extent feasible, except when doing so is contrary to the wishes of the student's parent or guardian; to provide a written explanation, including a statement regarding the right to appeal, to the parent or guardian of a homeless student or to an unaccompanied homeless youth, if the LEA sends the child to a school other than the one requested; ensure, in the case of an unaccompanied homeless youth, that the local liaison assists in placement or enrollment decisions and considers the views of the youth.
- Regarding enrollment and records, the LEA will enroll the child or youth, even without records that are normally required; contact the school last attended for relevant records; assist with obtaining immunizations or immunization records; and make records available in a timely fashion when the child or youth enrolls in a new school or LEA.
- To mediate enrollment disputes, the LEA will enroll the child or youth in the school in which enrollment is sought, pending the resolution of the dispute; refer the child, youth, parent, or guardian to the local liaison to carry out the dispute resolution process; and ensure liaisons assist an unaccompanied youth during the dispute process.
- The LEA will provide services comparable to those received by non-homeless students. The LEA will coordinate with local social service and housing agencies.

III. School Liaisons For Homeless Children

The School liaison serves as one of the primary contacts between homeless families and Staff, School personnel, shelter workers, and other service providers. The liaison coordinates services to ensure that homeless children and youth enroll in school and have the opportunity to succeed academically.

The Superintendent will appoint a Liaison for Homeless Children who will perform the duties as assigned by the Superintendent. Additionally, the Liaison will coordinate and collaborate with the State Coordinator for the Education of Homeless Children and Youth as well as with community and school personnel responsible for the provision of education and related services to homeless children and youths.

The homeless liaison will assist, to the extent feasible, the homeless students and their parent(s) or guardian(s) or unaccompanied homeless students in their efforts to provide documentation to meet State and local requirements for entry into school.

Homeless students will be provided services comparable to other students in the District including:

- transportation services;
- educational services for which the homeless student meets eligibility criteria including services provided under Title I of the Elementary and Secondary Education Act or similar State and local programs, educational programs for children with disabilities, and educational programs for students with limited English proficiency;
- programs in vocational and technical education;
- programs for gifted and talented students;
- school nutrition programs; and before - and after-school programs;
- and referrals to health, mental health, dental, and other appropriate services.

School liaisons must ensure that:

- Homeless children and youth are identified by school personnel and through coordination activities with other entities and agencies;
 - Homeless students enroll in, and have full and equal opportunity to succeed in the School;
 - Parents or guardians of homeless children and youth are informed of educational and related opportunities available to their children, and are provided with meaningful opportunities to participate in the education of their children;
 - Enrollment disputes are mediated in accordance with the requirements of this policy; and
 - Public notice of the educational rights of homeless students is disseminated to locations where they receive services.
-
- homeless families, children, and youth receive educational services for which they are eligible, including Head Start programs and preschool programs administered by the LEA, as well as referrals to health care services, dental services, mental health services, and other appropriate services;
 - the parents or guardians of homeless children and youth are informed of the educational and related opportunities available to their children and

are provided with meaningful opportunities to participate in the education of their children;

- public notice of the educational rights of homeless children and youth is disseminated where they receive services, such as schools, family shelters, and soup kitchens;
- enrollment disputes are mediated according to local, state, and federal policies; and
- the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin.
-

See 42 U.S.C. § 11432 (g) (6) (A), the McKinney-Vento Act.

The Non-Regulatory Guidance (ED, 2004) lists the following activities that liaisons must conduct in carrying out their responsibilities:

- assist homeless children and youth with enrolling in school and accessing school services;
- help homeless children and youth obtain immunization or medical records;
- inform parents, school personnel, and others of the rights of homeless children and youth;
- work with school staff to make sure that homeless children and youth are immediately enrolled in school pending resolution of disputes that might arise over school enrollment or placement;
- help to coordinate transportation services for homeless children and youth; and,
- collaborate and coordinate with the State Coordinator and with community and school personnel responsible for providing education and related support services to homeless children and youth.
-

In meeting these responsibilities, the School liaison should also collaborate with the school district special education program. The Individual with Disabilities Education Act (“IDEA”) requires that highly mobile children with disabilities, such as migrant and homeless children who are in need of special education and related services, are located, identified and evaluated. Additionally, IDEA requires that homeless preschoolers and all homeless children be included in the “Child Find” process for early identification of special education needs.

III. School Placement and Enrollment

The District shall remove barriers to the enrollment and retention of homeless students in schools in the District. Homeless students shall be enrolled immediately, even if they do not have the necessary enrollment documentation such as immunization and health records, proof of residency or guardianship, birth certificate, school records, and other documentation.

The School must make school placement determinations on the basis of the “best interest” of the homeless child or youth. The School must:

- Continue the child’s or youth’s education in the school of origin for the duration of homelessness when a family becomes homeless between academic years or during an academic year; or for the remainder of the academic year if the child or youth becomes permanently housed during an academic year; or
- In determining a child’s or youth’s best interest, the School must, to the extent feasible, keep a homeless child or youth in the “school of origin” unless doing so is contrary to the wishes of the child or youth’s parent or guardian. If the School wishes to send a homeless child or youth to a school other than the school of origin or a school requested by the parent or guardian, the School must provide a written explanation of its decision to the parent or guardian, together with a statement regarding the right to appeal the placement decision. If a School is selected on the basis of a “best interest determination”, it must immediately enroll the homeless child or youth, even if the child or youth is unable to produce the records normally required for enrollment (such as previous academic records, medical records, proof of residency, birth certificates, or other documentation). The School must immediately contact the school last attended by the child or youth to obtain relevant academic or other records. If a child or youth needs to obtain immunizations, or medical or immunization records, the School must immediately refer the parent or guardian to the School homeless liaison, who must assist in obtaining the immunizations or records. The records must be maintained so that they are available in a timely fashion when the child enters a new school or school district.
- To the extent feasible, the School must educate a homeless child or youth in his or her school of origin, unless doing so is contrary to the wishes of the parent or guardian. The placement determination should be a student-centered, individualized determination. Factors that a School may consider include the age of the child or youth; the distance of a commute and the impact it may have on the student’s education; personal safety issues; a student’s need for special instruction (e.g., special education and related services); the length of anticipated stay in a temporary shelter or other temporary location; and the time remaining in the school year.

IV. Placement disputes between a School and a parent

If a dispute arises over school selection or enrollment, the LEA must immediately enroll the homeless student in the school in which enrollment is sought by the parent or guardian, pending resolution of the dispute. Similar provisions apply to placement of unaccompanied youth.

The School must provide the parent, guardian, or unaccompanied youth with a written statement of the school placement decision and the appeal rights. The School must refer the unaccompanied youth, parent, or guardian to the School liaison, who must expeditiously carry out the dispute resolution process.

The School should consider the following strategies for effectively resolving school enrollment disputes:

1. Disputes should be resolved at the district level rather than the school level;
2. When inter-district issues arise, representatives from all involved districts and the SEA should be present to resolve the dispute;
3. A State-level appeal process, involving the State coordinator, should be available for appeals of district-level decisions and resolution of inter-district disputes;
4. The dispute resolution process should be as informal and accessible as possible, and allow for impartial and complete review;
5. Parents, guardians, and unaccompanied youth should be able to initiate the dispute resolution process directly at the school they choose, as well as at the district or LEA homeless liaison's office;
6. States should establish timelines to resolve disputes at the local and State level;
7. Parents, guardians, and unaccompanied youth should be informed that they can provide written or oral documentation to support their position;
8. Students should be provided with all services for which they are eligible while disputes are resolved;
9. Written notice should be complete, as brief as possible, simply stated, and provided in a language the parent, guardian, or unaccompanied youth can understand. The notice should include:
 - a. Contact information for the School homeless liaison and State coordinator, with a brief description of their roles;
 - b. A simple, detachable form that parents, guardians, or unaccompanied youth can complete and turn in to the school to initiate the dispute

- process. (The School should copy the form and return the copy to the parent, guardian or youth for their records when it is submitted);
- c. A step-by-step description of how to dispute the School's decision;
 - d. Notice of the right to enroll immediately in the school of choice pending resolution of the dispute;
 - e. Notice that "immediate enrollment" includes full participation in all school activities;
 - f. Notice of the right to appeal to the State if the district-level resolution is not satisfactory; and
 - g. Timelines for resolving district- and State-level appeals.

V. Prohibition Against Segregation

Homelessness alone is not sufficient reason to separate students from the mainstream school environment. Services provided with McKinney-Vento Act funds must not replace the regular academic program and must be designed to expand upon or improve services provided as part of the School's regular academic program.

- If a State receives funds under the McKinney-Vento program, every district in that State – whether or not it receives a McKinney-Vento sub grant from its SEA – is prohibited from segregating homeless students in separate schools or in separate programs within schools, based on the child's or youth's status as homeless.
- Schools may not provide services with McKinney-Vento funds on school grounds in settings that segregate homeless children and youth from other children and youth [except as necessary for short periods of time for health and safety emergencies or to provide temporary, special, and supplementary services to meet the unique needs of homeless children and youth].

VI. Transportation

At the request of the parent or guardian (or, in the case of an unaccompanied youth, the liaison), transportation shall be provided to or from the "school of origin" in accordance with the following requirements:

- If the homeless child or youth continues to live in the area in which the school of origin is located, that School must provide or arrange for the child's or youth's transportation to or from the school of origin.
- If the homeless child or youth continues his or her education in the school of origin but begins living in an area served by another LEA, the LEA of origin and the LEA in which the homeless child or youth is living must agree upon a method to apportion the responsibility and costs for providing the child with transportation to

and from the school of origin. If the LEAs cannot agree upon a method, the responsibility and costs for transportation are to be shared equally.

VII. Comparable and Coordinated Services

The School must provide services to each homeless child and youth that is comparable to services offered to other students in the School. Homeless children are also entitled to participate in the regular after-school program provided by the School, and the School must address all barriers to their full participation in these programs. If no after-school programs are provided by the school or the programs provided do not meet the needs of homeless children, McKinney-Vento funds may be used for after-school services for homeless children, and for non-homeless children who are at risk of failing in, or dropping out of, school. The School must provide comparable services to a homeless student who does not attend a Title I school. School must reserve funds for homeless children who do not attend participating Title I schools and may, for instance, provide support services to children in shelters and other locations where homeless children live. Services should be provided to assist homeless students to effectively take advantage of educational opportunities.

Grandparent Caretaker Policy

A grandparent with a grandchild living with them may enroll the grandchild in the School pursuant to the Admission and Lottery Standards Policy No. 241. Such grandparent must provide a Power of Attorney and a Caretaker Authorization Affidavit.

A. Power of Attorney

A Power of Attorney is created by a parent, guardian or custodian of any student of the school, and grants to the grandparent of the child with whom the child is residing any of the parent's, guardian's or custodian's rights or responsibilities regarding the care, physical custody and control of the child, including the ability to enroll the child in school, to obtain from the school district educational and behavioral information about the child, to consent to all school-related matters regarding the child, and to consent to medical, psychological or dental treatment for the child. A Power of Attorney does not convey legal custody of the grandchild to the grandparent and does not affect the rights of a parent, guardian or custodian in any future proceedings.

B. Caretaker Authorization Affidavit

A Caretaker Authorization Affidavit may be executed by a grandparent who has made reasonable attempts to locate and contact both of the child's parents or the child's guardian or custodian, but has been unable to do so. The Caretaker Authorization Affidavit gives the grandparent the authority to exercise care, physical custody and control of the child, including authority to enroll the child in school; discuss with the school the child's educational progress; consent to all school-related matters regarding the child; and consent to medical, psychological or dental treatment for the child.

C. The execution of a Power of Attorney or Caretaker Authorization Affidavit for the purpose of enrolling the child in a school or school district so that the child may participate in the academic or inter-scholastic athletic programs provided by the school or school district is prohibited. Such falsification is a first degree misdemeanor, and voids the Power of Attorney or Caretaker Authorization Affidavit.

D. Both the Power of Attorney and the Caretaker Authorization Affidavit terminate after the following events:

- expiration of one year after execution;
- termination of the child's residence with the grandparent;
- termination by the court; or
- death of the grandparent.

Constitution Day

On September 17th, 1787, the U.S. Constitution was signed. Thus, on September 17th of each year, the School shall hold an educational program pertaining to the United States Constitution, which shall be designated as Constitution Day and Citizenship Day (“Constitution Day”). Unless September 17 falls on a weekend or holiday, the program must be held on that date; otherwise, the program will be held the week prior to or after September 17th.

About Our School

“To turn your youngsters onto school, you have to take the time and expend the effort to salute them for doing the right thing and publicly celebrate their academic success. You must remain steadfast and unwavering in order to provide a supportive and encouraging environment for the youngsters you are raising.” – Hugh D. Price, President of National Urban League (Achievement Matters 4, Price, 2002). Like Hugh B. Price, we know that “the basic idea behind charter schools is that ‘one size doesn’t fit all in K-12 education. So states and local school districts may be allowed under the law to authorize the creation of charter schools that serve as an option for parents and children” (134). The specific design of the School is to provide the fit that will best work for the most “at-risk” children, address their specific needs, and ensure that we are able to meaningfully contribute to the educational landscape in Cleveland which remains dedicated to the improvement of the lives of all children residing in our city.

The educational program shall be provided without discrimination on the basis of age, color, sex, national origin, disability, race, religion, or status as a Vietnam veteran or on any other basis prohibited by Federal, state or local laws. Non-discriminatory policies will be adopted and implemented regarding recruitment, admissions, employment, educational programs, athletics, and extra-curricular activities. The School does not discriminate with regard to its admission of students to all rights, privileges, programs, and activities generally accorded or made available to the students in the school.

The philosophy of education and educational goals shall reflect the school’s deep and central commitment to strong student achievement. We believe that the primary need of our students is to develop the strongest basic skills in the middle school, and to build upon that foundation in high school through the increasing application of those skills to real world problems and the development of critical thinking skills necessary for college and the demands of the modern professional work place. The implementation of this philosophy and the program to support the educational goals as outlined in our Accountability Plan will be developed under the direction of the Head of School and adopted as revisions to what is here by the School Board. The philosophy of education and educational objectives shall be included in school brochures, application forms, parent handbooks, and staff manuals.

The School believes that dedicated and professional staff, a strict and consistent disciplinary policy, a partnership with parents who support the educational philosophy and program of the school, and a collaboration with community organizations, are necessary to create well-rounded youth capable of and committed to life long learning. With our focus on the critical development of basic skills and the increasing development of higher ordered work, the School will implement a program of cumulative review, direct instruction on new skills and content knowledge acquisition, and multiple opportunities to practice these skills and content. Further, technology will be used in classrooms as appropriate to further reinforce these lessons and to ensure exposure as well as prepare the student for the work world. Professional internships and enrichment programming may be provided to The Academy’s high school students through

collaborative curriculum implemented with a number of partners. The curriculum design of the School must transform the lives of our children, who all too often are headed for increasing academic failure and eventual school drop-out. As with the educator Marva Collins and the innumerable educators she has inspired, "The challenge that motivates [us] is to prove that something positive and constructive can be done about the deplorable rate of dropouts, which is preceded by an attendant level of scholarship among most minority students" (Marva Collins' Way 1, 1982). Therefore, at the School we are committed to substantially increasing the scholarship level of our students as one of the most critical ways of moving steadily towards high school graduation for Cleveland's most at-risk students.

First, the academic program will remediate individual students' basic skills and knowledge gaps and ensure that all students can read, write, and compute on grade level. As a result of this focus on the core academic skills, it is expected that English/Language Arts and Math will take a larger portion of the middle students' scheduled academic time. English/Language Arts and mathematics will continue to be scheduled for an extended amount of time every day through 8th grade with the goal of preparing students to demonstrate proficiency as measured by the National Assessment of Educational Progress in reading and writing, and ensuring that they have strong listening and presentation skills as well. This core instruction will be supplemented by daily instruction in science and social studies, as well as enrichment classes in the arts and physical education. Tutoring time may be built into the beginning and end of every school day and in a Saturday School, to give students ample opportunity to reach and stay on grade-level and achieve within challenging academic curriculum. Students will begin 9th grade with a strong academic base as evidenced by high scores on the 8th grade Ohio Achievement Tests and portfolios documenting authentic student performance in the areas of academic achievement defined by standards but not assessed by the Ohio Achievement Tests. In 9th and 10th grade, students will focus on a demanding college preparatory school academic curriculum, taking advantage of their preparation and the school's extended day and school year to establish a strong foundation for college readiness by the time of graduation. The School expects students to graduate from the 12th grade with a strong and well-practiced foundation of knowledge, skills, conceptual understanding, and work and study habits to ensure their success in college and the world of work. The school will make use of the extra time to ensure all students are achieving against its very high academic expectations while also making room for students to begin to develop their entrepreneurial skills and practice them through professional internships and advanced study during their junior and senior years of high school. Within the academic curriculum of the 9th and 10th grade years (as well as for all of a student's years at E-Prep), course work will demand research, dialogue, discussion, and writing as tools for gaining and communicating understanding. Students will be required to ask and answer, both verbally and in writing, the essential questions at the core of a given grouping of academic standards. Where appropriate, primary sources and experimental data will be used and/or generated for research, and students will be required to think both analytically and creatively to provide their answers and place them within a broader framework for their lives and personal goals. Instruction

will be based on the “I do, we do, you do” model in which teachers provide direct instruction on new material, ensure the opportunity for students to work with the teacher in the application of that new skill or content knowledge, and then practice of the lesson’s aims independently to ensure each student has mastered the material. Students will have access to traditional instructional resources like textbooks, and will be encouraged to go beyond them and out of the building – perhaps working with the archives of the Western Reserve Historical Society in the study of history, studying original works of art at the Cleveland Museum of Art, collecting and testing air and water samples from around the community as part of science and social studies, visiting with Federal Reserve officials as part of the study of economics, etc. Students’ possible access to laptops (1-1 ratio) may give teachers the flexibility to set up their “classroom” wherever the learning agenda demands.

Core faculty will be hired based upon their full commitment to the school’s mission and their high degree of knowledge and experience in successfully promoting strong student achievement in English/Language Arts, mathematics, and physical/biological sciences, social studies, and foreign language. Every effort will be made to ensure that entrepreneurship, technology, and visual and performing arts expertise are also found within the core faculty. However, the school anticipates contracting with external experts where necessary, such as independent language schools for foreign language instruction and organizations like Young Audiences for arts instruction. Such subcontracting will potentially improve the level of expertise (though at a cost to instructional experience that must be closely managed) and increase the school’s flexibility in scheduling courses (e.g., all students could conceivably be in simultaneous foreign language or arts courses, freeing core staff up to plan or collaborate around professional development objectives).

In the 11th and 12th grade years, students are expected to have a solid grounding in a college preparatory school academic program, and will be expected to continue their academic work to ensure their acceptance to a 4-year college program. However, they will also be encouraged to begin to truly “practice entrepreneurship,” and their academic paths may diverge somewhat. Some students may work diligently towards AP exams, and some students may pursue courses through local universities and/or on-line (all students will be supported in successfully completing at least one on-line course during their 7 years at E-Prep) and either the SAT or ACT will be required of all students. However, given the “entrepreneurial” goal, some students may spend substantial time in their 11th and 12th grade years working on business plans, taking externships that help them acquire skills and experience relevant to those business plans, and possibly even beginning to start their businesses. As a result, all students will graduate with acceptance at a 4-year college, and some students may be additionally prepared to immediately execute their business plans.

Our Mission Statement

To prepare students for a college preparatory high school that will ensure success and graduation from a four year college

Our Values

The School strives for a work environment in which all individuals are treated with respect and dignity. Each individual has the right to work in an atmosphere which promotes equal opportunities and prohibits discriminatory practices and harassment based upon age, color, sex, national origin, disability, race, religion, or status as a Vietnam veteran, or on any other basis prohibited by Federal, state or local law. Harassment, whether verbal, physical, or environmental, is unacceptable and will not be tolerated.

Non-Discrimination Policy

The School is an Equal Opportunity Employer. It is our policy to administer all of our employment practices, including those pertaining to recruitment, hiring, placement, transfer, promotion or compensation, layoff or termination, and selection for training in a nondiscriminatory manner without regard to age, color, sex, national origin, disability, race, religion, or status of a Vietnam veteran or on any other basis prohibited by federal, state, or local law. The School will also make reasonable accommodation for qualified individuals with known disabilities unless doing so would result in an undue hardship.

Any employee with a question or concern about discrimination in the workplace is encouraged to bring their concern to the attention of the Head of School or their designee. No reprisal will be permitted for raising concerns or making a report. Anyone determined to have engaged in discrimination or retaliation for a report of discrimination will be subject to disciplinary action, up to and including termination of employment.

306.1

Statement of Philosophy

The School strives for a work environment in which all individuals are treated with respect and dignity. Each individual has the right to work in an atmosphere which promotes equal opportunities and prohibits discriminatory practices and harassment based upon age, disability, national origin, race, religion, or gender. Harassment, whether verbal, physical, or environmental, is unacceptable and will not be tolerated.

Definition of Harassment

For purposes of this policy, harassment is defined as unwelcome or unwanted conduct of an offensive nature (whether verbal, visual, or physical) when: 1) submission to or rejection of this conduct by an individual is used or threatened to be used as a factor in decisions affecting hiring, evaluation, promotion, or other aspects of employment; or 2) this conduct has the purpose or effect of unreasonably interfering with an individual's employment performance or creating an intimidating, abusive, hostile, or offensive work environment.

Examples of harassment include, but are not limited to: unwanted sexual advances; demands for sexual favors in exchange for favorable treatment or continued employment; repeated jokes which include offensive references to age, disability, national origin, race, religion, or gender; unwelcome flirtations, advances, or propositions; verbal abuse of a sexual nature; graphic, verbal commentary about an individual's body, sexual prowess, or sexual deficiencies; leering; whistling; touching; pinching; assault; coerced sexual acts; suggestive, insulting, threatening, or obscene comments or gestures; dissemination or display in the workplace of objects, written materials, or pictures which include offensive references to age, disability, national origin, race, religion, or gender; asking questions about sexual conduct; racial or ethnic slurs or epithets.

Harassment is unacceptable in the workplace itself and in other work-related settings, such as business trips, meetings, or business-related social events.

306.3

Individuals Covered Under the Policy

This policy protects all employees. The School will not tolerate, condone, or allow harassment, whether engaged in by fellow employees or other non-employees who conduct business with the School. The School encourages reporting of all incidents of harassment, regardless of who the offender may be.

Reporting a Complaint

The School encourages all individuals who believe they are being harassed to firmly and promptly notify the offender that his or her behavior is unwelcome. The School does, however, recognize that, in some instances, power and status disparities between the alleged harasser and the individual may make such a confrontation impossible. In the event that such informal, direct communication between individuals is either ineffective or impossible, the following steps should be followed in reporting a harassment complaint. A complaint may be filed by one experiencing or witnessing harassment.

A. Notification of Appropriate Staff

Individuals who believe they have been subjected to harassment should report the incident to the Head of School or his/her designee. When appropriate, the Head of School or his/her designee will immediately consult with the Board. If the Head of School or his/her designee is allegedly involved in the incident, then the individual should report the incident directly to the President of the Board.

The School encourages prompt reporting of complaints so that rapid response and appropriate action may be taken, but no limited time frame applies. Late reporting of complaints will not in and of itself preclude the School from taking remedial action.

B. Protection Against Retaliation

The School will not in any way retaliate or permit retaliation against any individual who makes a good faith report of harassment or who assists or cooperates in an investigation thereof. Retaliation is a serious violation of this harassment policy and should be reported immediately. Any person found to have violated this policy by retaliating against another individual for making a report of harassment or for assisting or cooperating in the investigation thereof will be subject to the same disciplinary action provided for harassment offenders.

C. Investigating the Complaint

Any allegation of harassment brought to the attention of the School will be thoroughly and promptly investigated. Confidentiality will be maintained where possible throughout the investigatory process to the extent practical and appropriate under the circumstances.

D. Resolving the Complaint

Upon completing the investigation of a harassment complaint, the School will communicate its findings and intended actions.

If the investigation finds that harassment occurred, the harasser will be subject to appropriate disciplinary procedures, as listed below.

If the investigation determines that no harassment has occurred, this finding will be communicated as appropriate.

E. Sanctions

Individuals found to have engaged in misconduct constituting harassment will be disciplined, up to and including discharge. Appropriate actions will be determined by the School. For example, action may include reprimanding the offender, documenting the occurrence in the personnel file, referral to counseling, withholding of a promotion, demotion, reassignment, temporary suspension without pay, or termination of employment.

Although the School's ability to discipline a non-employee harasser (e.g., customer, supplier) is limited by the degree of control, if any, that the School has over the alleged harasser, any individual who has been subjected to harassment by such an individual should still file a complaint and be assured that the School will take those actions it deems appropriate to end any harassment.

Immigration Law Compliance Policy

The School is committed to employing only United States citizens and aliens who are authorized to work in the United States and does not unlawfully discriminate on the basis of citizenship or national origin.

In compliance with the Immigration Reform and Control Act of 1986, each new employee, as a condition of employment, must complete the Employment Eligibility Verification form I-9 and present documentation establishing identity and employment eligibility. Former employees who are rehired must also complete the form if they have not completed an I-9 with The School within the past three years, or if their previous I-9 is no longer retained or valid.

Refusal to sign the consent form will be considered refusal to be tested and will result in discharge and may result in denial of workers' compensation benefits.
- D. The School, prior to taking any action, will give all applicants and employees who test positive the opportunity to explain in writing the test results.

Types of Testing

All employees are subject to the following types of testing:

A. Post-Accident Testing

- Alcohol and drug testing is required of employees whose performance either contributed to an accident or cannot be completely discounted as a contributing factor to an accident. Because alcohol does not remain in the body for extended periods of time, testing will be done as soon as possible.

2. Any employee who is tested will immediately be placed on suspension pending test results.
3. The School may conduct pre-employment testing.

Auditor of State’s fraud reporting-system

In 2003, then Auditor of State created the Auditor of State’s fraud hotline. The hotline was established as a way for all Ohioans to report potential fraud throughout government. Since its inception, not a week passes without the Auditor of State’s office receiving tips or complaints.

House Bill 66 (HB 66) makes several changes to the Auditor of State's fraud hotline. The bill requires the Auditor of State to maintain a system for the reporting of fraud, including misuse of public money by any public official or office. The system allows all Ohio citizens the opportunity to make anonymous complaints through a toll-free telephone number, the Auditor of State's website, or through the United States' mail.

The Auditor of State is required to keep a log of all complaints filed. The log is a public record under Section 149.43 of the Revised Code and must contain the following: the date the complaint was received, a general description of the nature of the complaint, the name of the public office or agency with regard to which the complaint is directed, and a general description of the status of the review by the Auditor's office. Information in the log may be redacted if Section 149.43 of the Revised Code or another statute provides an applicable exemption. During the course of Auditor of State investigations, information will be redacted pursuant to Section 149.43(A)(2) in order to conduct thorough investigations.

On the bill's effective date, May 4, 2012, public offices, including community schools, must make their employees aware of the fraud-reporting system. Public offices also must provide information about the fraud reporting system to all new hires. All new employees must confirm that they received this information within thirty days after beginning employment.

Section 117.103 requires the Auditor of State to confirm that public offices have so notified new employees. The statute provides two ways to verify compliance. First, public offices may require new employees to sign forms acknowledging the employees were notified of the fraud-reporting system. The Auditor of State has created a model form, which is used by I CAN SCHOOLS and found on the Auditor of State website. Alternatively, public offices may consider providing the fraud reporting system information in the employee manual for the public office. The employee should sign and verify the employee's receipt of such a manual. This option satisfies the bill's requirements on public employers.

Finally, the legislation also extends the current whistle-blower protections contained in Section 124.341 of the Revised Code to employees who file a complaint with the new fraud-reporting system. If a classified or unclassified employee becomes aware of a situation and reports it to the Auditor of State's fraud-reporting system, the employee is protected against certain retaliatory or disciplinary actions. If retaliatory or disciplinary action is taken against the employee, the employee has the right to appeal with the State Personnel Board of Review.

The Ohio Auditor of State's office maintains a system for the reporting of fraud, including misuse of public money by any official or office. The system allows all Ohio citizens, including public employees, the opportunity to make anonymous complaints through a toll free number, the Auditor of State's website, or through the United States mail.

EMPLOYEE AND STUDENT CARE AND SAFETY

Staff Student Relationship

Professional and support staff members because of their proximity to students are frequently confronted with situations which, if handled incorrectly, could result in liability to the School and personal liability to the professional staff member. Compliance with the following guidelines will minimize that possibility.

1. Each staff member shall maintain a standard of care for supervision, control, and protection of students commensurate with assigned duties and responsibilities.
2. A staff member should not voluntarily assume responsibility for duties s/he cannot reasonably perform. Such assumption carries the same responsibilities as assigned duties.
3. A staff member shall provide proper instruction in the safety matters presented in assigned curriculum guides.
4. Each staff member shall immediately report to the Head of School or his/her designee any accident or safety hazard s/he detects.
5. A staff member shall not send students on any personal errands.
6. A staff member shall not associate with students at any time in a manner which gives the appearance of impropriety, including, but not limited to, the creation or participation in any situation or activity which could be considered abusive or sexually suggestive or involve illegal substances such as tobacco, alcohol, or drugs.

This provision should not be construed as precluding a professional or staff member from associating with students in private for legitimate or proper reasons.

7. If a student comes to a staff member to seek advice or to ask questions regarding a personal problem related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, the staff member may help the student make contact with certified or licensed individuals in the community or the facility who specialize in the assessment, diagnosis, and treatment of the student's problem. Under no circumstances should a staff member attempt, unless properly licensed and authorized to do so, to counsel, assess, diagnose, or treat the student's problem or behavior.
8. A staff member shall not transport students in a private vehicle without the written approval of the Head of School or his/her designee.
9. A student shall not be required to perform work or services that may be detrimental to his/her health.
10. Possession of weapons or any device designed to inflict bodily harm by any School employee, student or visitor while on School grounds, on a

School vehicle, or at a School sponsored event is prohibited and shall result in suspension or dismissal of the student or the employee.

Pursuant to the Ohio laws, each staff member shall report immediately to the Head of School or his/her designee any sign of suspected child abuse or neglect. The Head of School or his/her designee shall follow required procedures for reporting suspected child abuse or neglect to proper legal authorities.

General Safety Rules

The School has written and posted fire, tornado and emergency safety procedures. These procedures are reviewed with students and staff members on a regular basis.

Students shall not be left unattended. If a teacher leaves the classroom for a short time either a teacher aide or another staff person must be left in charge.

In-class projects, experiments and similar activities, which could have some measure of potential danger, must first be approved by the Head of School or his/her designee. If approved the teacher must provide intensive close supervision of the project.

Chemicals and chemical products shall be secured and placed in locked storage units. (See School procedure manual for further specific actions to be taken regarding hazardous chemicals).

The child's health form should be taken from the file and be available for examination. Teachers shall not administer medication to students.

Once the squad is called, they have the authority to determine if transport to a hospital is needed. The School shall notify the parent or guardian regarding the accident and the action taken.

Special Medical Needs

Parents are responsible for notifying School officials if a student has any special medical needs. The School personnel will not address any needs requiring the services of a trained professional. In most instances, the special medical needs will result in limited participation in certain activities and classes rather than any treatment being administered. In all instances the Head of School or his/her designee will make the final decision as to how the School will handle any special needs requests.

Student Abuse and Neglect

Any employee who knows or suspects child abuse or neglect shall immediately report the suspicions to the Head of School or his/her designee. In the event School is closed no School related activities will be held.

SECTION 350

SCHOOL STAFFING, ORGANIZATION AND TRAINING

General Policy

On a regular basis the Head of School or his/her designee will review the staffing, training and organization needs of the School for the purpose of recommending changes, if needed, to the Board.

Staff Development

The teaching staff of the School is encouraged to continue their professional growth through a variety of activities. Teachers and Teacher Aides will attend in-service training which is conducted throughout the School year. Absence requests must be submitted to the Head of School or his/her designee for prior approval.

Performance Evaluation of Staff

Every staff member, both certificated and non-certificated will receive one formal performance evaluations during the year which will incorporate all ongoing assessments (observations) made frequently throughout the year. Such assessments will include, but not limited to, the student performance outcomes.

The performance evaluation process is designed to provide the information employees need in order to maintain or improve their performance. The results of the performance evaluation will be used to assess continued employment and the level of compensation for the following year. All evaluation documents shall be dated and signed by the evaluator and the person being evaluated.

Performance Coaching

Following an employee evaluation, if the Head of School or his/her designee determines that the employee's performance does not meet the standards of the School the Head of School or his/her designee may engage the employee in the Performance Coaching Process. This process shall not interfere with the School's right to terminate an employee.

1. The Head of School or his/her designee will meet with the employee to discuss the performance concern(s) and to identify ways to improve the employee's performance. This discussion must be documented and include specific measurable performance objectives that the staff member must meet within a specified time. The date and time of the next meeting will be established before the meeting is concluded.
2. If the employee does not meet the objectives by the time of the second meeting or if improvement is not sustained, then at the discretion of the Head of School or his/her designee, a second plan similar to the first may be devised or the Head of School or his/her designee may elect to proceed to step 3 (below). This meeting also must be documented.
3. If the employee's performance still does not improve or is not sustained at a level satisfactory to the Head of School or his/her designee, then appropriate action may be taken which could include termination.

Reduction of Staff

The Board reserves the right to eliminate positions and reduce staff as deemed necessary. The Head of School or his/her designee shall make recommendations for staff reduction and report them to the Board.

SECTION 360

EMPLOYEE MISCONDUCT, DISCIPLINE AND TERMINATION

Employee Discipline

The School is committed to establishing and maintaining supervisory practices and procedures that support effective operations in the interest of the organization and its employees. Such procedures may include the administration of disciplinary action to assist employees in overcoming work-related problems, performance deficiencies, or behavior that violates the School's policies, practices, and procedures.

Although the School maintains a progressive disciplinary procedure, circumstances may warrant disciplinary action outside of the progressive procedure. For example, the progressive procedure may not be appropriate: (1) when the conduct at issue involves severe performance deficiencies, performance problems related to skill or ability, or certain types of inappropriate conduct; (2) when the initial steps of progressive discipline do not assist the employee in correcting the problem; (3) when the employee occupies a position requiring the exercise of effective management and leadership; or (4) when the employee's actions, or inactions, may seriously impair the School's ability to carry out its mission. If the School determines that these, or similar circumstances exist, the School may determine that the progressive disciplinary procedure is inappropriate. Moreover, under certain circumstances, a supervisor may determine that although the procedure should be utilized, certain steps in the procedure should be omitted or repeated.

R.C. 124.34.

Disciplinary Procedure**Step 1: Oral Discussions and Warning**

The initial step of the progressive disciplinary procedure is for the supervisor to discuss the problem with the employee as soon as possible after the incident or awareness of the problem occurs. The supervisor should discuss the problem, suggest ways to improve or to correct the problem, and identify a time period for corrective action.

Step 2: Written Warning

The second step is for the supervisor to provide the employee with a written warning. The step is generally taken when the initial step does not correct the problem, although a supervisor may determine that a written warning is warranted as the initial step. When a written warning is given an employee, the supervisor should meet with the employee, outline the problem, suggest ways to improve or correct the problem and identify a time period for corrective action. The specifics of this discussion should be documented in a letter or memorandum that is provided to the employee and forwarded to the Head of School or his/her designee of the School for placement in the employee personnel file. A copy of the letter or memorandum should also be initialed by the employee. If the employee refuses to sign it, this should be documented by the supervisor.

Step 3: Suspension

Although not generally a step in the progressive disciplinary procedure, suspension may be appropriate as the third step. If utilized at all, suspension is generally limited to two circumstances. First, a supervisor may determine that suspension should be used as a corrective measure to emphasize the seriousness of a problem. Second, suspension may be used because discharge appears warranted but the supervisor needs time for an investigation to be conducted to determine if discharge is actually warranted. In any event, suspension is for a specified period and, except for exceptional circumstances, without pay.

Step 4: Discharge

If prior measures fail to correct a problem, the final step in the progressive discipline procedure is termination. If the supervisor is satisfied that discharge is appropriate, and the Head of School or his/her designee concur, discharge should be initiated. The circumstances that led to the decision to discharge the employee should be documented by the supervisor.

R.C. 124.34.

Termination

The employment relationship may be established pursuant to a contract or may be “at will” meaning that, with or without cause and without prior notice, the Employer and Employee may terminate the employment relationship; subject only to a written authorized agreement to the contrary. The only person authorized by the School to enter into any agreement or assurances to the contrary of this handbook is the Head of School of the School and any such agreement or assurance must be in writing and signed by the

Head of School. Whether an employee is “at will,” or, serving under a contract that requires cause for termination, listed below are some reasons which may result in an employee being terminated. This list is not intended to contain all possible reasons for termination.

- Theft or Dishonesty;
- Intentional destruction or unauthorized use of School property;
- Falsification of School Records;
- Unacceptable work performance, including irregular or tardy attendance;
- Willful violation of School policies or property;

When an employee wishes to resign he/she must submit their resignation in writing at least 30 days prior to the effective date.

SECTION 370

COMPENSATION AND BENEFITS

General Policy

The School strives to establish pay levels that are competitive with those of similar Schools in our area. The School's goal is to attract excellent staff-one of our School's most valued assets. Adjustments may be made by the Board, taking into consideration past performance, experience, market availability, job responsibilities, etc.

Scheduling

The hours worked will be established and changed as necessary to meet the needs of the School and its students. A general description of School and work hours will be announced at the beginning of the School year. This schedule may change from time to time as necessary.

Recording Work Time

All hourly employees are responsible for keeping accurate time records in accordance with School procedure. Instructions will be given by the Head of School or his/her designee as to how to complete your time slip. You are not to complete any other employees' time slip nor permit/direct someone else to complete yours.

20 USC 211(c).

Overtime Pay

As defined by law, nonexempt employees receive overtime pay for hours worked beyond 40 in a workweek. Overtime is defined as any hours in excess of 40 hours accumulated during the normal work week which is Sunday through Saturday. Overtime hours are paid at time and one half. A substantial amount of overtime is available to employees with good attendance and work performance.

Under federal law, exempt employees (e.g., salaried executives, professional, and administrative employees, as defined by law, and outside sales persons, as defined by law) are exempt from the law requiring payment for overtime work. Exempt employees are responsible for working as many hours as necessary to get the job done and are not entitled to overtime pay. At hire you will be notified of your exempt or non-exempt status.

29 U.S.C. 207(a)(1) – (2); R.C. 4111.03.

Salary Deduction Policy

It is our policy to comply with the “salary basis” requirements of the Fair Labor Standards Act. Therefore, we prohibit the School from making any improper deductions from the pay of exempt employees. We want employees to be aware of this policy and that the School does not allow deductions that violate the FLSA.

Deductions from pay are permissible when an exempt employee: is absent from work for one or more full days for personal reasons other than sickness or disability; for absences of one or more full days due to sickness or disability if the deduction is made in accordance with a bona fide plan, policy or practice of providing compensation for salary lost due to illness; to offset amounts employees receive as jury or witness fees, or for military pay; or for unpaid disciplinary suspensions of one or more full days imposed in good faith for workplace conduct rule infractions. Also, the School is not required to pay the full salary in the initial or terminal week of employment; for penalties imposed in good faith for infractions of safety rules of major significance, or for weeks in which an exempt employee takes unpaid leave under the Family and Medical Leave Act. In these circumstances, either partial day or full day deductions may be made.

If you believe that an improper deduction has been made from your salary, you should immediately report this information to the Head of School. Reports of improper deductions will be promptly investigated. If it is determined that an improper deduction has occurred, you will be promptly reimbursed for any improper deduction made.

29 C.F.R. § 531, et. seq.

SECTION 380

TIME OFF FROM YOUR JOB

Personal Leave

Each full time employee is given *up to* ten (10) paid days per year. Employees receive 5/6 day of personal leave credit for each month of service to be used for personal matters, including vacation, illness or illness in the family. Personal leave not used will be carried over to the next year. Employees who are terminated or resign are not paid for unused personal leave.

Use of paid time off should be requested as far in advance as possible. An employee absent due to illness must notify the Head of School or his/her designee as soon as possible and no later than 1-1/2 hours prior to the opening of School. Failure to promptly and properly notify School administrators may result in disciplinary action and a charge of personal time without payment for the time off. Upon return to duty the employee must complete a Readmission Form to be submitted to the Head of School or his/her designee who will approve the return to work and forward it to the School Treasurer. Failure to promptly complete the Readmission form may result in disciplinary action and/or denial of pay for personal time off.

R.C. 124.386.

Paid School Holidays

Employees receive paid School holidays as determined by the School calendar. Such holidays generally include winter break, spring break and one week in July.

Medical Leave of Absence

If an employee is unable to physically or mentally perform his or her job they may request an unpaid medical leave of absence. This should be done in concert with the recommendations of a physician(s). Medical leaves of absence must be reported to the Board. While on medical leave the employee shall not accumulate personal leave, health insurance shall not be continued by the Board and the employee shall not take other employment. Employees may elect to pay the cost of health insurance during a period of approved leave.

Child Care Leave

Requests for unpaid leave for pregnancy, child birth, adoption or other child care related circumstances may be requested without pay for up to six (6) weeks or the remainder of the School year, whichever is shorter. With the approval of the Head of School or his/her designee accumulated personal leave may be used in conjunction with child care leave if the employee so requests. Health insurance will not be paid by the Board during the term of such leaves. Employees may elect to pay the cost of health insurance during the period of approved leave.

29 U.S.C. 2601; R.C. 3313.20.

385 **Family Leave (FMLA)**

An employee is eligible under the Federal Family and Medical Leave Act (FMLA) if:

1. The employee has been employed by the School for at least twelve (12) months;
2. The employee has worked a minimum of 1250 hours during the twelve (12) month period before the leave is requested; and
3. The employee is employed at a School worksite which employs fifty (50) or more employees, or the total number of employees within 75 miles of the worksite is fifty (50) or more at the time the request is made.

Even though the School may be a covered employer, employees must meet all three requirements to be eligible.

An employee may take a total of twelve (12) weeks of unpaid leave during the twelve (12) month period described below for any one or more of the following reasons:

1. The birth of a son or daughter of the employee and in order to care for such son or daughter;
2. The placement of a son or daughter with the employee for adoption or foster care;
3. To care for the spouse, son, daughter, or parent of the employee if such spouse, son, daughter, or parent has a serious health condition; or
4. A serious health condition that makes the employee unable to perform the functions of his/her position.

The twelve (12) month period is defined as a "rolling" 12-month period measured backward from the date an employee begins using any FMLA leave.

A "serious health condition" is an illness, injury, impairment, or physical or mental condition which involves:

1. Any period of incapacity or treatment in connection with or consequent to inpatient care in a hospital, hospice, or residential medical care facility;
2. Any period of incapacity requiring absence from work, school, or other regular daily activities of more than three (3) calendar days, that also involves continuing treatment by a health care provider; or
3. Continuing treatment by, or under the supervision of, a health care provider for a chronic or long-term health condition that is incurable or so serious that, if not treated, would likely result in a period of incapacity for more than three (3) calendar days, or for prenatal care.

A leave taken by an employee for the birth or placement of a son or daughter must be taken in one continuous segment, up to twelve (12) weeks, and must be taken within twelve (12) months of the birth or placement of the son or daughter. An employee is

required to give thirty (30) days written notice of his/her intent to take leave, unless such leave is unforeseeable. In such a case, the employee must give notice as soon as practicable.

Leave taken to attend to the serious health condition of the employee or the employee's family member may be taken in one continuous segment, up to twelve (12) weeks, or may be taken on an intermittent or reduced leave, if medically necessary. The employee must make a reasonable effort to schedule his/her leave so as not to unduly interrupt School operations and must give thirty (30) days written notice of his/her intent to take leave, if practicable.

Intermittent or reduced leave will be allowed only for serious health conditions when medically necessary and properly validated or certified. An employee is not entitled to take an intermittent leave or a leave on a reduced schedule for the birth or placement of a child.

If an employee chooses to take intermittent or reduced leave, the School may require the employee to transfer temporarily to another position in the School for which he/she is qualified, and which would provide equivalent pay and benefits and a better accommodation for the employee's recurring periods of leave.

The employee will remain covered by the School-sponsored health care benefits while on leave. However, he/she is required to continue payment of any required contribution for insured benefits. If the employee does not return to work after the leave period, the School will require the employee to repay the health care premiums paid by the School during the leave period, unless the employee does not return due to a serious health condition as defined in this policy or due to other circumstances beyond the employee's control.

An employee on leave does not lose any benefit which has accrued prior to the first day of leave and the leave period will be treated as continued service for purposes of determining vesting and eligibility to participate in pension, 401(k), and other School retirement plans. However, an employee does not accrue any other benefits during the leave period, nor does the leave period entitle the employee to any greater rights than he/she would have had if he/she had remained in the workplace.

If an employee takes any leave under this policy, accrued paid time will be applied to the leave period until such paid time off is exhausted. The remainder of the leave will be unpaid. FMLA leave will run concurrently with other types of leave, such as child care leave, under these policies.

An employee returning from leave will be reinstated to the same position or an equivalent position, with equivalent pay, benefits, and other terms of employment, unless the employee would not otherwise have been so employed at the time reinstatement is requested.

Any employee returning from a medical leave, whether under this policy or not, may be required to present certification of the employee's fitness to return to work and identifying any restrictions relating to the leave of absence.

Certain higher level employees may be denied reinstatement and the Human Resources Coordinator should be consulted if the employee is believed to be within the highest paid 10% of workers employed within 75 miles of the employee's workplace.

An employee who requests leave to care for his/her own serious health condition or the serious health condition of a family member must provide a certification by his/her care provider which justifies the leave.

This certification must be provided by the employee within fifteen (15) days of the request for leave, unless it is not practicable to do so. Failure to provide the required certification on time may affect the employee's ability to take leave as requested.

The School also may require an employee on leave to check in periodically with management to inform them of his/her status and intent to return to work. A check-in schedule should be arranged between the employee and the Human Resources Administrator before leave is taken.

The School may also require a second opinion as to a serious health condition at its own expense. This opinion shall not be given by a medical professional regularly used by the School.

In the event of a conflict between the two opinions, the School may, at its own expense, require a third opinion from a medical professional jointly designated by the School and the employee whose decision shall be binding on the School and the employee.

Finally, an employee returning from leave taken for his/her own serious health condition must provide certification from his/her care provider that he/she is able to resume work.

29 U.S.C. § 2601.

Jury Duty Leave

Full time employees who are selected for jury duty will be excused for the duration of the leave and receive their normal pay for each day they serve, **for** up to two weeks. The employee may also keep their jury duty pay.

R.C. 2313.18; R.C. 3313.211.

Military Leave

The School observes all applicable laws concerning military leave and re-employment rights following military training and service. This includes a two week leave for an employee who is the spouse, parent, of a service member who is injured or deployed.

SECTION 390

MISCELLANEOUS POLICIES

391.1 Health Insurance and Annuities

The Board provides health insurance for all full time employees. Hourly employees are not generally provided paid health insurance. The amount contributed by the Board is determined annually prior to the start of a new School year. The Board also contracts for dental and legal insurance, which is paid totally by the employee, provided, however, an employee may use their FSA money (see policy no. 391.2 below) for these costs. From time to time the Board may have several contracts with companies who provide tax-sheltered annuities to employees who wish to contribute. These are paid entirely by the employee. Employee contributions shall be made through payroll deductions. If an employee is given a leave of absence for a period of time the Board will not pay the employee's health insurance except as required for eligible parties under the FMLA (see policy no. 384 above). The employee may elect to pay the premiums for such time as they are on an approved leave. An employee who resigns prior to the end of their contract year will have Board paid health insurance only through the end of the month in which their resignation is effective. If a teacher or teacher aide resigns at the end of their contract year the Board will continue to pay their health insurance premium through the month of August. Other staff members who resign at the end of their contract will have their health insurance paid through the end of the month immediately following the end of the contract.

R.C. 9.90; R.C. 3313.202.

391.2

Workers' Compensation Insurance

As required by law, all employees are covered by Workers' Compensation Insurance, which may provide benefits for injuries or illness that occur as a result of employment at the School. Any injury, regardless of its apparent seriousness must be reported immediately to your supervisor. Failure to immediately report an on the job injury will result in discipline up to and including discharge.

R.C. 4123.01; R.C. 4123.83.

391.3 **STRS/SERS**

By law, many Staff may be covered by the State Teachers Retirement System or the State Public Employee Retirement System. Some contractors may not be eligible for such benefits. Determinations will be made based on law, facts and circumstances, in conjunction with applicable professional advisors and governmental agencies.

R.C. 145.03.

391.4

Unemployment Compensation

By law, most workers are insured for unemployment compensation, which provides income payment in certain conditions for a period of weeks if you lose your job under certain conditions.

R.C. 4141.01.

Staff Dress and Grooming/Staff School Uniform

School employees are expected to set an example for students to follow regarding dress and grooming. Employees shall dress and conduct themselves in a manner which reflects the discipline, respect and dignity associated with the image of the School.

Student Activities

The formation of all student activities (clubs, teams, groups etc) must first be approved by the Head of School or his/her designee. The Head of School or his/her designee will give consideration to all factors in determining the potential value to students before final approval is given. Copies of all the necessary forms, rules and regulations pertaining to the establishment of a student activity are available from the Head of School or his/her designee.

Fund Raising Activities and Projects

All fund raising activities conducted at or on behalf of the School must be approved in advance of the proposed activity by the Head of School or his/her designee. Copies of the forms and rules and regulations are available from the Treasurer. There is a potential personal liability associated with maintaining proper and accurate records, safeguarding and depositing funds and assuming responsibility for conducting and overseeing a fund raising project. Staff members are advised to carefully follow all rules, regulations and policies governing fund raising activities.

395.1 Purchase of Supplies and Materials, Equipment

Staff members may request the purchase of supplies and materials provided the Head of School or his/her designee approves the purchase and there are adequate funds in the budget to cover the cost. All staff members must follow the following rules, regulations and procedures when making a purchase.

1. Verbal approval by itself is never acceptable to make a purchase or place an order. A requisition must first be completed and then signed by the appropriate supervisor and the Head of School or his/her designee and then sent to the Treasurer. The Treasurer will determine if there are adequate funds available in the budget for the transaction and will then issue a written purchase order and send it to the vendor.
2. Upon receipt of the supplies and materials the staff member who made the request will be responsible to verify that all items ordered have been received and are acceptable for use. If there are any problems with the items received contact the Head of School or his/her designee for advice on how to resolve any concerns.
3. When an invoice for payment is received the Treasurer will make a copy of the invoice and send it to the staff member who placed the order. The staff member will date, sign and write on the copy "OK to pay" and return it to the Head of School or his/her designee. The Head of School or his/her designee has the authority to approve up to \$2,500 for any one purchase, subject to any budget constraints, before having to receive Board approval of a purchase.

See also Policy No. 148.1 Purchasing and Policy No. 148.4 Property Obtained with Federal Title I Grants Policy.

395.2

Leases and Contracts

All leases and contracts must be initiated by a School administrator and approved by the Board. No staff member, School administrator, consultant, parent or any other person has the authority to sign a lease or contract without Board approval.

Staff Gifts

Students and their parents are discouraged from the routine presentation of gifts to School employees on occasions such as religious holidays. Where a student feels a spontaneous desire to present a gift to a staff member, the gift should not be elaborate or unduly expensive. The Board considers as always welcome, and in most circumstances more appropriate, the writing of letters to staff members, expressing gratitude or appreciation.

Care of Materials, Equipment and School Property

When materials and equipment are issued for use in the classroom, the staff member is responsible to assure the items are not misused or mistreated. If an item is damaged, the staff member shall be responsible for reporting the condition to the Head of School or his/her designee. If an item is stolen the staff member shall notify the Head of School or his/her designee that the item is missing and the Head of School or his/her designee shall, with information supplied by the staff member, make a formal police report. When the report has been made it shall be turned over to the Head of School or his/her designee for appropriate action regarding inventory adjustments as well as determining if an insurance claim should be filed.

Staff members shall report School cleanliness needs and School maintenance needs in writing on the appropriate form and submit the form to the Head of School or his/her designee with a copy being sent to the Head of School or his/her designee. The Head of School or his/her designee shall forward the form to either the custodian or maintenance staff for appropriate action.

397.1

Use of Electronic Equipment

To ensure that the School's electronic equipment is used only for lawful and appropriate purposes and to further its business interests, the School has adopted the following Policy which applies to all employees. Each employee and student having access to the electronic equipment of the School is required to abide by this Policy. The School will strictly enforce this Policy.

Acceptable Uses of the School's Equipment

Software and business equipment, including telephones, facsimile machines, computers, the School's electronic mail system, the School's Internet access, and copy machines (collectively, the "Equipment") are intended to be used for business purposes only. The Equipment is the exclusive property of the School, and its sole purpose is to facilitate the business of the School. Each student and employee has the responsibility to maintain and enhance the public image of the School and to use the Equipment in a productive and appropriate manner.

Unacceptable Uses of the School's Equipment

The School's Equipment may not be used for transmitting, receiving, or storage of any communications of a defamatory, discriminatory, or harassing nature, or materials that are sexually explicit, pornographic, or obscene. Harassment of any kind is prohibited. No messages with derogatory or inflammatory remarks about an individual's race, sex, age, disability, religion, national origin, or physical attributes shall be transmitted through the School's Equipment. The School will not tolerate actions that may create a hostile environment. Equipment may not be used for any purpose which is illegal or against the School's policies or contrary to the School's best interest. Sensitive or confidential information respecting the School or its students or vendors should not be transmitted via the Internet or over facsimile machines without the consent of the School. Solicitation of non-School business, or any use of the School's Equipment for personal gain, is prohibited.

See also Policy No. 232 Technology and Internet Acceptable Use (to be signed by Staff as well as Students).

Communications

Students and employees are responsible for the content of all information that they transmit over the School's equipment. All electronic communications must correctly identify the student or employee responsible for the communication. Any information sent to an individual outside of the School via the School's Equipment are statements that reflect on the School. All communications sent by students and employees via the School's Equipment must comply with this and other School policies.

Software and Copyright Issues

To prevent computer viruses from being transmitted through the School's Equipment, there will be no downloading or copying of any software onto the School's Equipment without prior approval of the School. No files of any kind will be downloaded from the Internet without prior approval of the School. License agreements relating to any software, whether individually owned or owned by the School, will be strictly complied with. Any student or employee desiring to reproduce or store information of any sort downloaded from the Internet should contact the Head of School or his/her designee to determine whether the intended use is permissible. Copyright laws are very complex and can apply even to information that appears to be freely available for any use. No copyrighted material will be copied illegally on the School's Equipment or transmitted through the School's Equipment.

The Board encourages teachers and staff assigned to the School to make judicious use of appropriate printed materials, sound recordings, and electronic programs in the curriculum but recognizes that Federal law, applicable to public school districts, protects authors and composers from the unauthorized use of their copyrighted work.

The copyright law of the United States (Title 17, USC) governs the making of photocopies or other reproductions of copyrighted materials. According to the copyright law, it is illegal to copy or reproduce on disk or paper, by use of school equipment or any other means, materials for which the person reproducing or the School does not own the copyright, unless the written permission of the copyright owner has been obtained, or unless the activity is within some of the limited exceptions to the copyright laws. Copyright infringement carries with it serious civil and criminal penalties under law.

Title 17, Section 107, regarding the Fair Use of copyrighted work, reads in pertinent part:

. . . [T]he fair use of a copyrighted work, including such use by reproduction in copies or photo-records or by any other means specified by that section, for purposes such as criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship, or research, is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use the factors to be considered shall include B

- (1) the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- (2) the nature of the copyrighted work;
- (3) the amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
- (4) the effect of the use upon the potential market for or value of the copyrighted work.

Security

No student or employee may use a pass code or voice-mail access code that has not been issued to that individual by the School. The School has the technical means, and the legal right, to monitor all office electronic mail and Internet communications sent to or from the School's Equipment. The School will exercise this right as deemed necessary by the School. There are several legitimate business reasons for the School monitoring the use of its Equipment including: (1) ensuring that the sole use of the Equipment is to further its business purposes; (2) preventing inappropriate and unprofessional comments, or even illegal activity, via its Equipment; (3) preventing and controlling the spread of viruses in its Equipment; (4) the need for supervision, control, and the efficient operation of the workplace; and (5) controlling costs.

In some respects, communication via the Internet is not completely private. For instance, certain information with regard to sender's name, receiver's name, and subject matter is tracked and recorded automatically at various stages of the transmission process. In addition to these automatic tracking features of Internet communications, the School has the added capability, as well as the right, to monitor and record all information with regard to Internet communications into and out of the School, as well as all internal e-mail communications. Despite certain equipment features that may give the appearance of creating privacy, such as passwords and the ability to delete and purge messages, students and employees have no expectation of privacy with regard to any communications or data transfer utilizing the School's Equipment. **By using the School's Equipment, students and employees consent to the monitoring of their activities on the School's Equipment and forfeit any expectation of privacy.**

398.3

Violations

Any student or employee who abuses the privilege of using the School's Equipment will be subject to appropriate disciplinary action. The School also reserves its right to advise appropriate authorities of any illegal use of the School's Equipment.

SECTION 4:
HEALTH AND SAFETY POLICIES

SECTION 400

GENERAL HEALTH AND WELFARE

Health Services

Prior to November 1 of the school year in which a child is enrolled for the first time in either kindergarten or first grade, the child shall be screened for disorders in hearing, vision, speech and communication, for general health or medical problems, and for developmental disorders. This screening, or any of its elements, may be provided directly by the School or by contract with another person or governmental entity. The School may also establish a list of approved providers of screening services and request the parents to utilize one of these providers.

Prior to August 1, the parents or guardians of any child entering school for the first time must be provided with information about the screening program. If the School has determined that screening is to be obtained by the parents or guardians, it must prepare a list of providers together with information about screening services available in the community to those who cannot afford them. A parent or guardian may reject the requested screenings by signing a written statement to the effect that he/ she does not wish to have his/ her child screened.

If the results of any health screening reveal the possibility of special learning needs, the School is required to conduct further assessment in accordance with Ohio's handicapped education laws.

R.C. §§ 3313.673; 3314.03.

Use of Medications Policy

The School shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication and/or medically prescribed treatments to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, or the student would not be able to attend school if the medication or treatment were not made available during school hours, only if a physician's request is completed.

For purposes of this policy, "medication" shall include all medicines including those prescribed by a physician and any nonprescribed (over-the-counter) drugs, preparations, and/or remedies. "Treatment" refers both to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization.

The total responsibility for dispensing or administering any medication or treatment shall rest solely with the parent(s) and their child. Before any medication or treatment may be administered to any student during school hours, the School shall require the written prescription from the child's physician with detailed instructions, written promises of the physician and the parent to forward any changes in the prescription or instructions to the school immediately upon change and to ensure delivery to the appropriate staff. This must be accompanied by the written authorization and waiver of the parent. This document shall be kept on file in the office of the Head of School or his/her designee.

Only medication in its original prescription bottle labeled with the date of prescription, student's name, and exact dosage will be administered and only in the presence of another adult. Parents, or students authorized in writing by physician and parents, may administer medication or treatment but only in the presence of an adult staff member assigned for that purpose.

The School shall allow an unlicensed staff member to assist a student with self-administration of medications by doing only the following (1) remind the student when it is time to take a medication and observe to ensure that the student follows the directions on the container; (2) assist the student in the self-administration of medication by taking the medication in its container from the area where it is stored and handing the container with the medication in it to the student; (3) assist upon request by or with the consent of, a physically impaired but mentally alert student, in removing oral or topical medication from the container and in taking or applying the medication. If a staff member is physically unable to place a dose of medicine in a student's mouth without spilling or dropping it, an unlicensed staff member may place the dose in another container and place that container to the mouth of the student.

The School may permit, if no other choice is available, or in an emergency, the administration by staff of any medication requiring intravenous or intramuscular injection or the insertion of a device into the body when both the medication and the procedure are prescribed by a physician and the staff member has completed any necessary training. Training should be provided by the prescribing physician's office. The administration of such medication must take place in the school office, unless under emergency circumstances.

Students who may require administration of an emergency medication may have such medication, identified as stated above, stored in the Head of School's office and

administered in accord with this policy. The Head of School or his/her designee may prepare and distribute administrative guidelines to ensure the proper implementation of this policy.

Use of Inhaler/Epinephrine Autoinjector

A student may possess and use a metered dose inhaler or a dry powder inhaler to alleviate asthmatic symptoms, or before exercise to prevent the onset of asthmatic symptoms, and/or an epinephrine autoinjector to treat anaphylaxis at School, any School-related activity, event, or program sponsored by the School or in which the School participates, if both of the following conditions are satisfied:

1. The student has the written approval of the student's physician and, if the student is a minor, the written approval of the parent, guardian, or other person having care or charge of the student. The physician's written approval shall include at least all of the following information:
 1. the student's name and address;
 2. the names and dose of the medication contained in the inhaler;
 3. the date the administration of the medication is to begin;
 4. the date, if known, that the administration of the medication is to cease;
 5. circumstances in which the inhaler and/or autoinjector should be used;
 6. acknowledgement that the prescriber has determined the student is capable of possession and using the inhaler and/or autoinjector appropriately and has provided the student with training in the proper use;
 7. written instructions that outline procedures School personnel should follow in the event that the asthma medication does not produce the expected relief from the student's asthma attack; and/or in the case of an epinephrine autoinjector, the Student is unable to administer the medication or the medication does not produce the expected relief from the student's anaphylaxis;
 8. any severe adverse reactions that may occur to the student using the inhaler and that should be reported to the physician;
 9. any severe adverse reactions that may occur to another student, for whom the inhaler is not prescribed, should such a student receive a dose of the medication;
 10. at least one (1) emergency telephone number for contacting the physician in an emergency;
 11. at least one (1) emergency telephone number for contacting the parent, guardian, or other person having care or charge of the student in an emergency;
 12. any other special instructions from the physician.

2. The Principal, or his/her designee has received copies of the written approvals required by Subparagraph 1 of this section.

If these conditions are satisfied, the student may possess and use the inhaler at School or at any activity, event, or program sponsored by or in which the student's School is a participant.

The School, a member of the Board or the Board's representatives, or any Staff or employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a Staff Member's prohibiting a student from using an inhaler because of a Staff Member's good faith belief that the conditions of Subparagraphs 1 and 2 of this Section had not been satisfied. The School, a member of the Board, the Board's representatives, or any Staff or employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a Staff Member's permitting a student to use an inhaler because of a Staff Member's good faith belief that the conditions of Subparagraphs 1 and 2 of this Section had been satisfied. Furthermore, when the School is required by this Section to permit a student to possess and use an inhaler because the conditions of Subparagraphs 1 and 2 of this Section have been satisfied, the School, any member of the Board, or the Board's representatives, or any Staff or employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from the use of the inhaler by a student for whom it was not prescribed.

This Section does not eliminate, limit, or reduce any other immunity or defense that a School, member of a Governing Authority, or Staff or employee may be entitled to under Chapter 2744. or any other provision of the Revised Code or under the common law of this state.

School Asthma Policy

The school recognizes that a clear, concise policy on asthma management in school can have an impact on academic achievement. All schools must have protocols and procedures for children with asthma and evaluate the implementation of these plans on a regular basis. This document outlines the comprehensive and collaborative nature of managing a child's asthma within our school setting.

Background on Asthma

Because asthma is one of the most common chronic childhood illnesses and a major cause of student absences, it is important for schools to adopt a comprehensive, coordinated approach to addressing asthma.

A comprehensive plan includes: management and support systems, appropriate health and mental health services, educational programs for staff and students, appropriate and reasonable environmental remediation and communication systems with home and child clinicians.

These components need to be integrated with community efforts that include the medical and mental health fields, housing and community air quality improvements, and active engagement of families.

This document links with other policies such as Medication Policy and Management of Life Threatening Allergic Reaction policies. It is based on the *National Asthma Education and Prevention Resolution on Asthma Management in the School*, a document that outlines basic guidelines for an asthma policy and which is supported by major national health associations.

Protocol for Implementation

Role of the Parent

- Fill out appropriate asthma information on health form prior to commencement of school year.
- Complete emergency forms indicating that child has asthma and include emergency numbers.
- Meet or talk with the school leaders to discuss the child's asthma
- Review with your child's primary care provider and sign all asthma forms presented by the school nurse. These may include a combination of the following:
 - o Permission for school to communicate with the family, other teachers and the primary care provider.
 - o Authorization to dispense medication
 - o Consent for child's self administration of asthma medicine (when developmentally appropriate)

- The Parent/guardian Asthma Questionnaire
- The Asthma Action Plan

- Provide the school with a pharmacy labeled supply of medications, including nebulizer medications, mask and tubing. Most health rooms have nebulizers but are not equipped with extra masks and tubing.
- Participate in the Asthma Action Plan for their child with the child's health practitioner and deliver the completed asthma action plan to the school nurse.
- Provide a pager, cell phone or other emergency number/s.
- Assure the pre-school and after-school staff have the appropriate information and training.

Role of the School Administrator

- Support faculty, staff and parents in implementing all aspects of the asthma management program including self-management.
- Support the development of a school-wide policy, with input from School Facilities Staff, for management of the school environment which includes, but is not limited to:
 - Review of and action on annual school inspections
 - Use of green cleaners
 - Enforcement of tobacco policy
- Ensure there is a contingency plan in the case of a substitute teacher, or food service personnel who is not familiar with the child
- Ensure that the child is placed in a classroom where the teacher is informed about asthma prevention, management and emergency response.
- Support program development, especially in schools with higher than state average of asthma or with large numbers of absenteeism related to asthma.
- Review environmental inspections and ensure that all work orders occur in a timely fashion.
- Support the student support team, the school nurse and classroom teacher in identifying children with increased absenteeism in relation to asthma.

Role of the Student (where developmentally appropriate)

- Student signs off on self-administration plan guidelines
- Student completes the "Student Breathing/Asthma Questionnaire"

Role of the School:

- Ensure that all appropriate asthma-related forms are distributed to the parent and/or the primary care provider.
- Make a reasonable attempt (a minimum of two phone calls) to collect all outstanding forms.
- Complete with the student (where developmentally appropriate) the Student Breathing/Asthma questionnaire.

- Develop a plan for child management in classroom, lunchroom, etc.

- Ensure that all other staff members (including coaches) who have contact with children with asthma are familiar with their Individual Health Care Plans on a need-to-know basis. Teachers should be contacted individually rather than lists posted.
- Provide a list of students with life-threatening allergies as a component to their asthma (if consent given by parent) to all staff on a need-to-know basis (including bus drivers).
- Conduct in-service training and education for appropriate staff regarding asthma symptoms, risk reduction procedures, and emergency procedures. This information should be reviewed annually, preferably in the beginning of the school year.
- Ensure that there is a contingency plan in place in all school-related venues where substitutes are utilized.
- Communicate with parents on a regular basis to discuss issues relating to plan.
- Maintain child's medications as per the medication policy.

Role of the Teacher

- Maintain access to information for all students in classroom with asthma.
- Participate in asthma awareness professional development.
- Inform volunteers, student teachers, aides, specialists and substitute teachers about the child's asthma needs.
- Provide school leaders with adequate warning about school-sponsored off-site activities.
- Notify leaders of any concerns.

Role of Off-site Staff

- Maintain awareness of all students with severe persistent asthma.
- Coaches will be told of any students on their teams who have asthma and will be trained in asthma awareness and maximizing athletic performance.
- Allow responsible student to self medicate during practices and sports events.
- Inform substitutes about the child's food/other allergies and necessary safeguards by both verbal communication and in an organized, prominent and accessible written format.

Health Examinations and Immunizations

Students enrolled in the School are required to have, at the time of initial entry into School and at the beginning of each School year thereafter, written evidence on file that they have been immunized against diphtheria, tetanus, pertussis, poliomyelitis, measles, mumps, chicken pox and rubella, as required by Ohio law and applicable Ohio Department of Health regulations and guidelines (collectively laws, rules, regulations or guidelines). Adequate written evidence of such required immunizations shall consist of: (1) a signed physician's statement indicating that the student has received the required

immunizations, including the immunizations received and the date of receipt; or (2) a signed statement by the parent indicating that the student has received the required immunizations, including the immunizations received and the date of receipt. In the case of a parent's statement, the Head of School, in his/her sole discretion, may require any other evidence as s/he believes is needed to determine compliance with this policy including, but not limited to, a physician's statement.

No student may remain in School for more than fourteen (14) days after initial admission or, for a student not being initially admitted, more than fourteen (14) days after the beginning of the school year unless: (1) the student has received the required immunizations or the student is "in the process" of receiving the required immunizations, as defined in Ohio law and this policy and (2) the student's parent has submitted adequate written evidence of the required immunizations as set forth in this policy. Students who do not comply with this policy and any other immunization requirements of laws, rules, regulations or guidelines, shall be excluded from School no later than the fifteenth day after admission or, for students not being initially admitted, no later than the fifteenth day after the beginning of the school year.

Any student who is admitted or commences a school year who is "in the process" of receiving the required immunizations, pursuant to Ohio law, and who does not complete the required immunizations, shall be excluded from School no later than the fifteenth day of the following school year.

Any student who is excluded for failure to comply with this policy shall be readmitted upon submission, to the Head of School, of adequate written evidence, as set forth herein above, of compliance with this policy and the immunization requirements of laws, rules, regulations or guidelines.

Students may be exempted from required immunizations, subject to any requirements of laws, rules, regulations or guidelines under the following circumstances:

1. A parent may present a written statement to the Head of School of objection to immunization for good cause, including religious convictions.
2. A parent may present a written statement signed by a physician certifying that certain or all required immunizations are medically contraindicated.
3. A parent may present a written statement from the parent or physician that the student has a history of measles (rubeola), mumps, and/or chicken pox and need not be immunized against the disease(s) for which the history so exists.
4. Pursuant to Ohio Department of Health regulations and guidelines, a parent may present laboratory testing results signed by a physician demonstrating that detectable rubella antibody is present in the student and the student need not be immunized against German measles (rubella).
5. Any other circumstances required by laws, rules, regulations or guidelines.

The School may deny admission to a pupil otherwise exempted from the chicken pox immunization requirement, if the Director of the State Department of Health notifies the School's Head of School that a chicken pox epidemic exists in the School's population. The denial of admission shall cease when the Director notifies the Head of School that

the epidemic no longer exists. It is the policy of the School that the academic standing of a student who is denied admission during a chicken pox epidemic may be preserved. The prescribed methods for determining whether the academic standing of a student who is denied admission during a chicken pox epidemic will be preserved is in accordance with the admission, testing and other policies of the School and subject to Head of School and Board approval.

In any case of requested exemption from required immunizations, the Head of School may require any other evidence s/he believes is needed to consider a request for exemption. It is in the sole discretion of the Head of School to determine whether to grant an exemption to required immunizations.

The Board and School shall follow the requirements and recommendations of Ohio law and the Ohio Department of Health with regard to tuberculosis testing of students.

Emergency Medical Procedures**Serious Illness Requiring Medical Attention**

If a staff member or student is seriously ill or injured, and needs medical attention, that employee or student, or any employee or student who believes another person is seriously ill or injured, and needs medical attention, shall notify the Head of School or his/her designee or a staff member immediately.

If a staff member is unsure about the severity of a person's condition or unable to evaluate the situation, he/she shall call the Head of School's Office or his/her designee and:

1. Provide the name of person who is ill or injured.
2. Indicate where the injured or ill person is located.
3. Describe the main symptoms observed.
4. Request medical assistance.
5. Indicate whether it will be necessary to call the Rescue Squad.
6. Stay with the person and do not attempt to move him or her.
7. Be sure there is a person posted to route the Rescue Squad to the ill employee or student.
8. Be sure the area is clear of unnecessary traffic and on-lookers.
9. Call 911.

Emergency Medical Authorization

The School will annually distribute to parents or guardians of all students the "Health & Fitness Parental Consent Form" and the "Emergency Medical Authorization Form." In the event emergency medical treatment for a student is necessary, the School will adhere to the instructions on the authorization form.

Emergency Medical Authorizations will be kept in a separate, easily accessible file in the care of the Head of School or his/her designee during the school year. At the end of the school year, the authorizations will be stored until being replaced the following school year.

Any time a student or a group of students are taken away from the School's facilities as participants in a school event, the staff in charge of the event must take the Emergency Medical Authorizations for those students. This includes, and is not limited to, music trips, athletic trips, field trips, and academic contest participants. This does not include student spectators at events.

Whenever it is necessary for staff members to use emergency procedures in order to care properly for a student, they are to take standard safety precautions, follow the procedures described in the Emergency Medical Procedures policy (policy no. 405), and are not to abide by any "Do Not Resuscitate" (DNR) agreement that may exist for a student, unless ordered to do so by a court of law.

See **Appendix EE-1** Health & Fitness Parental Consent Form and **Appendix EE-2** Emergency Medical Authorization Form.

Control of Communicable Diseases

The School recognizes that control of the spread of communicable disease is essential to the well-being of the school community and to the efficient operation of the School.

For purposes of this policy, "communicable diseases" shall include smallpox, chicken pox, diphtheria, scarlet fever and other strep infections, whooping cough, mumps, typhoid fever, measles, rubella, and acquired immune deficiency syndrome, or any other designated by Federal authority.

In order to protect the health and safety of the students, school personnel, and the community at large, the School shall follow all State and Federal laws and Board of Health regulations which pertain to communicable disease.

On the recommendation of a physician or a nurse, a teacher may exclude from the classroom and the Head of School or his/her designee may exclude from the building or isolate in the School, any student who appears to be ill or has been exposed to a communicable disease.

The School shall:

1. instruct teaching staff members in the detection of disease and measures for its prevention and control;
2. remove from School property to the care of a responsible adult any student identified and excluded in accordance with this policy;
3. prepare standards for the readmission of a student who has recovered from communicable disease; and
4. file reports as required by law and the State Department of Health.

Prevention and Control of Non-Casual-Contact Communicable Diseases

The School seeks to provide a safe educational environment for both students and staff. It is the School's intent to ensure that any student or member of the staff who contracts a communicable disease that is not communicated through casual contact will have his/her status in the School examined by a panel of the Board and the Head of School or his/her designee, and that the rights of both the affected individual and those of other staff members and students will be acknowledged and respected.

For purposes of this policy, "non-casual-contact communicable disease" shall include.

1. AIDS - Acquired Immune Deficiency Syndrome;
2. ARC - AIDS Related Complex;
3. persons infected with HIV (human immunodeficiency) ;
4. Hepatitis B, C; and
5. other like diseases that may be specified by the State Board of Health.

In its effort to assist in the prevention and spread of communicable diseases of any kind, the School has established policies on Immunization. Hygienic Management, and Control of Casual-Contact Communicable Diseases. The purpose of this policy is to protect the health and safety of the students, School personnel, and the community at large from the spread of the above-mentioned diseases.

The School seeks to keep students and staff members in School unless there is definitive evidence to warrant exclusion. When the Head of School or his/her designee learns that a student or School employee may be infected with a non-casual-contact communicable disease, the Head of School or his/her designee shall immediately convene a review panel consisting of appropriate Board members and the Head of School or his/her designee, the infected person's physician, and the County Health Department to determine if the initial evidence warrants exclusion.

If the evidence is not sufficient to justify exclusion, the person shall remain in his/her current school environment unless there exists a threat to the person's health or safety through exposure to other communicable diseases.

If the review panel and/or County Health Officer determines the evidence indicates the person should be excluded from the School environment, the person shall be excluded in accordance with applicable laws. An appeal process shall be established as necessary to address any concerns regarding exclusion.

The School shall provide an alternative education program for any student excluded from the school setting as a consequence of the panel's decision.

When the Head of School or his/her designee learns that a disabled student may be infected with a non-casual-contact communicable disease, the IEP team or its designated member will serve as the Board's representative on the communicable disease review panel which shall be immediately convened.

The rights of any affected student, as well as those of any affected staff member, shall be protected in accordance with Federal and State laws on privacy, confidentiality, and due process.

The Board directs the Head of School or his/her designee to develop an educational program in accordance with Ohio law that will ensure proper instruction of students, professional staff, and support staff on the principle means by which non-casual-contact communicable diseases are transmitted, as well as how they are not transmitted, and the more effective methods for restricting and/or preventing these diseases.

The Head of School or his/her designee shall include in this program those educational materials which advocate prevention through abstinence.

Control of Blood-Borne Pathogens

The School seeks to protect those staff members who may be exposed to blood-borne pathogens and other potentially-infectious materials in their performance of assigned duties at the School.

The School will:

1. identify those categories of employees whose duties create a reasonable anticipation of exposure to blood and other infectious materials;
2. provide for inoculation of the Hepatitis B vaccine at no cost to the staff member and in accordance with Federally-mandated scheduling;
3. ensure proper training in the universal precautions against exposure and/or contamination including the provision of appropriate protective supplies and equipment;
4. establish appropriate procedures for the reporting, evaluation, and follow-up to any and all incidents of exposure;
5. provide for record-keeping of all of the above which complies with both Federal and State laws; and
6. develop an exposure control plan. (See Policy No. 446)

See **Appendix FF** Hand Washing Procedures.

When a suspected case of head lice is brought to the Head of School or his/her designee's attention, the student will be examined to determine whether the child is indeed infected. When the examination positively notes the presence of head lice and/or nits (lice eggs) in the scalp and hair, the following procedures will be observed.

1. Parents will be informed of the infestation and of immediate exclusion from classes. The parents will be advised to immediately remove their child from school for proper pediculicide treatment.
2. A copy of the first letter and the informational sheet will be shared with the parent upon arrival to pick up their child(ren). They should be encouraged consult with their medical advisor regarding proper treatment(s) of the problem.
3. Inform the parent that the child(ren) may return to school only after the treatment has been completed and all evidences of head lice and/or live or dead nits have been eliminated.
4. When the child has been treated and is ready to return to school, the Head of School or his/her designee or school nurse shall again examine the child to see that the child is free of lice or nits. If the child is nit free, he/she may attend classes. If the child is not nit free, the child will be sent back home with the parents.
5. A second letter will be given to the parents if their child(ren) are not nit free. They will be advised that another treatment and combing must be performed. When the child is free of nits, he/she may again be admitted to class.
6. Parents shall be advised to:
 - examine the head and scalp behind each ear and at the nape of the neck daily for the next ten (10) days;
 - administer a second shampooing after six (6) days to eliminate nits which may have incubated since the first shampooing; and
 - follow the prescribed shampooing directions precisely.
7. If brothers or sisters attend School, the Head of School or his/her designee or school nurse shall also check their scalps and hair to look for possible infestation.
8. When positive infestation is found in a classroom, the rest of the class will be examined by the Head of School or his/her designee or school nurse to note possible presence of lice or nits.
9. When three or more of any classroom have been observed to be infested, the Head of School or his/her designee shall send the informative materials home with each class member.

See Appendix GG Head Lice Infestation Form.

Infectious Disease Policy

Viral infections may be present in human blood or other bodily fluids. Therefore, the following routine procedures should be used when providing care that will expose the care giver to human blood, bodily fluids and excrement. These procedures are necessary to safeguard against caretaker infection and the spread of infection within the classroom environment.

1. The caretaker should observe good hand washing after any exposure to blood, bodily fluids and/or before caring for another child.
2. Disposable gloves must be worn to protect against possible open lesions on the caretaker's hands.
3. Any open lesion on the child's body must be covered.
4. Any pregnant caretaker should wear a surgical mask when providing care involving exposure to a child's excrement.
5. Surfaces soiled with blood, urine, feces, vomits, etc., must be thoroughly washed with soap and water and then be disinfected with the disinfectant agent provided (MATAR or its equivalent). Use per manufacturer's recommendation.
6. Personnel cleaning the spill must wear disposable gloves and wash hands thoroughly after removal of contaminated gloves.
7. Mops and towels must be thoroughly rinsed in the disinfecting agent and properly stored if they are to be reused. If further use will not occur, they must be properly double bagged and disposed with other waste materials.

412

AIDS Policy

The School will not discriminate with respect to compensation, terms, conditions, benefits, or privileges of employment against applicants and employees because they have Acquired Immune Deficiency Syndrome (AIDS), Human Immunodeficiency Virus (HIV) or related conditions, as long as the applicant or employee is able to meet work performance standards and perform essential job functions (with or without reasonable accommodation).

The School will take steps needed to maintain confidentiality and to address student and employee safety issues, and will comply with all applicable laws regarding persons with AIDS, HIV or related conditions.

412

Protective Eyewear

Masks and Eye Protection

The School will ensure that all staff and students wear appropriate eye and face mask protection which complies with federal and state standards when working in areas that expose them to hazards such as flying particles, molten metal, liquid chemicals, acids or caustic liquids or chemical vapors. Masks, in combination with eye protection devices such as goggles or glasses with solid side shields, shall be worn by staff and students whenever splashes, sprays, or droplets of potentially harmful or infectious materials are present, and eye, nose, or mouth contamination may be anticipated.

413

Food Allergy Policy

The Board of Directors recognizes that food allergies in some instances may be severe and even life threatening. As mandated by Section 3313.719 of the Ohio Revised Code, this policy is intended to create a framework for accommodating students with food allergies and to reduce the likelihood of allergic reactions of students with known food allergies while at school.

Parent/guardians and student responsibilities

1. Parents and guardians of students with allergies, or students with allergies age eighteen or older, shall:
 - a. Notify the school principal when they become aware that their student has a food allergy and at the beginning of each school year thereafter. The notice shall include a healthcare provider-documented allergy and a diet modification order as necessary;
 - b. Provide the district with prescribed emergency medications;
 - c. Execute medication authorization form, and/or permission to carry and self-administer epinephrine auto-injector (epi-pen) form, as well as the following documentation, as appropriate:

- i. Food allergy action plan;
- ii. Anaphylaxis emergency action plan;
- II. Diet order

Parent and guardians will be responsible for educating their students about allergy management at school. Allergy management and education includes, without limitation, identification of “safe foods” by reviewing together breakfast and lunch menus and discussion of the vigilance required to self-monitor food products available at other school functions and in school vending machines.

School responsibilities

1. The School will cooperate in the development of a food allergy action plan for students with food allergies. The food allergy action plan will address the actions to be taken to reduce exposure at school, and what actions will be taken in the event of exposure. The plan shall be developed through consultation with the school nurse, parents/guardians of the student and the student’s health care provider. The plan will be effective for the school year in which it is developed and shall be reviewed and, if necessary, revised at the beginning of each following school year.
2. With parental consent, the district will share the food allergy action plan with appropriate school staff.
3. Food will not be provided during the school day by means other than the school breakfast, snack, lunch or vending programs except with prior consultation with the building principal, school nurse or designee of the building principal.
4. At least one employee who has received instruction in the recognition of food allergy reactions will be present when students are being served food during the regular school day.
5. The school will post procedures concerning the provision of food in staff and parent handbooks.

AIDS Policy

Recognizing the ongoing research on AIDS and such diseases as Hepatitis B, the Board maintains an ongoing commitment to educating staff, while continually reviewing policies to ensure that they reflect the most current research. This policy must be used when dealing with infectious diseases of students which are passed through direct contact of body fluids.

Educational Commitment

The Board recognizes that the most effective way to handle the issue of AIDS and other infectious diseases is through the educational process. The first line of defense is prevention. Therefore, all teachers should include material appropriate to the age and grade of the children with whom they are working, regarding the transmission of AIDS and other diseases such as Hepatitis B.

Recommendations

1. Decisions regarding the type of educational setting for (HTLV-III/LAV) infected children should be based on the behavior, neurologic development and physical condition of the student and the expected type of interaction with others in that setting. These decisions are best made using the team approach including the student's physician, the student's parents and personnel associated with the proposed educational setting. In each case, risks and benefits to both the infected student and to others in the setting should be weighed.
2. For most infected school-aged children, the benefits of an unrestricted setting would outweigh the risks of their acquiring potentially harmful infections in the setting and the apparent nonexistent risk of transmission of HTLV-III/LAV. These students should be allowed to attend school.
3. For some students infected with HTLV-III/LAV who lack control of their body secretions, or who display behavior such as biting, or who have uncoverable, oozing lesions, a more restricted environment may be advisable until more is known about transmission in these settings. Such students should be cared for and educated in settings which minimize exposure of other students to blood or body fluids.
4. The School should follow the routine procedures listed below when providing care involving exposure to a student's body fluids and excrement:
 - a. The caretaker should observe good hand washing after exposure to blood and body fluids and before caring for another student.
 - b. Gloves shall be worn on the caretaker's hands.
 - c. Any open lesions on the student's person should be covered.
 - d. Any pregnant caretaker should wear a surgical mask and gloves when providing care involving exposure to a student's excrement.
 - e. Use any other precautionary measures required or recommended by the County Health Department or other medical authorities.

5. The School should follow the routine procedures listed below in dealing with spills involving blood or other body fluids.
 - a. Surfaces soiled with blood, urine, feces, vomits, etc. should be thoroughly washed with soap and water, then disinfected with a 10% solution of household bleach and water (1 part bleach to 9 parts water). This solution should be freshly prepared for each use.
 - b. Personnel cleaning the spill shall wear gloves and wash hands thoroughly when finished.
 - c. Disposable towels should be used whenever possible.
 - d. Mops should be thoroughly rinsed in the disinfectant solution.
6. Evaluation to assess the need for a restricted environment should be performed regularly based on current medical information.
7. Mandatory screening as a condition for school entry is not warranted based on available data.
8. Persons involved in the care and education of HTLV-III/LAV infected children should respect the student's right to privacy, including maintaining confidential records. The number of personnel who are aware of the student's condition should be kept to the absolute minimum needed to assure proper care of the student and to detect situations where the potential for transmission may occur, (e.g. bleeding injury).

Diabetes Care Policy

Diabetes Care Policy

The board shall ensure that each student enrolled in the district or school who has diabetes receives appropriate and needed diabetes care in accordance with an order signed by the student's treating physician. The diabetes care to be provided must include the following:

- checking and recording blood glucose levels and ketone levels or assisting the student with checking and recording these levels;
- responding to blood glucose levels that are outside of the student's target range;
- in the case of severe hypoglycemia, administering glucagon and other emergency treatments as prescribed;
- administering insulin or assisting the student in self-administering insulin through the insulin delivery system the student uses;
- providing oral diabetes medications;
- understanding recommended schedules and food intake for meals and snacks in order to calculate medication dosages pursuant to the student's physician's order;
- following the physician's instructions regarding meals, snacks, and physical activity; and administering diabetes medication in accordance with the statute.

Upon receipt of an order signed by the treating physician of a student with diabetes, the board must, within 14 days, inform the student's parent, guardian, or other person having care or charge of the student that the student may be entitled to a 504 plan regarding the student's diabetes. The Department of Education is required to develop a "504 plan information sheet" to be used by the school in making its notification.

Diabetes medication may be administered under this section by a school employee who is trained in diabetes care. The administration of medication must comply with the requirements of ORC 3313.713.

Training:

The Board may provide diabetes care training to school employees in accordance with certain standards set forth in the statute ORC 3313.7112. Special emergency response training may also be provided for bus drivers and others having general supervisory responsibilities. To encourage employees to participate in this training, the principal may distribute a written notice to each employee containing all of the following:

- A statement that the school is required to provide diabetes care to a student with diabetes and is seeking employees who are willing to be trained to provide that care;
- A description of the tasks to be performed;
- A statement that participation is voluntary and that the school district will not take action against an employee who does not agree to provide diabetes care;
- A statement that training will be provided by a licensed health care professional to an employee who agrees to provide care;
- A statement that a trained employee is immune from liability under division (J) of this section;
- The name of the individual who should be contacted if an employee is interested in providing diabetes care.

No employee may be subject to a penalty or disciplinary action for refusing to volunteer to be trained in diabetes care. Nor may the board discourage any employee from agreeing to provide diabetes care.

Self-Care:

At the request of the parent or guardian, and as authorized by the treating physician, a student must be permitted to self-manage his or her diabetes during school hours or school-sponsored activities. The student shall be permitted to perform diabetes care tasks in a classroom, in any area of the school or school grounds, and at any school-related activity, and to possess on the student's self at all times all necessary supplies and equipment to perform these tasks. If the student or the parent, guardian, or other person having care or charge of the student so requests, the student shall have access to a private area for performing diabetes care tasks. If the student performs any diabetes

care tasks or uses medical equipment for purposes other than the student's own care, the board may revoke the student's permission for self-care.

No student may be denied assignment to a particular building solely because that building does not have a full-time school nurse or an employee trained in diabetes care. Essentially, diabetes care must “follow the student” to whatever building he may attend. School officials cannot “require or pressure” a parent or guardian to provide diabetes care for a student at school or school-related activity.

Liability:

A school or school district, a member of a board or governing authority, or a district or school employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from providing care or performing duties under this section unless the act or omission constitutes willful or wanton misconduct.

A school employee shall not be subject to disciplinary action under school or district policies for providing care or performing duties under this section.

A school nurse or other licensed health care professional shall be immune from disciplinary action by the board of nursing or any other regulatory board for providing care or performing duties under this section if the care provided or duties performed are consistent with applicable professional standards.

Report to ODE:

- Not later than the last day of December of each year, the board shall report to the department of education both of the following:
- The number of students with diabetes enrolled during the previous school year; and
- The number of errors associated with the administration of diabetes medication to students with diabetes during the previous school year.

SECTION 420

PERSONAL SAFETY

Dangerous Weapons

Any visitor found possessing a weapon or other device designed to inflict serious bodily harm on School premises or on property being used by the School for School purposes may be charged with a felony. This restriction applies to visitors licensed to possess firearms unless serving as an authorized security officer.

The Head of School or his/her designee shall ensure that any visitor possessing a weapon or other device designed to inflict serious bodily harm is reported immediately to the appropriate law enforcement agency.

A weapon may be brought on School property for educational purposes under controlled circumstances when authorized by the Head of School or his/her designee.

See also Policy No. 333 Weapons in the Workplace and **Appendix X** Notice Regarding Weapons in the Workplace.

20 USC 7151; R.C. 2923.122.

Public Conduct on School Property

No person shall assault, strike, threaten, or menace a teacher, instructor, or person in charge of a class of students, or any employee while in the performance of their duties, or disrupt, disturb, or interfere with any activity conducted in or on the School premises, or unlawfully assault, strike, threaten, menace, follow, pursue, or lay hands upon a student or other person in or on the School premises, or on the way to or from School or School-sponsored activity.

School officials have the authority to call a law enforcement officer if any individual violates this policy or other posted regulations, or does not leave School property when requested to do so.

Facility Security

It is in the best interest of the School to protect the School's facility adequately. The areas, buildings and equipment owned or leased by the School may be protected from theft and vandalism in order to maintain the optimum conditions for carrying out the educational programs.

The Head of School or his/her designee shall develop and supervise a program for the security of the School facility and equipment. Such a program may include video surveillance equipment in appropriate public areas in and around the School.

Every effort shall be made to apprehend those who knowingly cause serious physical harm to the School facility and to require such persons to rectify the damage or pay a fee to cover repairs. A reward may be offered for apprehending such persons.

Appropriate authorities may be contacted in the case of serious offenses.

The Head of School or his/her designee shall report to the Board each major case of vandalism at the School and the extent of the damage. Issues of School or facility security may be addressed in a properly called Executive Session of a public Board meeting.

See also Policy No. 429 Bomb Threat Policy and Policy No. 424 Emergency Preparedness and Evacuation.

Emergency Preparedness and Evacuation

The safety of employees and students includes preparedness and planning for possible natural and manmade disasters.

The Board authorizes a system of emergency preparedness which shall insure that the health and safety of students and staff are safeguarded.

All threats to the safety of the School shall be identified by appropriate personnel and responded to promptly in accordance with the plan for emergency preparedness.

All bomb threats shall require the immediate evacuation of the school building or location threatened.

The Head of School or his/her designee shall develop procedures for the handling of school emergencies which include:

1. a plan for the prompt and safe evacuation of any School building which shall be practiced monthly in fire drills conducted in accordance with law;
2. the designation of appropriate locations to shelter students in case of tornado;
3. procedures for the safe dispersal of students from School property and, if necessary, a plan for the sequestration of students in a safe place other than the School;
4. design of a communications system;
5. instructions in safety precautions to be taken in case of tornado alert or warning;
6. procedures to follow whenever any employee becomes aware of an emergency or impending emergency; and
7. cooperation with such local officials and agencies such as the fire marshal and law enforcement.

See **Appendix GG** Health Plan Emergency Drills and Safety Drills.

Use of Equipment

Portable electric equipment must be handled carefully to avoid damage. Flexible electric cords connected to equipment should not be used for raising or lowering the equipment. Flexible cords must not be stapled or hung in a fashion that could damage the outer jacket or insulation.

Portable cord- and plug-connected equipment as well as extension cords must be visually inspected for external defects and internal defects before use.

A flexible cord used with grounding-type equipment must contain an equipment grounding conductor.

In highly conductive work areas, such as those inundated with water or other conductive liquids or job locations where employees or students are likely to come in contact with water or conductive liquids, the location must be approved if portable electrical equipment and flexible cords will be used.

If energized equipment is being used, employees or student's hands must not be wet when plugging and unplugging flexible cords and cord- and plug-connected equipment.

Insulating protective equipment must be used to handle energized plug and receptacle connections if there is any chance that the connection could provide a conducting path to the employee's hand.

See **Appendix HH** General Safety Procedures.

Accidents to Students

Every accident in a School facility, on School grounds, at practice sessions, or at any event sponsored by the School must be reported immediately to the person in charge and to the Head of School or his/her designee. An accident report must be completed for each accident. Accident forms are available in the School.

See **Appendix II** Form for Reporting Accidents to Students.

Visitors, Volunteers and Guests

The Board welcomes and encourages visits to School programs by parents, other adults, and interested educators. But in order for the educational program to continue undisturbed when visitors are present and to prevent the intrusion of disruptive persons, it is necessary to invoke visitor controls. All visitors, including parents and volunteers, must report to the School office upon entering the School building and sign the guest register. This procedure has been adopted for the safety of our students and staff. Children from other schools may not visit during the school day. Exceptions may be made at the Head of School or his/her designee's discretion for families who are considering enrollment.

The Head of School or his/her designee has the authority to prohibit the entry of any person, including but not limited to parents, other adults and/ or educators, to a program of the School or to expel any person when there is reason to believe the presence of such person would be detrimental to the good order of the program. If such an individual refuses to leave the School grounds or creates a disturbance, the Head of School or his/her designee is authorized to request from the local law enforcement agency whatever assistance is required to remove the individual.

The Head of School or his/her designee may promulgate such administrative guidelines as are necessary for the protection of students and staff from disruption to the educational program or the efficient conduct of their assigned tasks.

All volunteers (both new and current) having unsupervised access to students on a regular basis are hereby notified that the School may at any time require a set of fingerprints for purposes of making a criminal records check. If a criminal records check is conducted on a volunteer, and the records check reveals one of the prohibited violations, the School may no longer utilize the volunteer in a position involving unsupervised access to children on a regular basis, unless a notice is sent out to the parent or guardian of each child served by the School. The notice must be in writing, name the volunteer and indicate that the volunteer has been convicted of or entered a guilty plea to one or more of the prohibited violations. The notice must be sent to the parent or guardian on the date the School commences providing services to the child or on the date the School decides to accept the person as a volunteer after receiving the report of the result of the criminal records check, whichever is later.

Bomb Threat Policy

A bomb threat may be received by phone, mail or a personal message.

Any employee receiving a bomb threat by phone should ask the caller to give the message to the Head of School or his/her designee. If the caller refuses, then the employee who received the call should attempt to engage the caller in conversation on the phone. Obtain as much information as possible as suggested on the Bomb Threat Form. Get the nearest person's attention so that management can be notified. Call the Police on another outside line and have a tracer place on the caller if time permits.

If management determines, the building should be evacuated. Notify all building occupants of the decision to evacuate.

Account for all building occupants at the determined evacuation point. Report any missing individuals to management and the emergency responders.

Note unusual or unfamiliar objects in your area as you evacuate. Report such objects to your supervisor. **DO NOT TOUCH OR MOVE SUCH OBJECTS.**

All interior doors should remain open to minimize possible structural and compression damage.

See **Appendix JJ** Bomb Threat Form and Call Checklist.

Crisis Media Situations

Any School crisis such as injury, school bus accident or suicide should be reported to the Head of School or his/her designee office immediately along with as many details, names, etc. as possible.

In a crisis situation, it is important to have one person providing facts to the media, and ideally only after parents have been notified. No one is to report the nature or extent of injury at any time.

Depending on the situation, the Head of School or his/her designee will go immediately to the site. A building employee should be present also for parental contact and incoming inquiries.

No reporter should be allowed to roam freely in a crisis situation. He/she should be personally escorted to a designated area, and not allowed to video and interview students who are injured or in an otherwise crisis situation.

See also Policy No. 145 Media Policy.

SECTION 440

ENVIRONMENTAL HEALTH AND SAFETY

OSHA Compliance/Risk Reduction Programs

The School believes that the employees and students of the School, as well as visitors, are entitled to function in an environment as free from hazards as can reasonably be provided. In this regard and in accordance with law, the School will provide reasonable and adequate protection to the lives, safety, and health of its employees and students, in compliance with Federal and State laws and regulations.

The Head of School or his/her designee shall be responsible for the maintenance of standards in the facilities to prevent accidents and to modernize their consequences. She/he shall designate an employee who shall conduct periodic audits of health and safety conditions within the facilities of the School and take appropriate action on any violations thereof to the Head of School or his/her designee.

The Head of School or his/her designee shall ascertain that the employees and students of the School are aware of their rights to an environment free of recognized hazards, that they are properly trained in safety methods, that protective devices and equipment are available to meet safety standards, and that proper rules and records are maintained to meet the requirements of the law and the regulations of the Public Employees Risk Reduction Advisory Commission. In the event an inspection is made by a representative of the State, the Head of School or his/her designee shall report the results thereof to the Board at the meeting following the receipt of the State report.

Property, Equipment and Supplies

It is necessary for everyone to utilize property, supplies, and equipment in the course of doing their jobs. Staff should take care of these items and should know how to use them properly. Damaged equipment should be reported to the Head of School or his/her designee immediately so that it can be repaired.

The Board requires Staff and Students to be economical, in part, by turning off unnecessary lighting, turning off appliances and other equipment not in use, closing doors and windows that allow cool or warm air to escape, not running water needlessly and reporting to Head of School or his/her designee, any unnecessary use of water, gas, or electrical power. A small amount of waste by each employee or student equals a large amount of waste overall. The ability to save time and materials can contribute to the overall success of the School.

Hazard Communication Program

The Head of School or his/her designee will provide information about chemical hazards and other hazardous substances and how to control those hazards in the Hazard Communication Program.

The Program includes the following objectives:

1. Container labeling;
2. Material Safety Data Sheets; and
3. Employee Training.

The following program outlines how the School will accomplish these objectives.

Container Labeling

It is the policy of the School that no container of hazardous substances will be released for use until the following label information is verified:

- Containers are clearly labeled as to the contents
- Appropriate hazard warnings are noted
- The name and address of the manufacturer is listed

The responsibility for label verification has been assigned to the Head of School or his/her designee. To further ensure that employees are aware of the hazards of material used it is the School's policy to label all secondary containers.

The responsible staff shall ensure that all secondary containers are labeled with either an extra copy of the original manufacturer's label or with generic labels which have a block for identity and blocks for the hazard warning.

Material Safety Data Sheets (MSDS)

Copies of MSDS for all hazardous substances to which employees and students may be exposed are kept in each area where the substances are used as well as in a book in the School office. The Head of School or his/her designee will be responsible for obtaining and maintaining the data sheet system.

The Head of School or his/her designee will review incoming material safety data sheets for new and significant health/safety information. She/he will see that any new information is passed on to the employees.

MSDS will be reviewed for completeness by the Head of School or his/her designee. If an MSDS is missing or obviously incomplete, a new MSDS will be requested from the manufacturer. MSDS will be available to all employees in their work area for review. If MSDS are not available or new hazardous substance(s) in use do not have MSDS, please contact the Head of School or his/her designee immediately.

Staff Information and Training

Staff will attend a health and safety orientation set up by the Superintendent or his/her designee, for information and training on the following:

- An overview of the requirements contained in the Hazard Communication Regulation, including their rights under the Regulation.
- How to lessen or prevent exposure to these hazardous substances through usage of control plans, work practices and personal protection equipment.
- Steps the School has taken to lessen or prevent exposure to these substances.
- How to read labels and review MSDS to obtain appropriate hazard information.

When new hazardous substances are introduced, the Head of School or his/her designee will call a meeting and distribute information related to the new material.

Hazardous Substances

Information on all hazardous substances within the School can be found in the MSDS book located in the School office.

Hazardous Non-Routine Tasks

Periodically, staff are required to perform hazardous non-routine tasks. Prior to starting work on such projects, each affected employee will be given information by the Head of School or his/her designee, or the affected employee shall request such information, about hazards to which they may be exposed during such an activity.

This information will include:

1. Specific hazards:
2. Protective/safety measures which must be utilized;
3. Measures the School has taken to lessen the hazards including ventilation, respirators, presence of another employee and emergency procedures.

Toxic Hazards and Asbestos Hazards

The School is concerned for the safety of the students and staff members and will comply with applicable Federal and State statutes and regulations to protect them from hazards that may result from industrial accidents beyond the control of School officials or from the presence of asbestos materials used in previous construction.

Toxic Hazards

These hazards exist in chemicals and other substances used in the school setting such as in laboratories, science classrooms, kitchens, and in the cleaning of rooms and equipment.

The Board appoints the Head of School or his/her designee to serve as Toxic Hazard Preparedness (THP) Officer. The THP Officer will:

1. identify potential sources of toxic hazard in cooperation with material suppliers who shall supply the THP Officer with material safety data sheets (MSDS's):
2. conduct a training program for all School employees to include such topics as detection of hazards, explanation of the health hazards to which they could be exposed in their work environment, and the School's plan for communication, labeling, etc.

In fulfilling these responsibilities, the THP Officer may enlist the aid of county and municipal authorities and, if possible, the owners or operators of identified potential sources of toxic hazard.

Asbestos Hazards

In its efforts to comply with Asbestos Hazard Emergency Response Act (AHERA), the School recognizes its responsibility to:

1. inspect School buildings owned by the School for the existence of asbestos or asbestos-containing materials;
2. take appropriate actions based on the inspections;
3. maintain a program of periodic surveillance and inspection of facilities or equipment containing asbestos; and
4. comply with EPA and State regulations governing the transportation and disposal of asbestos and asbestos-containing materials.

The Head of School or his/her designee shall appoint a person to develop and implement the School's Asbestos-Management Program which will ensure proper compliance with Federal and State laws and the appropriate instruction of staff and students.

The School shall also ensure that, when conducting asbestos abatement projects, each contractor employed by the School agrees to comply with all applicable laws and regulations.

Nothing in this policy should be construed in any way as an assumption of liability by the School or by the Board for any death, injury, or illness that is the consequence of an accident or equipment failure or negligent or deliberate act beyond the control of the School, the Board or its officers and staff or employees.
